**DATES:** This rule will be effective on June 21, 2010, unless we receive written adverse comments or written notice of intent to submit adverse comments on or before May 21, 2010. #### SUPPLEMENTARY INFORMATION:

##### Background

The regulations in Title 9, Code of Federal Regulations (9 CFR), parts 101 through 118 (referred to below as the regulations), contain provisions implementing the Virus-Serum-Toxin Act, as amended (21 U.S.C. 151–159). The regulations in 9 CFR part 124 contain procedural requirements for patent extensions for veterinary biologics under 35 U.S.C. 156. In accordance with the procedures explained below under “Dates,” this final rule makes several nonsubstantive technical changes to those regulations to update their provisions. Specifically:

- We will amend the addresses throughout the regulations to reflect the relocation of the Center for Veterinary Biologics to new facilities in Ames, IA.

- We will amend 9 CFR part 102, § 102.3(b)(2)(i), 9 CFR part 104, § 104.5(a)(4), and 9 CFR part 114, §§ 114.8(c) and 114.9(a)(1), (a)(5), and (a)(7) regarding the number of copies of the Outline of Production or revised pages of an Outline of Production, or special outline that are required to be

submitted in support of an application for veterinary biological product license or permit.

- We will amend 9 CFR part 103, § 103.3(d), and 9 CFR part 112, § 112.5(d)(1)(iii) and (d)(1)(iv) regarding the number of copies of finished labels that are required to be submitted for review and filing.

- We will amend 9 CFR part 103, § 104.3(a), and 9 CFR part 112, § 112.5(a), to indicate that the Internet may be used to obtain forms and apply for certain veterinary biologics permits.

- We will amend 9 CFR part 104, § 104.5(a)(1), and 9 CFR part 108, § 108.7, regarding the number of copies of all plot plans, blueprints, and legends required to be submitted for review and filing.

#### Dates

We are publishing this rule without a prior proposal because we view this action as noncontroversial and anticipate no adverse public comment. This rule will be effective, as published in this document, on June 21, 2010, unless we receive written adverse comments or written notice of intent to submit adverse comments on or before May 21, 2010.

Adverse comments are comments that suggest the rule should not be adopted or that suggest the rule should be changed.

If we receive written adverse comments or written notice of intent to submit adverse comments, we will publish a document in the **Federal Register** withdrawing this rule before the effective date. We will then publish a proposed rule for public comment.

As discussed above, if we receive no written adverse comments or written notice of intent to submit adverse comments within 30 days of publication of this direct final rule, this direct final rule will become effective 60 days following its publication. We will publish a document in the **Federal Register**, before the effective date of this direct final rule, confirming that it is effective on the date indicated in this document.

#### Executive Order 12866 and Regulatory Flexibility Act

This rule is subject to Executive Order 12866. However, for this action, the Office of Management and Budget has waived its review under Executive Order 12866.

This direct final rule will affect all licensed manufacturers of veterinary biologics. Currently, there are approximately 125 veterinary biologics manufacturers, including permittees. According to the standards of the Small Business Administration, most veterinary biologics establishments are small entities.

The provisions of this direct final rule that update addresses and indicate the availability of forms on the Internet will have no economic effect on any entities, large or small. The provisions that reduce from three to two the number of copies of certain forms, labels, plot plans, blueprints, and legends that regulated entities are required to submit in specific cases may result in some cost savings to those entities, but those savings will be inconsequential.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

#### Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V.)

#### Executive Order 12988

This direct final rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect. This rule would not preempt any State or local laws, regulations, or policies where they are necessary to address local disease conditions or eradication programs. However, where safety, efficacy, purity, and potency of biological products are concerned, it is the Agency's intent to occupy the field. This includes, but is not limited to, the regulation of labeling. Under the Act, Congress clearly intended that there be national uniformity in the regulation of these products. There are no administrative proceedings which must be exhausted prior to a judicial challenge to the regulations under this rule.

#### Paperwork Reduction Act

This rule contains no new information collection or recordkeeping requirements under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). Further, this rule will reduce information collection or recordkeeping requirements in 9 CFR parts 102, 103, 104, 108, 112, and 114.

[Docket No. FAA-2010-0003; Airspace Docket No. 09-ANE-104]

#### Modification of Jet Routes J-37 and J-55; Northeast United States

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action modifies Jet Routes J-37 and J-55 by terminating the routes at navigation aid facilities prior to the U.S./Canadian border. The FAA is taking this action to support the En Route Automation Modernization (ERAM) program.

