Forest Service

Title: National Visitor Use Monitoring, and Customer and Use Survey Techniques for Operations, Management, Evaluation, and Research.

OMB Control Number: 0596-0110.

Summary of Collection: The National Forest Management Act (NFMA) of 1976 and the Government Performance and Results Act of 1993 (GPRA) require a comprehensive assessment of present and anticipated uses, demand for and supply of renewable resources from the nation's public and private forests and rangelands. An important element in the reporting is the number of visits to National Forests and Grasslands, as well as to Wilderness Areas that the agency manages. The Forest Service and Department of Interior agencies will use the National Visitor Use Monitoring (NVUM) survey to collect the information.

Need and Use of the Information: The Customer and Use Survey Techniques for Operations, Management, Evaluation and Research (CUSTOMER) study combines several different survey approaches to gather data describing visitors to and users of public recreation lands, including their trip activities, satisfaction levels, evaluations, demographic profiles, trip characteristics, spending, and annual visitation patterns. FS will use face-to-face interviewing for collecting information on-site as well as written survey instruments to be mailed back by respondents. The NVUM results and data are a source of data and information in addressing forest land management planning, national strategic planning, service to minorities, and identification of a forest's recreation niche.

Description of Respondents: Individuals or households.

Number of Respondents: 66,900.

Frequency of Responses: Reporting; Quarterly; Annually.

Total Burden Hours: 9,067.

SUPPLEMENTARY INFORMATION:

Title: Tart Cherries Grown in Michigan, New York, Pennsylvania, Oregon, Utah, Washington and Wisconsin, Marketing Order No. 930 (7 CFR part 930).

OMB Number: 0581-0177.

Expiration Date of Approval: August 31, 2010.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: Marketing order programs provide an opportunity for producers of fresh fruits, vegetables and specialty crops, in a specified production area, to work together to solve marketing problems that cannot be solved individually. Under the authority of the Agricultural Marketing Agreement Act of 1937 (AMAA), as amended (7 U.S.C. 601-674), industries may enter into marketing orders. The Secretary of

Agriculture oversees their operations and issues regulations recommended by a committee of representatives from each commodity industry.

The information collection requirements in this request are essential to carry out the intent of the AMAA, and to administer the program, which has operated since 1996.

The tart cherry marketing order (7 CFR part 930) regulates the handling of tart cherries in Michigan, New York, Pennsylvania, Oregon, Utah, Washington, and Wisconsin, hereinafter referred to as the "order." The order authorizes volume regulations that provide for a reserve pool in times of heavy cherry supplies. Provisions not currently in use include minimum grade and size regulations, and market research and development projects, including paid advertising.

The order, and rules and regulations issued there under, authorize the Cherry Industry Administrative Board (Board), the agency responsible for local administration of the order, to require handlers and growers to submit certain information. Much of this information is compiled in aggregate and provided to the industry to assist in carrying out marketing decisions.

The Board has developed forms as a means for persons to file the required and minimum necessary information with the Board relating to tart cherry inventories, shipments, diversions, and other information needed to effectively carry out the requirements of the order, and their use is necessary to fulfill the intent of the AMAA as expressed in the order. Since this order regulates canned and frozen forms of tart cherries, reporting requirements will be in effect all year. A USDA form is used to allow growers to vote on amendments or continuance of the marketing order. In addition, tart cherry growers and handlers who are nominated by their peers to serve as representatives on the Board must file nomination forms with the Secretary. Formal rulemaking amendments to the order must be approved in grower referenda conducted by the Secretary. In addition, USDA may conduct a referendum to determine industry support for continuation of the order. Finally, handlers are asked to sign an agreement to indicate their willingness to comply with the provisions of the order if the order is amended. These forms are included in this request.

The information collected is used only by authorized representatives of the USDA, including AMS, Fruit and Vegetable Programs' regional and headquarter's staff, and authorized employees of the Board. Authorized
