

numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart EE. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 200 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Magnetic tape manufacturing operations.

Estimated Number of Respondents: 6.
Frequency of Response: Initially, occasionally, quarterly, semiannually and annually.

Estimated Total Annual Hour Burden: 3,396.

Estimated Total Annual Cost: \$366,607, which includes \$319,607 in labor costs, \$11,000 in capital/startup costs, and \$36,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the estimation methodology of labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent. Therefore, the

labor hours in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR. Because this ICR carries two decimal places in calculations within Table 1, there is an apparent increase of one labor hour in this ICR compared to the previous ICR which presented calculation results rounded to a whole number.

The increase in cost to respondents and the Agency is due to labor rate adjustments to reflect rates for fiscal year 2009. This increase is not due to any program changes. Labor rates reflected in the previous ICR were based on fiscal year 2003.

Title: NESHAP for Wood Furniture Manufacturing Operations (Renewal).

ICR Numbers: EPA ICR Number 1716.06, OMB Control Number 2060-0324.

ICR Status: This ICR is scheduled to expire on June 30, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart JJ. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 45 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Wood furniture manufacturing operations.

Estimated Number of Respondents: 750.

Frequency of Response: Initially, occasionally, quarterly, semiannually and annually.

Estimated Total Annual Hour Burden: 47,189.

Estimated Total Annual Cost: \$4,456,012, which includes \$4,438,012 in labor costs, \$0 in capital/startup costs, and \$18,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There are no changes in the respondent labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the respondents is very low, negative or non-existent. Therefore, the labor hours in the previous ICR reflect the current burden to the respondents and are reiterated (with a correction for rounding) in this ICR. It should be noted that there is an apparent decrease of one hour in the total labor hours for this ICR. Total labor hours for this ICR are 47,189 rather than 47,190 as in the previous ICR. This is due to rounding of the various cost figures.

There is an increase in both respondent and Agency labor costs resulting from labor rate increases from 2003 to 2009.

Dated: April 15, 2010.

Dimethyldithiocarbamate Salts; Amendments to Terminate Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellation and/or amendments to terminate uses, voluntarily requested by the registrant and accepted by the Agency, of products containing the pesticides sodium dimethyldithiocarbamate and/or potassium dimethyldithiocarbamate, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a September 16, 2009 **Federal Register** Notice of Receipt of Requests from dimethyldithiocarbamate salts registrants to voluntarily cancel and/or

amend to terminate uses of some of their dimethyldithiocarbamate salts product registrations. These are not the last dimethyldithiocarbamate salts products registered for use in the United States. In the September 16, 2009 notice, EPA indicated that it would issue an order implementing the cancellations and amendments to terminate uses, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrant withdrew its requests within this period. The Agency did not receive any comments on the notice. Further, the registrant did not withdraw its requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested product cancellation and amendments to terminate uses. Any distribution, sale, or use of the sodium dimethyldithiocarbamate and potassium dimethyldithiocarbamate products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective April 21, 2010.
