### III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received no comments in response to the March 4, 2010, Federal Register notice (75 FR 9896; FRL–8813–5) announcing the Agency’s receipt of request for voluntary cancellation of the product listed in Table 1.

### IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested cancellation of the Maneb registration identified in Table 1. Accordingly, the Agency hereby orders that the product registration identified in Table 1 is canceled. The effective date of the cancellation that is the subject of this notice is April 16, 2010. Any distribution, sale, or use of existing stocks of the product identified in Table 1 in a manner inconsistent with any of the Provisions for Disposition of Existing Stocks set forth in Unit VI. will be a violation of FIFRA.

### V. What is the Agency’s Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the Federal Register. Thereafter, following the public comment period, the Administrator may approve such a request. The notice of receipt for this action was published for comment on March 4, 2010. The comment period closed on April 5, 2010.

### VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the action. The existing stocks provision for the product subject to this order is as follows:

1. The registrant may continue to sell or distribute existing stocks of Maneb end-use product identified in Table 1 until such stocks are exhausted.
2. Persons other than the registrant may continue to sell or distribute existing stocks of Maneb products identified in Table 1 with previously approved labeling until such stocks are exhausted.
3. Persons other than the registrant may use the Maneb end-use products identified in Table 1 until exhausted. Any use of existing stocks must be in a manner consistent with the previously approved labeling for that product.

### VII. FOR FURTHER INFORMATION CONTACT

To view public comments and related administrative actions for this registration, please visit the FIFRA Public Docket at https://www.epa.gov/pesticides/maneb-registration-41708. Additional information may be obtained from: Donald Law, Office of Partnerships and Regulatory Assistance, EPA Region 8, 1595 Wynkoop Street, Denver, Colorado, 80202–1129, (303) 312–7015, law.donald@epa.gov.
Hayden Power Station permit does not comply with 40 CFR part 70 in that: (I) the title V permit fails to require compliance with particulate matter limits; and (II) the title V permit fails to ensure compliance with Prevention of Significant Deterioration (PSD) requirements in regard to carbon dioxide emissions.

On March 24, 2010, the Administrator issued an order partially granting and partially denying the petition. The order explains the reasons behind EPA’s conclusions.

Dated: April 7, 2010.

Carol L. Campbell,
Acting Regional Administrator, Region 8.

Environmental Impacts Statements; Notice of Availability

Weekly receipt of Environmental Impact Statements Filed 04/05/2010

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA has met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA’s comment letters, in the Federal Register. Since February 2008, EPA has been including its comment letters on EISs on its Web site at: http://www.epa.gov/compliance/nepa/eisdata.html. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA’s comments on EISs available to the public. Accordingly, after March 31, 2010, EPA will discontinue the publication of this notice of availability of EPA comments in the Federal Register.
