SUMMARY: On March 12, 2010, the Department of Education published in the **Federal Register** (75 FR 12072) a notice inviting applications for new awards for FY 2010 (NIA) for the Investing in Innovation Fund. This notice makes a correction to the March 12 NIA.

SUPPLEMENTARY INFORMATION:**Correction**

On page 12073, we included a footnote providing the Department's interpretation of the core academic subject of science as including STEM education (science, technology, engineering, and mathematics) which encompasses a wide range of disciplines. As an example of those disciplines, we intended to include computer science rather than science. To correct this error, the Department makes the following correction to the March 12 NIA:

On page 12073, under the heading *Absolute Priority 3—Innovations That Complement the Implementation of High Standards and High-Quality Assessments*, in the third column, in footnote number one, in line six, "including science" is replaced with "including computer science." *Program Authority:* Section 14007 of division A

of the American Recovery and Reinvestment Act of 2009, Public Law 111-5, as amended by section 307 of division D of the Consolidated Appropriations Act, 2010, Public Law 111-117.
