

Samsung requests that DOE prescribe an alternate test procedure, whereby the test procedure were modified to calculate the energy of the unit by testing the unit with the anti-sweat heaters in the "on" position as equal to the energy of the unit tested with the anti-sweat heaters in the "off" position plus the Anti-Sweat Heater Power times 1.3, similar to those prescribed within waivers granted to GE<sup>3</sup> and Whirlpool,<sup>4</sup> to allow Samsung to accurately evaluate the energy consumption for the following Samsung refrigerator-freezer models:

RB\*\*\*H\*\*\*  
RF\*\*\*H\*\*\*  
RF#\*\*\*H\*\*\*  
RS\*\*\*H\*\*\*  
RS#\*\*\*H\*\*\*

### Conclusion

On the grounds that current test methods for refrigerator-freezers will result in inaccurate evaluation of energy consumption, Samsung requests that, until a final rule prescribing a test method for adaptive anti-sweat heater technologies, a waiver is granted for Samsung refrigerator-freezer models which utilize adaptive anti-sweat heater technologies.

By granting Samsung the requested waiver and interim waiver, DOE will ensure that advancements in technologies are not hindered by regulations, and that similar products are tested and rated for energy consumption on a comparable basis.

### Affected Persons

Primarily affected persons in the refrigerator-freezer category include BSH Home Appliances Corp. (Bosch-Siemens Hausgerate GmbH), Electrolux Home Products, Equator, Fisher & Paykel Appliances Inc., GE Appliances, Haier America Trading, L.L.C., Heartland Appliances, Inc., Kelon Electrical Holdings Co., Ltd., Liebherr Hausgerate, LG Electronics Inc., Northland-Marvel, Sanyo Fisher Company, Sears, Sub-Zero Freezer Company, U-Line, Viking Range, W. C. Wood Company, and Whirlpool Corporation.

The Association of Home Appliance Manufacturers is also generally interested in energy efficiency requirements for appliances, including refrigerator-freezers. Samsung will notify all these entities as required by the Department's rules and provide them with a version of this Petition.

Sincerely,  
Michael Moss,

[Docket No. CP09-455-000; Docket No. CP09-456-000]

#### Florida Gas Transmission Company, LLC; Transcontinental Gas Pipe Line Company, LLC; Florida Gas Transmission Company, LLC; Notice of Availability of the Environmental Assessment for the Proposed Mobile Bay Lateral Extension Project and the Pascagoula Expansion Project

April 9, 2010.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) of the Mobile Bay Lateral Extension Project (Mobile Bay Project) proposed by Florida Gas Transmission Company, LLC (FGT) and the Pascagoula Expansion Project proposed by FGT and Transcontinental Gas Pipe Line Company, LLC (Transco) in the above referenced dockets.

The EA assesses the potential environmental effects of the construction and operation of the proposed Mobile Bay Project and the Pascagoula Expansion Project in accordance with the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed projects, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

This EA was prepared in cooperation with the U.S. Army Corps of Engineers, the U.S. Fish and Wildlife Service (USFWS); and the Mississippi Department of Wildlife, Fisheries, and Parks.

The proposed Mobile Bay Project includes the following proposed facilities:

- Approximately 8.8 miles of 24-inch-diameter mainline pipeline, from near Grand Bay in Mobile County, Alabama to the existing FGT Compressor Station (CS) 44 in Mobile County, Alabama, (milepost [MP] 0.0);
- One new Meter and Regulation (M&R) (Grand Bay M&R Station) with pig launcher in Grand Bay, Alabama (MP 8.8);
- One new Over Pressure Protection Regulator Station with pig receiver in Citronelle, Alabama); and

- Modifications to the existing FGT CS 44.

The Pascagoula Expansion Project would consist of the following facilities:

- A receipt meter station near Pascagoula in Jackson County, Mississippi;
- Approximately 15.5 miles of 26-inch-diameter jointly owned pipeline from Jackson County, Mississippi to Grand Bay, Mobile County, Alabama;
- Modifications to FGT/Transco's existing Compressor Station 82 in Mobile County, Alabama; and
- Minor above-ground facilities.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426. (202) 502-8371.

Copies of the EA have been mailed to Federal, State, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below.

Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts.
