SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0228.
Title: Section 80.59, Compulsory Ship Inspections.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents and Responses: 100 respondents; 100 responses.

Estimated Time Per Response: 2 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 154, 303, 307(e), 309, and 332.

Total Annual Burden: 200 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget in order to obtain the full three year clearance from them. The Commission is requesting an extension (no change in the reporting and/or recordkeeping requirement). There is a 260 hour reduction in the total annual burden which is due to fewer respondents subject to these requirements and a decrease in the number of vessels requesting waivers.

The requirements contained in section 80.59 of the Commission's rules are necessary to implement the provisions of section 362(b) of the Communications Act of 1934, as amended. Section 80.59(d) states that the Commission may, upon a finding

that the public interest would be served, grant a waiver of the annual inspection required by section 362(b), for a period of not more than 90 days for the sole purpose of enabling the United States vessel to complete its voyage and proceed to a port in the United States when an inspection can be held. An information application must be submitted by a ship's owner, operator, or authorized agent. The application must be submitted to the Commission's District Director or Resident Agent in charge of the FCC office nearest the port of arrival at least three days for the ship's arrival. The application must provide the specific information in section 80.59.

Although this rule section also requires notation in the ship's station log that certifies that the ship has/has not passed inspection, that requirement has been accounted for in OMB Control Number 3060-0835.

The information is used by FCC staff to determine the eligibility of a vessel for a waiver of the required annual radio station inspection, pursuant to section 362(b) of the Communications Act of 1934, as amended. If the collection were not conducted, the Commission would be unable to grant eligible vessels waivers and such ships would be unable to sail until an inspection was performed. This, in turn, would require an increased expenditure for agency travel funds and/or additional personnel, as well as additional operating costs for vessels required to remain in port until an inspection can be completed.
