BILLING CODE 4160-01-C

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA-2010-N-0004]

[FDA 225-10-0007]

Memorandum of Understanding Between the Food and Drug Administration, United States Department of Health and Human Services and the Association of Minority Health Profession Schools, Inc.

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is providing notice of a memorandum of understanding (MOU) between the FDA, U.S. Department of Health and Human Services and the Association of Minority Health Profession Schools, Inc. The purpose of the MOU is to establish the terms for collaboration to enhance the diversity pool of candidates and to promote shared interests in increasing science and public health internship opportunities for socio-economically disadvantaged students.

DATES: The agreement became effective January 20, 2010.

FOR FURTHER INFORMATION CONTACT: Mary C. Hitch, Senior Policy Advisor,

Office of External Relations, Food and Drug Administration, 5600 Fishers Lane, rm. 15A07, Rockville, MD 20857, 301-827-4406

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 20.108(c), which states that all written agreements and MOUs between FDA and others shall be published in the **Federal Register**, the agency is publishing notice of this MOU.

Dated: March 29, 2010.

Leslie Kux,

Acting Assistant Commissioner for Policy.

BILLING CODE 4160-01-S

Memorandum of Understanding
between
United States Department of Health and Human Services
Food and Drug Administration
and
Association of Minority Health Profession Schools, Inc.

I. Purpose

The Food and Drug Administration, U.S. Department of Health and Human Services, and the Association of Minority Health Professions Schools, Inc. (AMHPS) share interests in promoting scientific progress through exchange of scientific capital in diverse fields of science that affect human and animal health and medicine. Both institutions foresee benefits from scientific training for academicians and students to foster a well-grounded foundation in interdisciplinary science on which scientific learning can grow. This Memorandum of Understanding (MOU) establishes the terms for collaboration to enhance diversity and to promote shared interests in various science-based academic sabbaticals, fellowships and internships.

II. Background

FDA is responsible for protecting the public health by ensuring the safety, efficacy and security of human and veterinary drugs, biological products, medical devices, the United States food supply and cosmetics. FDA is also responsible for advancing the public health by helping to speed innovations that make medical products and foods more effective, safer, and more affordable. FDA also helps the public get accurate, scientific-based information needed to use medical products and foods to improve their health.

AMHPS is a nonprofit, educational, scientific, advocacy and charitable organization that provides support for professional education, research and community service programs. These programs promote optimum health among minority and disadvantaged populations. AMHPS represents health professional schools in Historically Black Colleges and Universities and Land Grant Colleges with diverse populations – including five schools of pharmacy, four schools of medicine, two schools of dentistry and one school of veterinary medicine.

III. Substance of Agreement:

FDA enters this MOU with AMHPS to:

- Promote student education and matriculation into the health and biomedical science professions;
- Increase outreach to encourage socio-economic disadvantaged student populations and to provide opportunities to expose motivated students to participate in medical, scientific, engineering and allied health professional fellowships, sabbaticals and internships and to gain relevant knowledge, skills and experience in the science and public health at FDA;

- Promote community-based organizations' involvement in sharing public health information from FDA with populations that surround member institutions and those who are affected by health disparities; and,
- Share Web-linked public information such as public health alerts, newsletters and notices.

IV. Resource Obligations

This MOU represents the broad outline of the parties' present intent to enter specific agreements for collaborative efforts between FDA and AMHPS. It does not create binding, enforceable obligations against any party. All initiatives described in this MOU are subject to available resources. This MOU does not affect or supersede any existing or future agreements or arrangements between the parties. It also does not affect the ability of the parties to enter other agreements or arrangements related to this MOU. This MOU and all associated agreements will be subject to the applicable policies, regulations and statutes affecting FDA and AMHPS and its members.

V. Further Information:

Citizenship and Security Clearance: Individuals participating in the MOU will be United States citizens or permanent residents. Regarding the latter, all federal restrictions will be adhered to. Information may be obtained from participants by the agency for security clearance or access to FDA facilities and offices. Information obtained may be re-disclosed to other Federal agencies for the above purposes and in fulfillment of official responsibilities to the extent that such disclosure is permitted by law.

Conflict of Interest: Individual interns participants in activities under this MOU who are not U.S. Government employees will be expected to abide by conflict of interest rules and policies as specified by FDA. This may require participants to disclose their financial holdings and those of their spouse and minor children, and may limit their ability to accept gifts and have employment with entities that are substantially regulated by FDA. The parties to the MOU will be advised of any potential conflict so that conflicting assignments can be avoided consistent with the HHS/FDA requirements. If at any time prior to or during the performance of the activities under the MOU, the parties or the program participant believe that a potential or actual conflict exists, the parties or participant must notify the appropriate authorities within their respective institutions and contact the designated FDA official listed on the MOU so that the necessary action/s can be undertaken. A determination will be made by FDA as to whether a conflict of interest exists and, if so, as to how to resolve or mitigate it. Parties to the MOU will make every effort to avoid activities or relationships that would cause a reasonable person to question the impartiality of their actions.

Nonpublic Information: All participants in this program must recognize that information to which they have access that contains any of the following types of information must be protected from unauthorized disclosure: (1) confidential commercial information, such as the information that would be protected from public disclosure pursuant to Exemption 4 of the Freedom of Information Act (FOIA); (2) personal privacy information, such as the information that would be protected from public disclosure pursuant to Exemption 6 or 7(c) of the FOIA; or (3) information that is otherwise protected from public disclosure by Federal statutes and their implementing regulations (e.g., Trade Secrets Act (18 U.S.C. § 1905), the Privacy Act (5 U.S.C. § 552a), the Freedom of Information Act (5 U.S.C. §

552), the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), and the Health Insurance Portability and Accountability Act (HIPAA), Pub. L. 104-191).
