Samsung requests that DOE prescribe an alternate test procedure, whereby the test procedure were modified to calculate the energy of the unit by testing the unit with the anti-sweat heaters in the “on” position as equal to the energy of the unit tested with the anti-sweat heaters in the “off” position plus the Anti-Sweat Heater Power times 1.3, similar to those prescribed within waivers granted to GE and Whirlpool, to allow Samsung to accurately evaluate the energy consumption for the following Samsung refrigerator-freezer models:

RB****H***
RF****H***
RS****H***
RS****H***

**Conclusion**

On the grounds that current test methods for refrigerator-freezers will result in inaccurate evaluation of energy consumption, Samsung requests that, until a final rule prescribing a test method for adaptive anti-sweat heater technologies, a waiver is granted for Samsung refrigerator-freezer models which utilize adaptive anti-sweat heater technologies.

By granting Samsung the requested waiver and interim waiver, DOE will ensure that advancements in technologies are not hindered by regulations, and that similar products are tested and rated for energy consumption on a comparable basis.

**Affected Persons**

The Association of Home Appliance Manufacturers is also generally interested in energy efficiency requirements for appliances, including refrigerator-freezers. Samsung will notify all these entities as required by Department’s rules and provide them with a version of this Petition.

Sincerely,

Michael Moss,
In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. Go to http://www.ferc.gov/esubscription.htm.

Kimberly D. Bose, Secretary.

[Project No. 516–459]

South Carolina Electric & Gas Company, South Carolina; Notice of Public Meeting on Environmental Assessment

April 9, 2010.

The Federal Energy Regulatory Commission (Commission) hereby gives notice that members of its staff will conduct a public meeting on the draft environmental assessment (Draft EA) for the Saluda Hydroelectric Project (FERC Project No. 516–459). In addition to or in lieu of sending written comments on the Draft EA, you are invited to attend a public meeting that will be held to receive comments on the Draft EA. The time and location of this meeting is as follows:

Saluda Project Meeting

Date: April 29, 2010.
Time: 7 to 9:30 p.m. (EST).
Place: Saluda Shoals Park, River Center Conference Center.
Address: 5605 Bush River Road, Columbia, SC 29211–2611.

The purpose of this meeting is to solicit comments on the Draft EA prepared as part of processing the relicensing application for the Saluda Project. The Draft EA was issued and publicly noticed on March 24, 2010, and is available for review on the Commission’s Web site at http://www.ferc.gov under the eLibrary link.

For further information, contact Lee Emery at (202) 502–8379 or at lee.emery@ferc.gov.
