

DEPARTMENT OF AGRICULTURE**Forest Service****Eastern Washington Cascades Provincial Advisory Committee and the Yakima Provincial Advisory Committee****AGENCY:** Forest Service, USDA.**ACTION:** Notice of meeting.

SUMMARY: The Eastern Washington Cascades Provincial Advisory Committee and the Yakima Provincial Advisory Committee will meet on June 30, 2010 at the Okanogan-Wenatchee National Forest Headquarters Office, 215 Melody Lane, Wenatchee, WA. During this meeting information will be shared about Okanogan-Wenatchee National Forest Travel Management Plan and provide an opportunity for the Provincial Advisory Committee to provide feedback. All Eastern Washington Cascades and Yakima Province Advisory Committee meetings are open to the public.

FOR FURTHER INFORMATION CONTACT:

Direct questions regarding this meeting to Clint Kyhl, Designated Federal Official, USDA, Okanogan-Wenatchee National Forest, 215 Melody Lane, Wenatchee, Washington 98801, phone 509-664-9200.

Dated: March 23, 2010.

Clinton Kyhl,*Designated Federal Official, Okanogan-Wenatchee National Forest.*

BILLING CODE 3410-11-P**DEPARTMENT OF COMMERCE****U.S. Census Bureau****Proposed Information Collection; Comment Request; Census Coverage Measurement Final Housing Unit Followup and Final Housing Unit Followup Quality Control Operations****AGENCY:** U.S. Census Bureau.**ACTION:** Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: To ensure consideration, written comments must be submitted on or before June 1, 2010.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Gia F. Donnalley, U.S. Census Bureau, 4600 Silver Hill Road, Room 4K067, Washington, DC 20233, 301-763-4370 (or via the internet at Gia.F.Donnalley@census.gov)

SUPPLEMENTARY INFORMATION:**I. Abstract**

The 2010 Census Coverage Measurement (CCM) Final Housing Unit Followup and Final Housing Unit Followup Quality Control Operations will be conducted in the U.S. (excluding remote Alaska) and in Puerto Rico in select CCM sampled areas. The primary sampling unit is a block cluster, which consists of one or more geographically contiguous census blocks. As in the past, the CCM operations and activities will be conducted independent of and not influence the 2010 Census operations.

CCM will be conducted to provide estimates of both net coverage error and components of census coverage, including omissions and erroneous enumerations for housing units and persons in housing units (see Definition of Terms) in order to gather information necessary to improve future censuses. The data collection and matching methodologies for previous coverage measurement programs were designed to measure only net coverage error, which measures the net difference between omissions and erroneous enumerations.

The 2010 CCM sample is a multi-phase probability sample of housing units comprising a number of distinct processes, ranging from forming block clusters, selecting the block clusters where the CCM survey will be conducted, to eventually selecting addresses for interviewing. Two samples will be selected to measure census coverage of housing units and household population: The population sample (P Sample) and the enumeration sample (E sample). These two samples have traditionally defined the samples for dual system estimation, a statistical technique for measuring net coverage error. The P Sample is a sample of housing units and persons obtained and independently enumerated from the census for a sample of block clusters,

while the E Sample is the census of housing units and enumerations in the same block clusters as the P sample.

The independent list of housing units was obtained during the CCM Independent Listing Operation, the results of which are matched to census housing units in the sample block clusters and surrounding blocks. After the CCM Independent Listing and matching operations have taken place, some cases with discrepancies between the CCM Independent Listing and the Census have been identified to receive the CCM Initial Housing Unit Followup interview. The results of the housing unit matching operations will be used to determine which CCM and Census addresses will be eligible to go to the CCM Person Interview Operation. After data collected from the CCM Person Interview is matched to person data collected by the Census, some cases with discrepancies between the CCM Person Interview and Census will be sent for another CCM interview called the CCM Person Followup Operation. A final clerical matching operation of the final census housing unit list, which contains updates since Initial Housing Operations, will be conducted. Discrepancies between the CCM housing unit and final census housing unit lists will be identified and sent to CCM Final Housing Unit Followup. A separate Federal Register Notice has already been issued for the CCM Independent Listing, CCM Initial Housing Unit Followup, CCM Person Interview, and CCM Person Followup operations.

Cases identified for Final Housing Followup will generally be cases where additional information is needed to determine housing unit status (for example, clarify if the addresses refer to a housing unit) or resolve inconsistencies observed during the matching operations between the CCM and final census addresses in the block cluster. Using a paper questionnaire tailored for the type of followup required, interviewers will contact a member (or proxy, as a last resort) of each housing unit needing followup to answer questions that might allow a resolution of housing unit status or clarify discrepancies.

A quality control operation of the Final Housing Unit Followup called the Final Housing Unit Followup Quality Control of 15.9 percent of the Final Housing Unit Followup workload will be conducted to ensure that the work performed is of acceptable quality. If a block cluster fails the quality check, the entire block cluster will be reworked. The estimate of reworked housing units
