SUPPLEMENTARY INFORMATION:

I. Abstract

The Federal Food, Drug, and Cosmetic Act at 35 U.S.C. 156 permits the United States Patent and Trademark Office (USPTO) to restore the patent term lost due to certain types of regulatory review by the Federal Food and Drug Administration or the Department of Agriculture. Only patents for drug products, medical devices, food additives, and color additives are eligible for extension. The maximum length that a patent may be extended in order to restore the lost portion of the patent term is five years.

The USPTO may in some cases extend the term of an original patent due to certain delays in the prosecution of the patent application, including delays caused by interference proceedings, secrecy orders, or appellate review by the Board of Patent Appeals and Interferences or a Federal court in which the patent is issued pursuant to a decision reversing an adverse determination of patentability. The patent term provisions of 35 U.S.C. 154(b), as amended by Title IV, Subtitle D of the Intellectual Property and Communications Omnibus Reform Act of 1999, require the USPTO to notify the applicant of the patent term adjustment in the notice of allowance and give the applicant an opportunity to request reconsideration of the USPTO's patent term adjustment determination.

The USPTO may also reduce the amount of patent term adjustment granted if delays were caused by an applicant's failure to make a reasonable effort to respond within three months of the mailing date of a communication from the USPTO. Applicants may petition for reinstatement of a reduction in patent term adjustment with a showing that, in spite of all due care, the applicant was unable to respond to a communication from the USPTO within the three month period.

The USPTO administers 35 U.S.C. 154 and 156 through 37 CFR 1.701-1.791. These rules permit the public to submit applications to the USPTO to extend the term of a patent past its original expiration date, to request interim extensions and review of final eligibility decisions, and to withdraw an application requesting a patent term extension after it is submitted. Under 35 U.S.C. 156(d), an application for patent term extension must identify the approved product, the patent to be extended, and the claims included in

the patent that cover the approved product, a method of using the approved product, or a method of manufacturing the approved product. In addition, the application for patent term extension must provide a brief description of the activities undertaken by the applicant during the regulatory review period with respect to the approved product and the significant dates of these activities.

The term of a patent which claims a product, a method of using a product, or a method of manufacturing a product shall be extended if the term of the patent has not expired before an application is submitted. The Federal Food, Drug, and Cosmetic Act requires that an application for patent term extension be filed with the USPTO within 60 days of the product receiving regulatory approval from the Federal Food and Drug Administration or the Department of Agriculture. Under 35 U.S.C. 156(e), an interim extension may

be granted if the term of an eligible patent for which an application for patent term extension has been submitted would expire before a certificate of extension is issued.

The information in this collection is used by the USPTO to consider whether an applicant is eligible for a patent term extension or reconsideration of a patent term adjustment and, if so, to determine the length of the patent term extension or adjustment.

II. Method of Collection

Certain Frozen Warmwater Shrimp from the Socialist Republic of Vietnam: Extension of Final Results of Antidumping Duty New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("Department") is extending the time limit for the final results of the new shipper review of certain frozen warmwater shrimp ("shrimp") from the Socialist Republic of Vietnam ("Vietnam"). This review covers the period February 1, 2008 through January 31, 2009.

EFFECTIVE DATE: April 20, 2010.

FOR FURTHER INFORMATION CONTACT: Toni Dach or Paul Walker, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-1655 or (202) 482-0413, respectively.

SUPPLEMENTARY INFORMATION:

Background

On January 21, 2010, the Department published its notice of preliminary intent to rescind the new shipper review in the antidumping duty order on shrimp from Vietnam for Nhat Duc Co., Ltd. *See Certain Frozen Warmwater Shrimp From the Socialist Republic of Vietnam: Preliminary Intent To Rescind New Shipper Review*, 75 FR 3446 (January 21, 2010) ("Preliminary Rescission"). The final results of this review are currently due no later than April 19, 2010.¹

¹ Due to the extended closure of the Government between February 5 and 11, 2010, all deadlines for active cases were tolled by one calendar week. See Memorandum From Ronald Lorentzen, DAS for

Statutory Time Limits

In antidumping duty new shipper reviews, section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended ("the Act"), and 19 CFR 351.214(i)(1) requires the Department to issue the final results of a new shipper review within 90 days after the date on which the preliminary results are issued. However, the Department may extend the deadline for completion of the final results of a new shipper review to 150 days after the date on which the preliminary results are issued if it determines that the case is extraordinarily complicated. *See* 19 CFR 351.214(i)(2)

Extension of Time Limit for Final Results of Review

The Department has determined that the review is extraordinarily complicated as the Department's *Preliminary Rescission* included analysis of six detailed issues related to the respondent's POR sale. Both respondent and petitioner have provided extensive comments on all these issues, which must be analyzed along with the Department's preliminary determination. Based on the timing of the case and the extensive arguments and detailed issues that must be analyzed, the final results of this new shipper review cannot be completed within the statutory time limit of 90 days.

Therefore, the Department is extending the time limit for completion of the final results of this new shipper review by 30 days from the April 19, 2010 deadline. The final results will now be due no later than May 19, 2010.

We are issuing and publishing this notice in accordance with sections 751(a)(2)(B)(iv) and 777(i) of the Act.

Dated: April 12, 2010.

John M. Andersen,

Acting Deputy Assistant Secretary for
Antidumping and Countervailing Duty
Operations.
