

10. Advisor Discussion and Recommendations

11. Other business

The order in which the agenda items are addressed may change. The AP will meet as late as necessary to complete scheduled business.

**Special Accommodations**

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kitty M. Simonds, (808) 522-8220 (voice) or (808) 522-8226 (fax), at least 5 days prior to the meeting date.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: April 13, 2010.

**Tracey L. Thompson,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

[FR Doc. 2010-8711 Filed 4-15-10; 8:45 am]

**BILLING CODE 3510-22-S**

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**RIN 0648-XV83**

**Pacific Fishery Management Council; Public Meeting**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public meeting.

**SUMMARY:** The Pacific Fishery Management Council's (Pacific Council) Ad Hoc Salmon Amendment Committee (SAC) will hold a meeting to develop draft alternatives and plan analyses for an amendment to the Pacific Coast Salmon Fishery Management Plan (FMP) to address the Magnuson-Stevens Act (MSA) requirements for annual catch limits (ACL) and accountability measures (AM). This meeting of the SAC is open to the public.

**DATES:** The meeting will be held Thursday, May 6, 2010, from 9 a.m. to 4:30 p.m. and Friday, May 7, 2010, from 8:30 a.m. to 3 p.m.

**ADDRESSES:** The meeting will be held at the Pacific Council Office, Large Conference Room, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384; telephone: (503) 820-2280.

**FOR FURTHER INFORMATION CONTACT:** Mr. Chuck Tracy, Salmon Management Staff Officer, Pacific Fishery Management Council; telephone: (503) 820-2280.

**SUPPLEMENTARY INFORMATION:** The reauthorized MSA established new

requirements to end and prevent overfishing through the use of ACLs and AMs. Federal FMPs must establish mechanisms for ACLs and AMs by 2010 for stocks subject to overfishing and by 2011 for all others, with the exceptions of stocks managed under an international agreement or stocks with a life cycle of approximately one year.

On January 16, 2009, NMFS published amended guidelines for National Standard 1 (NS1) of the MSA to provide guidance on how to comply with new ACL and AM requirements. The NS1 guidelines include recommendations for establishing several related reference points to ensure scientific and management uncertainty are accounted for when management measures are established.

The purpose of this meeting is to develop alternatives to address those issues, and to plan analyses that will be used to evaluate those alternatives in a National Environmental Policy Act (NEPA) analysis.

Although non-emergency issues not contained in the meeting agenda may come before the SAC for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

**Special Accommodations**

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820-2280 at least 5 days prior to the meeting date.

Dated: April 13, 2010.

**Tracey L. Thompson,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

[FR Doc. 2010-8710 Filed 4-15-10; 8:45 am]

**BILLING CODE 3510-22-S**

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**RIN 0648-XV67**

**Taking and Importing of Marine Mammals**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; affirmative finding.

**SUMMARY:** The Assistant Administrator for Fisheries, NMFS, (Assistant Administrator) has granted a request for an affirmative finding to the Government of Ecuador under the Marine Mammal Protection Act (MMPA). This affirmative finding will allow yellowfin tuna harvested in the eastern tropical Pacific Ocean (ETP) in compliance with the International Dolphin Conservation Program (IDCP) by Ecuadorian-flag purse seine vessels or purse seine vessels operating under Ecuadorian jurisdiction to be imported into the United States. The affirmative finding was based on review of documentary evidence submitted by the Government of Ecuador and obtained from the Inter-American Tropical Tuna Commission (IATTC) and the U.S. Department of State.

**DATES:** The affirmative finding is effective from April 1, 2010, through March 31, 2015, subject to annual review by NMFS.

**FOR FURTHER INFORMATION CONTACT:** Regional Administrator, Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213; phone 562-980-4000; fax 562-980-4018.

**SUPPLEMENTARY INFORMATION:** The MMPA, 16 U.S.C. 1361 *et seq.*, allows the entry into the United States of yellowfin tuna harvested by purse seine vessels in the ETP under certain conditions. If requested by the harvesting nation, the Assistant Administrator will determine whether to make an affirmative finding based upon documentary evidence provided by the government of the harvesting nation, the IATTC, or the Department of State.

The affirmative finding process requires that the harvesting nation is meeting its obligations under the IDCP and obligations of membership in the IATTC. Every 5 years, the government of the harvesting nation must request an affirmative finding and submit the required documentary evidence directly to the Assistant Administrator. On an annual basis, NMFS will review the affirmative finding and determine whether the harvesting nation continues to meet the requirements. A nation may provide information related to compliance with IDCP and IATTC measures directly to NMFS on an annual basis or may authorize the IATTC to release the information to NMFS to annually renew an affirmative

finding determination without an application from the harvesting nation.

An affirmative finding will be terminated, in consultation with the Secretary of State, if the Assistant Administrator determines that the requirements of 50 CFR 216.24(f) are no longer being met or that a nation is consistently failing to take enforcement actions on violations, thereby diminishing the effectiveness of the IDCP.