**DATES:** Effective 0901 UTC, June 3, 2010. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

**FOR FURTHER INFORMATION CONTACT:** Paul Gallant, Airspace and Rules Group, Office of System Operations Airspace and AIM, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

#### SUPPLEMENTARY INFORMATION:

##### Background

On Thursday, February 4, 2010, the FAA published in the **Federal Register** a notice of proposed rulemaking to modify jet routes J-37 and J-55 (75 FR 5704). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal. No comments were received.

Currently J-37 terminates at a point in space on the U.S./Canadian border rather than at a navigation aid facility or established navigation fix. Similarly, J-55 crosses the border at an undefined point in space and extends into

Canadian airspace. These factors cause flight plan processing issues for ERAM. Terminating the routes at a navigation aid facility prior to the border will resolve these issues.

### The Rule

The FAA is amending Title 14, Code of Federal Regulations (14 CFR) part 71 by terminating Jet Route J-37 at the Massena, NY, VHF omnidirectional range/tactical air navigation (VORTAC) facility; and terminating Jet Route J-55 at the Presque Isle, ME, VHF omnidirectional range/distance measuring equipment (VOR/DME) facility. This action will enhance the safety and management of aircraft operations within the National Airspace System.

Jet routes are published in paragraph 2004 of FAA Order 7400.9T dated August 27, 2009 and effective September 15, 2009, which is incorporated by reference in 14 CFR 71.1. The jet routes listed in this document will be subsequently published in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends a portion of the en route

structure to enhance the safe and efficient use of the NAS in Florida.

### Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a and 311b. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

### Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

**SUPPLEMENTARY INFORMATION:** The SR1A Bridge, across the Hampton River at mile 0.0, at Hampton, New Hampshire, has a vertical clearance in the closed position of 18 feet at mean high water and 26 feet at mean low water. The

existing drawbridge operation regulations are listed at 33 CFR 117.697.

The waterway predominantly supports recreational vessels of various sizes.

The bridge owner, New Hampshire Department of Transportation, requested a temporary deviation to facilitate completion of the bridge rehabilitation, removal of the barrier system and associated counter weight.

Under this temporary deviation the SR1A Bridge may remain in the closed position from 7 a.m. through 5 p.m. on May 18, 2010. Vessels that can pass under the bridge without a bridge opening may do so at all times.

In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

#### SUPPLEMENTARY INFORMATION:

##### Regulatory Information

On March 8, 2010, we published a notice of proposed rulemaking (NPRM) entitled "Security Zone; Potomac River, Washington Channel, Washington, DC" in the **Federal Register** (75 FR 10446).

We received no comments on the proposed rule. No public meeting was requested, and none was held.

#### **Basis and Purpose**

The Coast Guard will conduct a Change of Command ceremony at Fort McNair in Washington, DC. To address security concerns for the event, the Captain of the Port, Baltimore, Maryland is establishing a security zone upon certain waters of the Washington Channel. This proposed security zone will help the Coast Guard to prevent vessels or persons from engaging in waterborne terrorist actions during the U.S. Coast Guard Commandant's Change of Command ceremony. Due to the catastrophic impact a terrorist attack during the ceremony would have against the large number of dignitaries, and the surrounding area and communities, a security zone is prudent for this type of event.

#### **Discussion of Comments and Changes**

The Coast Guard received no comments in response to the NPRM. The Coast Guard is implementing the rule as proposed, without change.

#### **Regulatory Analyses**

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

#### **Regulatory Planning and Review**

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. Although this security zone restricts vessel traffic through the affected area, the effect of this regulation will not be significant due to the limited size and duration that the regulated area will be in effect. In addition, notifications will be made to the maritime community via marine information broadcasts so mariners may adjust their plans accordingly.

#### **Small Entities**

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not

dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule may affect the following entities, some of which might be small entities: The owners or operators of vessels intending to operate or transit through or within the security zone during the enforcement period. The security zone will not have a significant economic impact on a substantial number of small entities for the following reasons. The security zone is of limited size and duration. Although the security zone will apply to the entire width of the channel, maritime advisories will be widely available to the maritime community before the effective period.

