

anticipates the need to improve existing levees in the Presidio FCP or to relocate portions of the Presidio FCP levees. An Environmental Impact Statement (EIS) was prepared to evaluate potential consequences of each action alternative in reference to flood control improvements. Following the evaluation of each alternative in the EIS, the USIBWC selected Alternative 2 (rehabilitation of existing levee to provide 25-year flood protection) as the preferred alternative, and will use the ETS as a guide in developing construction plans.

FOR FURTHER INFORMATION CONTACT: Mr. Daniel Borunda, Acting Division Chief, Environmental Management Division, USIBWC, 4171 North Mesa Street, C-100, El Paso, Texas 79902 or e-mail: daniel.borunda@ibwc.gov.

SUPPLEMENTARY INFORMATION: The Presidio FCP lies within the Presidio-Ojinaga Valley, in southern Presidio County, Texas. It extends approximately 13.1 river miles along the Rio Grande Texas-Mexico border. The length of the levee system in the United States (north levee of the Presidio FCP) is approximately 15.3 miles, and includes the downstream section of Cibolo Creek, a tributary of the Rio Grande north of the City of Presidio.

During September 2008, the Presidio FCP experienced severe flooding conditions due to water releases from the Luis Leon Reservoir on Rio Conchos in Mexico. The flooding caused substantial damage to the Presidio FCP, including levee breaches, overtopping, piping/sand boils, under-seepage, and severe surface and slope erosion. The flooding also potentially compromised the integrity of the levee foundation within several levee segments, primarily at locations of old river meanders. Emergency responses during the flooding event included filling over 25,000 sand bags and placing the bags on the existing levee to add support, and using Department of Defense helicopters to fill bridge openings with larger sand bags in existing railroad right-of-ways to create secondary levees. The sandbags and secondary levees prevented the City of Presidio from experiencing more extensive flooding.

In response to the September 2008 flooding damage, the USIBWC developed engineering alternatives for long-term improvement of the Presidio FCP flood containment capacity. The EIS evaluates a No Action Alternative and six Action Alternatives for levee rehabilitation or relocation that would allow USIBWC to minimize potential environmental impacts and fulfill the project goal of flood protection. A Draft

EIS was released for a 45-day public review period on November 24, 2009. Oral comments were also received from during a public hearing held in the City of Presidio, Texas on December 10, 2009. The Environmental Protection Agency Notice of Availability of the Final PEIS was published in the **Federal Register** on February 26, 2010 for a 30-day wait period.

Finding: Based on engineering, economic, and environmental considerations, the USIBWC has selected Alternative 2 (repair and raise the levee to provide 25-year flood protection) as the preferred option for implementation. Because of the damage to the existing levee during the September 2008 flooding (including severe erosion, levee breaches, and levee under-seepage), the existing levee is insufficient to contain a 25-year design flood. Therefore, under Alternative 2, the existing levee would be repaired, and sections of the existing levee would be raised, as needed, to provide the 25-year design flood protection. This would improve the functionality of the existing levee and provide protection to the City of Presidio and adjacent agricultural areas from a 25-year design flood.

Availability: Copies of the Record of Decision may be obtained by request at the above address. Electronic copies may also be obtained from the USIBWC Home Page at: <http://www.ibwc.gov>.

Dated: March 31, 2010.

General Counsel.

DEPARTMENT OF JUSTICE

Notice of Proposed Consent Decree Under the Clean Air Act

Notice is hereby given that on March 31, 2010, two proposed Consent Decrees were lodged. *United States et al. v. Shell Chemical LP*, Civil Action No. 4:10-cv-01042, was lodged with the United States District Court for the Southern District of Texas. *United States v. Shell Chemical Yabucoa, Inc.*, Civil Action No. 3:10-cv-1268, was lodged with the United States District Court for the District of Puerto Rico.

The Consent Decrees in these Clean Air Act enforcement actions against Shell Chemical LP and Shell Chemical Yabucoa, Inc. (collectively "Shell") resolve allegations by the Environmental Protection Agency, asserted in complaints filed together with the Consent Decrees, under Section

113(b) of the Clean Air Act, 42 U.S.C. 7413(b), for alleged environmental violations at Shell Chemical LP's petroleum refineries in Saraland, Alabama and St. Rose, Louisiana, and at Shell Chemical Yabucoa, Inc.'s petroleum refinery in Yabucoa, Puerto Rico. The proposed Consent Decree in the Shell Chemical LP matter also resolves separate but related state law claims brought by co-plaintiffs Alabama and Louisiana.

These are two of numerous national settlements reached as part of the EPA's Clean Air Act Petroleum Refinery Initiative. Consistent with the objectives of EPA's national initiative, in addition to the payment of civil penalties, the settlements require Shell to perform injunctive relief to reduce emissions of nitrogen oxides, sulfur dioxide, volatile organic compounds, and benzene.

The Department of Justice will receive comments relating to the proposed Consent Decrees for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to the matters as *United States et al. v. Shell Chemical LP*, DOJ Ref. No. 90-5-2-1-08703 and/or *United States v. Shell Chemical Yabucoa, Inc.*, DOJ Ref. No. 90-5-2-1-08703/1.

Both proposed Consent Decrees may be examined at the following Regional Offices of the United States Environmental Protection Agency: Region 2, 290 Broadway, New York, New York 10007-1866; Region 4, Sam Nunn Atlanta Federal Center, 61 Forsyth Street, SW., Atlanta, GA 30303-8960; and Region 6, 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202.
