Background and Purpose

The New York State Office of Parks, Recreation and Historic Preservation sponsors an annual air show at Jones Beach State Park during the week before Memorial Day. Jones Beach State Park is located on the south shore of Long Island, New York. The Air Show consists of aircraft performing aerobatics in close proximity to other aircraft over a specified area of the Atlantic Ocean off of Jones Beach State Park. Several aerial groups will participate in the Air Show. The entire Air Show will take place over the waters of the Atlantic Ocean immediately to the south of Jones Beach Island. The Coast Guard is proposing to establish a safety zone in order to provide for the safety of the maritime community and spectators viewing the Air Show from the water should an accident, such as a collision of aircraft, occur during the Show. The air shows generally take place from 10 a.m. to 3 p.m. every day from Thursday through Sunday before Memorial Day. The enforcement period for the Safety Zone will be from 9 a.m. to 3:30 p.m. each day. These times, while longer than the actual air shows, will provide sufficient time to clear the safety zone area prior to the shows, as well as providing additional time should they run over the scheduled period. The actual air show will be conducted within an area which is contained in, and smaller than, the safety zone area outlined by the coordinates provided below. The larger safety zone area is needed to protect the boating community from the inherent hazards of air shows.

Discussion of Proposed Rule

The Coast Guard is proposing to establish a permanent safety zone for the Jones Beach State Park Air Show. The safety zone would be established by reference to geographic coordinates as follows: Beginning at a point on land located in Jones Beach State Park at approximate position 40°35'06" N, 073°32'37" W, then running east along the shoreline of Jones Beach State Park to approximate position 40°35'49" N, 073°28'47" W; then running south to a position in the Atlantic Ocean off of Jones Beach at approximate position 40°35'05" N, 073°28'34" W; then running west to approximate position 40°34'23" N, 073°32'23" W; then running north to the point of beginning at approximate position 40°35'06" N,

073°32'37" W. All coordinates are North American Datum 1983. The safety zone will be enforced May 24th, 2010 through May 30th, 2010 from 9:30 a.m. to 3:30 p.m. and annually thereafter on the Thursday through Sunday before Memorial Day in May. Notification for future dates of the New York Air Show at Jones Beach State Park will be made via a Notice of Enforcement in the **Federal Register**, marine broadcasts and broadcast notice to mariners.

Entry into this zone is prohibited unless authorized by the Captain of the Port Long Island Sound or by Designated On-scene Patrol Personnel. Any violation of the safety zone described herein is punishable by, among other things, civil and criminal penalties, *in rem* liability against the offending vessel, and the initiation of suspension or revocation proceedings against Coast Guard-issued merchant mariner credentials.

Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation is unnecessary.

This regulation may have some impact on the public, but the potential impact will be minimized for the following reasons: The zone would only be enforced for a temporary period each day over a four day period; and vessels may transit in all areas around the zone at all times.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This proposed rule may affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit or anchor in those portions of the Atlantic Ocean off of Jones Beach State Park, Jones Beach, New York covered by the safety zone.

For the reasons outlined in the Regulatory Evaluation section above, this proposed rule will not have a significant impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (*see ADDRESSES*) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact: Chief Petty Officer Christie Dixon, Prevention Department, USCG Sector Long Island Sound at 203–468–4459, e-mail: christie.m.dixon@uscg.mil. The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of

energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions which will not individually or cumulatively have a significant effect on the human environment. This rule involves creation of a regulation that establishes a safety zone which is an action that may be categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction. An environmental analysis checklist will be available in the docket where indicated under **ADDRESSES**.

We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.
