*Title:* NESHAP for Plastic Parts and Products Surface Coating (Renewal).

*ICR Numbers:* EPA ICR Number 2044.04, OMB Control Number 2060-0537.

*ICR Status:* This ICR is scheduled to expire on April 30, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

*Abstract:* Entities potentially affected by this action are the owners or operators of plastic parts and products surface coating facilities. The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart PPPP. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 91 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information;

and transmit or otherwise disclose the information.

*Estimated Number of Respondents:* 828.

*Frequency of Response:* Initially, occasionally, and semiannually.

*Estimated Total Annual Hour Burden:* 320,917.

*Estimated Total Annual Cost:* \$27,444,633, which includes \$27,180,233 in labor costs, \$16,000 in capital/startup costs, and \$248,400 in operation and maintenance (O&M) costs.

*Changes in the Estimates:* There is a small decrease in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This change in burden from the most recently approved ICR is due to an adjustment. Minor calculation errors in the previous ICR were corrected.

### General Information

#### A. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through <http://www.regulations.gov> or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for Preparing Your Comments.* When submitting comments, remember to:

- Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).

- Follow directions—The agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

- Describe any assumptions and provide any technical information and/or data that you used.

- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

- Provide specific examples to illustrate your concerns, and suggest alternatives.

- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

- Make sure to submit your comments by the comment period deadline identified.

**SUPPLEMENTARY INFORMATION:** Under section 108(a) of the Clean Air Act (CAA), the Administrator identifies and lists certain pollutants which "cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare." The EPA then issues air quality criteria for these listed pollutants, which are commonly referred to as "criteria pollutants." The air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air, in varying quantities." Under section 109 of the CAA, EPA establishes primary (health-based) and secondary (welfare-based) national ambient air quality standards (NAAQS) for pollutants for which air quality criteria are issued. Section 109(d) of the CAA requires periodic review and, if appropriate, revision of existing air quality criteria. The revised air quality criteria reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. The EPA is also required to periodically review and, if appropriate, revise the NAAQS based on the revised air quality criteria.

As part of the ongoing review of the NAAQS for particulate matter (PM), EPA released a draft document titled *Policy Assessment for the Review of the Particulate Matter National Ambient Air Quality Standards—First External Review Draft* (March 2010, EPA 452/P-10-003) for review by the Clean Air Scientific Advisory Committee (CASAC) and public comment (75 FR 4067; January 26, 2010). The first draft Policy

Assessment builds upon information presented in the *Integrated Science Assessment for Particulate Matter* (Final Report)<sup>1</sup> and two draft assessment documents, *Quantitative Health Risk Assessment for Particulate Matter—Second External Review Draft*<sup>2</sup> and *Particulate Matter Urban-Focused Visibility Assessment—Second External Review Draft*.<sup>3</sup> The first draft Policy Assessment may be accessed online through EPA's TTN Web site at [http://www.epa.gov/ttn/naaqs/standards/pm/s\\_pm\\_2007\\_pa.html](http://www.epa.gov/ttn/naaqs/standards/pm/s_pm_2007_pa.html). The EPA is soliciting advice and recommendations from the CASAC by means of a review of the first draft Policy Assessment at an upcoming public teleconference of the CASAC that will be held on April 8–9, 2010 (75 FR 8062; February 23, 2010). The EPA will consider comments received from the CASAC and the public in preparing revisions to this document. A second draft Policy Assessment document will be issued later this spring for CASAC and public review. The EPA will consider CASAC and public comments on the second draft Policy Assessment in preparing a final Policy Assessment. The final Policy Assessment will serve to “bridge the gap” between the scientific information and the judgments required of the Administrator in determining whether it is appropriate to retain or revise the current PM NAAQS.

The first draft Policy Assessment does not represent and should not be construed to represent any final EPA policy, viewpoint, or determination. The EPA will consider any public comments submitted in response to this notice when revising this document.
