**SUPPLEMENTARY INFORMATION:**

**Background and Purpose**

Section 70110 of title 46, United States Code, enacted as part of section 102(a) of the Maritime Transportation Security Act of 2002 (Pub. L. 107-295, Nov. 25, 2002), authorizes the Secretary of Homeland Security to prescribe conditions of entry into the United States on vessels arriving from ports that are not maintaining effective anti-terrorism measures and may deny entry into the United States to any vessel that does not meet such conditions. It also requires public notice of the ineffective anti-terrorism measures. The Secretary has delegated to the Coast Guard authority to carry out the provisions of this section. Previous notices have imposed or removed conditions of entry on vessels arriving from certain countries, and those conditions of entry and the countries they pertain to remain in effect unless modified by this notice.

Based on an assessment conducted pursuant to the provisions of 46 U.S.C. 70108 and the International Ship and Port Facility (ISPS) Code, the Coast Guard has determined that ports in the Democratic Republic of Sao Tome and Principe are not maintaining effective anti-terrorism measures. Inclusive to this determination is an assessment that the Democratic Republic of Sao Tome and Principe presents significant risk of introducing instruments of terror into international maritime commerce. The Coast Guard notified the Department of

State of this determination pursuant to 46 U.S.C. 70110(c).

The United States notified the Democratic Republic of Sao Tome and Principe of this determination in July of 2009, and identified steps necessary to improve the antiterrorism measures in use at ports in the Democratic Republic of Sao Tome and Principe, as required by 46 U.S.C. 70109. The United States conducted a visit in February 2010 reconfirming that the identified deficiencies have not been corrected.

Accordingly, effective April 27, 2010, the Coast Guard will impose the following conditions of entry on vessels that visited ports in the Democratic Republic of Sao Tome and Principe during their last five port calls. Vessels must:

- Implement measures per the ship's security plan equivalent to Security Level 2 while in a port in the Democratic Republic of Sao Tome and Principe. As defined in the ISPS Code and incorporated herein, "Security Level 2" refers to the "level for which appropriate additional protective security measures shall be maintained for a period of time as a result of heightened risk of a security incident."

- Ensure that each access point to the ship is guarded and that the guards have total visibility of the exterior (both landside and waterside) of the vessel while the vessel is in ports in the Democratic Republic of Sao Tome and Principe.

- Guards may be provided by the ship's crew; however, additional crewmembers should be placed on the ship if necessary to ensure that limits on maximum hours of work are not exceeded and/or minimum hours of rest are met, or provided by outside security forces approved by the ship's master and Company Security Officer. As defined in the ISPS Code and incorporated herein, "Company Security Officer" refers to the "person designated by the Company for ensuring that a ship security assessment is carried out, that a ship security plan is developed, submitted for approval, and thereafter implemented and maintained and for liaison with port facility security officers and the ship security officer."

- Attempt to execute a Declaration of Security while in port in the Democratic Republic of Sao Tome and Principe;

- Log all security actions in the ship's log; and

- Report actions taken to the cognizant Coast Guard Captain of the Port prior to arrival into U.S. waters.

In addition, based on the findings of a Coast Guard boarding or examination, vessels may be required to ensure that each access point to the ship is guarded

by armed, private security guards and that they have total visibility of the exterior (both landside and waterside) of the vessel while in U.S. ports. The number and position of the guards has to be acceptable to the cognizant Coast Guard Captain of the Port prior to the vessel's arrival.

Consistent with 46 U.S.C. 70110, the United States may deny entry into the United States to any vessel that does not meet the conditions set forth herein. This notice also informs passengers of the ineffective anti-terrorism measures at ports in the Democratic Republic of Sao Tome and Principe.

This notice is issued under authority of 46 U.S.C. 70110(a)(3).

Dated: March 25, 2010.
