Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of the MEP Consortium Incentive Grants program is to provide incentive grants to State educational agencies (SEAs) that participate in consortia with another SEA or other appropriate entity to improve the delivery of services to migrant children whose education is interrupted. Through this program, the Department provides financial incentives to SEAs to participate in consortia that provide high-quality project designs and services to improve the intrastate and interstate coordination of migrant education programs by addressing key needs of migratory children who have their education interrupted.

Priorities: These priorities are from the notice of final requirements for this program, published in the **Federal Register** on March 3, 2004 (69 FR 10110) and from the notice of final priority, published in the **Federal Register** on March 12, 2008 (73 FR 13217).

Absolute Priorities: For FY 2010, these priorities are absolute priorities. Under 34 CFR 75.105(c)(3), we consider only applications that meet one or more of these priorities. In order for an SEA to be considered for an incentive grant, an application from a proposed consortium in which an SEA would participate must address one or more of the following absolute priorities:

1. Services designed to improve the proper and timely identification and

recruitment of eligible migratory children whose education is interrupted;

2. Services designed (based on a review of scientifically based research) to improve the school readiness of pre-school-aged migratory children whose education is interrupted;

3. Services designed (based on a review of scientifically based research) to improve the reading proficiency of migratory children whose education is interrupted;

4. Services designed (based on a review of scientifically based research) to improve the mathematics proficiency of migratory children whose education is interrupted;

5. Services designed (based on a review of scientifically based research) to decrease the dropout rate of migratory students whose education is interrupted and improve their high school completion rate;

6. Services designed (based on a review of scientifically based research) to strengthen the involvement of migratory parents in the education of migratory students whose education is interrupted;

7. Services designed (based on a review of scientifically based research) to expand access to innovative educational technologies intended to increase the academic achievement of migratory students whose education is interrupted; and

8. Services designed (based on review of scientifically based research) to improve the educational attainment of out-of-school migratory youth whose education is interrupted.