As a part of the affirmative finding process set forth in 50 CFR 216.24(f), the Assistant Administrator considered documentary evidence submitted by the Government of Ecuador or obtained from the IATTC and the Department of State and has determined that Ecuador has met the MMPA's requirements to receive an affirmative finding.

After consultation with the Department of State, the Assistant Administrator issued Ecuador's affirmative finding, allowing the continued importation into the United States of yellowfin tuna and products derived from yellowfin tuna harvested in the ETP by Ecuadorian-flag purse seine vessels or purse seine vessels operating under El Salvadorian jurisdiction. Ecuador's affirmative finding will remain valid through March 31, 2015, subject to subsequent annual reviews by NMFS.

Dated: April 12, 2010.

**Eric C. Schwaab,**

*Assistant Administrator for Fisheries,  
National Marine Fisheries Service.*

## DEPARTMENT OF COMMERCE

### National Institute of Standards and Technology

#### International Code Council: The Update Process for the International Codes and Standards

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice.

**SUMMARY:** The International Code Council (ICC), promulgator of the International Codes and Standards, maintains a process for updating the entire family of International Codes based on receipt of proposals from interested individuals and organizations involved in the construction industry as well as the general public. The codes are updated every three years (2009—current edition, 2012, 2015 editions, etc.). In the past, the codes were updated on 2–18 month cycles, with an

intervening supplement between cycles. Starting with the 2009/2010 Cycle, ICC is transitioning to a development cycle where there will only be a single cycle of code development with the codes split into two groups. For each group of codes, there are two hearings for each code development cycle; the first where a committee considers the proposals and recommends an action on each proposal and the second to consider comments submitted in response to the committee action on proposals.

The purpose of this notice is to increase public participation in the system used by ICC to develop and maintain its codes and standards. The publication of this notice by the National Institute of Standards and Technology (NIST) on behalf of ICC is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the codes or standards referenced in the notice.

**DATES:** The date of the next final action hearing is May 14–22, 2010 in Dallas, Texas at the Sheraton Dallas Hotel.

Completion of this cycle results in the 2012 edition of the International Codes which are scheduled to be published by April 2011. For detailed information on the 2009/2010 Cycle, go to: <http://www.iccsafe.org/cs/codes/Pages/cycle.aspx>

**FOR FURTHER INFORMATION CONTACT:** Mike Pfeiffer, PE, Secretary, Code Development, 4051 West Flossmoor Road, Country Club Hills, Illinois 60478.

#### SUPPLEMENTARY INFORMATION:

##### Background

ICC produces the only family of Codes and Standards that are comprehensive, coordinated, and necessary to regulate the built environment. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning new and existing construction.

The Code Development Process is initiated when proposals from interested persons, supported by written data, views, or arguments are solicited and published in the Proposed Changes document. This document is posted a minimum of 30 days in advance of the first hearing and serves as the agenda.

At the first hearing (Code Development Hearing), the ICC Code Development Committee considers testimony on every proposal and acts on each one individually (Approval, Disapproval, or Approval as Modified). The results are published in a report entitled the Report of the Public Hearing, which identifies the disposition of each proposal and the

reason for the committee's action.

Anyone wishing to submit a comment on the committee's action, expressing support or opposition to the action, is provided the opportunity to do so. Comments received are published and distributed in a document called the Final Action Agenda which serves as the agenda for the second hearing (Final Action Hearing). As part of ICC's Governmental Consensus Process, at the Final Action Hearing, only ICC's Governmental Members are permitted to vote as they have no vested interest other than health, safety and welfare in the enforcement of the code. Proposals which are approved at the second hearing are incorporated in the subsequent Edition, with the next cycle starting with the submittal deadline for proposals.

ICC maintains a mailing list of interested parties who will be sent a complimentary CD, free of charge, of all code development documents from ICC's Chicago District Office:

International Code Council, 4051 W Flossmoor Road, Country Club Hills, Illinois 60478; or download a copy from the ICC Web site noted previously.

The International Codes and Standards consist of the following:

##### ICC Codes

- International Building Code.
- International Energy Conservation Code.
- International Existing Building Code.
- International Fire Code.
- International Fuel Gas Code.
- International Mechanical Code.
- ICC Performance Code for Buildings and Facilities.
- International Plumbing Code.
- International Private Sewage Disposal Code.
- International Property Maintenance Code.
- International Residential Code.
- International Wildland-Urban Interface Code.
- International Zoning Code.

##### ICC Standards

ICC A 117.1: Accessible and Usable Buildings and Facilities.

ICC 300: Standard on Bleachers, Folding and Telescopic Seating and Grandstands.

ICC 400: Standard on the Design and Construction of Log Structures.

ICC 500: ICC/NSSA Standard on the Design and Construction of Storm Shelters.

ICC 600: Standard for Residential Construction in High Wind Areas.

ICC 700: National Green Building Standard.

The maintenance process for ICC Standards such as ICC A117.1 follows a
