D. Working With Other Recovery Act Programs and Federal Partners

The Recovery Act made funds available to a number of other Federal programs that will impact the creation and expansion of healthcare occupations and other high growth and emerging industries, as well as providing training for those occupations. DOL is partnering with other Federal agencies to support the creation of jobs by developing a pipeline of skilled workers in the healthcare industry and other high growth and emerging industries. Where possible, ETA encourages applicants to connect their workforce development strategies to other Recovery Act-funded projects that provide training, create jobs or impact the skill requirements of existing jobs. ETA recommends that applicants review other parts of the Recovery Act. For example, there are specific Recovery Act activities related to healthcare through the Department of Education and Department of Health and Human Services (HHS), Health Resources and Services Administration (HRSA). For other high growth and emerging industries, it may be appropriate to review other Recovery Act programs from the Department of Energy, Department of Transportation, etc. For links to federal agency Recovery Act Web sites, please visit <http://recovery.gov/?q=content/agencies>.

Furthermore, other Federal departments, including Education, Health and Human Services, and Energy, also have or are developing Web-based resources that should be leveraged or linked to through this project. DOL will make the connections between the HVCP grantee and cognizant Federal officials in relevant Federal departments and agencies, during the first 60 days following award.