#### **Assistance for Small Entities**

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), in the NPRM we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

#### **Collection of Information**

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

#### **Federalism**

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

#### **Unfunded Mandates Reform Act**

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or Tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

#### **Taking of Private Property**

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

#### **Civil Justice Reform**

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

#### **Protection of Children**

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

#### **Indian Tribal Governments**

This rule does not have Tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian Tribes, on the relationship between the Federal Government and Indian Tribes, or on the distribution of power and responsibilities between the Federal Government and Indian Tribes.

#### **Energy Effects**

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not

require a Statement of Energy Effects under Executive Order 13211.

### Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

### Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have concluded this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule is categorically excluded, under figure 2-1, paragraph (34)(g), of the Instruction. This rule involves establishing a temporary security zone. An environmental analysis checklist and a categorical exclusion determination are available in the docket where indicated under **ADDRESSES**.

Vessels already at berth, mooring, or anchor at the time the security zone is implemented do not have to depart the security zone. All vessels underway within this security zone at the time it is implemented are to depart the zone.

(3) Persons desiring to transit the area of the security zone must first request authorization from the Captain of the Port Baltimore or his designated representative. To seek permission to transit the area, the Captain of the Port Baltimore and his designated representatives can be contacted at telephone number 410-576-2693 or on Marine Band Radio, VHF-FM channel 16 (156.8 MHz). #### Security Zone; Portland Rose Festival Fleet Week, Willamette River, Portland, OR

**AGENCY:** Coast Guard, DHS.

**ACTION:** Temporary final rule.

**SUMMARY:** The Coast Guard is establishing a security zone encompassing all waters of the Willamette River between the Hawthorne and Steel Bridges in Portland, Oregon during the Portland Rose Festival Fleet Week from June 2, 2010, through June 7, 2010. The security zone is necessary to help ensure the security of the military and other vessels participating in Fleet Week as well as the maritime public in general and will do so by prohibiting any person or vessel from entering or remaining in the security zone unless authorized by the Captain of the Port or his designated representatives.

**DATES:** This rule is effective from June 2, 2010, through June 7, 2010.

**ADDRESSES:** Documents indicated in this preamble as being available in the docket are part of docket USCG-2010-0196 and are available online by going to <http://www.regulations.gov>, inserting USCG-2010-0196 in the "Keyword" box, and then clicking "Search." They are also available for inspection or copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** If you have questions on this temporary rule, call or e-mail MST1 Jaime Sayers, Waterways Management Division, Coast

#### SUPPLEMENTARY INFORMATION:

##### Regulatory Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule.

There is a need to provide a security zone for the 2010 Portland Rose Festival Fleet Week, and there is insufficient time to publish a notice of proposed rulemaking, respond to comments, and issue an effective rule at least 30-days before June 2, the start of this year's Fleet Week. Therefore, it is impracticable to publish an NPRM and it would be contrary to public interest not to issue this temporary final rule in time for it to be published at least 30-days before the event.

##### Basis and Purpose

The annual Portland Rose Festival Fleet Week will be taking place this year from June 2, 2010, through June 7, 2010. Fleet Week includes visits by a variety of United States and foreign military and government vessels. The vessels will be transiting the Columbia River and mooring up for display on the banks of the Willamette River between the Hawthorne and Steel Bridges. Due to the security concerns inherent for such vessels, the security zone created by this rule is necessary to help ensure the security of the vessels themselves as well as the maritime public in general.

This year, the Coast Guard is issuing a temporary final rule instead of an annual enforcement notice. Although the same security zone created by this rule is already codified at 33 CFR 165.1312, the enforcement dates contained in that section are not inclusive of when the Portland Rose Festival Fleet Week is actually taking place this year.

##### Discussion of Rule

The security zone created by this rule will encompass all waters of the Willamette River between the Hawthorne and Steel Bridges in Portland, Oregon. This zone will be effective during the 2010 Portland Rose Festival Fleet Week, from June 2, 2010, through June 7, 2010. All persons and vessels will be prohibited from entering or remaining in the security zone unless authorized by the Captain of the Port or his designated representatives.

##### Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

##### Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. The Coast Guard has made this determination based on the fact that the security zone will only be in effect for the Portland Rose Festival Fleet Week and maritime traffic may be able to enter the zone if authorized by the Captain of the Port or his designated representatives.

##### Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which may be small entities: The owners and operators of vessels intending to operate in the area covered by the security zone. The security zone will not have a significant economic impact on a substantial number of small entities, however, because the security zone will only be in effect for the Portland Rose Festival Fleet Week and maritime traffic may be able to enter the zone if authorized by

the Captain of the Port or his designated representatives.

##### Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we offer to assist small entities in understanding the rule so that they can better evaluate its effects on them and participate in the rulemaking process.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

##### Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

##### Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

##### Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

##### Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and

Interference with Constitutionally Protected Property Rights.

### Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

### Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

### Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

### Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

### Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (*e.g.*, specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or

adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

### Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have concluded this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule is categorically excluded, under figure 2-1, paragraph (34)(g), of the Instruction. This rule involves the establishment of a security zone.

An environmental analysis checklist and a categorical exclusion determination are available in the docket where indicated under **ADDRESSES**.

##### **I. Today's Action**

EPA is taking final action to approve the transportation conformity section of the SIP revision, submitted by the Commonwealth of Kentucky, through KDAQ, on December 31, 2008 for the purpose of establishing transportation conformity criteria and procedures in the Kentucky SIP. This approval action is based on EPA's analysis that Kentucky's request complies with section 176(c) of the CAA.

In a December 4, 2009, rulemaking notice, EPA proposed approval of the aforementioned revision to the Kentucky SIP. The comment period closed on January 4, 2010, and no comments were received. A detailed discussion of Kentucky's submittal and EPA's rationale for approval of the December 31, 2008, Kentucky SIP revision may be found in the proposed rulemaking notice (74 FR 63697). EPA is finalizing the approval as proposed based on the rationale stated in the proposal and in this final action.

##### **II. Background for This Action**

###### **A. Transportation Conformity**

Transportation conformity (hereafter referred to as "conformity") is required under section 176(c) of the Clean Air Act (CAA or Act) to ensure that

federally supported highway, transit projects, and other activities are consistent with ("conform to") the purpose of the SIP. Conformity currently applies to areas that are designated nonattainment, and to areas that have been redesignated to attainment after 1990 (maintenance areas) with plans developed under section 175A of the Act, for the following transportation related criteria pollutants: ozone, particulate matter (PM<sub>2.5</sub> and PM<sub>10</sub>), carbon monoxide, and nitrogen dioxide.

Conformity to the purpose of the SIP means that transportation activities will not cause new air quality violations, worsen existing violations, or delay timely attainment of the relevant criteria pollutants, also known as national ambient air quality standards (NAAQS). The transportation conformity regulation is found in 40 CFR Part 93 and provisions related to conformity SIPs are found in 40 CFR 51.390.

###### **B. Federal Requirements**

EPA promulgated the Federal transportation conformity criteria and procedures ("Conformity Rule") on November 24, 1993 (58 FR 62188). Among other things, the rule required states to address all provisions of the conformity rule in their SIPs frequently referred to as "conformity SIPs." Under 40 CFR 51.390, most sections of the conformity rule were required to be copied verbatim. States were also required to tailor all or portions of the following three sections of the conformity rule to meet their state's individual circumstances: 40 CFR 93.105, which addresses consultation procedures; 40 CFR 93.122(a)(4)(ii), which addresses written commitments to control measures that are not included in a metropolitan planning organization's (MPO's) transportation plan and transportation improvement program that must be obtained prior to a conformity determination, and the requirement that such commitments, when they exist, must be fulfilled; and 40 CFR 93.125(c), which addresses written commitments to mitigation measures that must be obtained prior to a project-level conformity determination, and the requirement that project sponsors must comply with such commitments, when they exist.

On August 10, 2005, the "Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users" (SAFETEA-LU) was signed into law. SAFETEA-LU revised section 176(c) of the CAA transportation conformity provisions. One of the changes streamlines the requirements for conformity SIPs. Under SAFETEA-

LU, states are required to address and tailor only three sections of the rule in their conformity SIPs: 40 CFR 93.105, 40 CFR 93.122(a)(4)(ii), and 40 CFR 93.125(c), described above. In general, states are no longer required to submit conformity SIP revisions that address the other sections of the conformity rule. These changes took effect on August 10, 2005, when SAFETEA-LU was signed into law.

###### **C. SIP Submission**

On December 31, 2008, the Commonwealth of Kentucky, through the KY DAQ, submitted the Commonwealth's transportation conformity and consultation interagency rule to EPA as an addition to the SIP. The interagency consultation procedures for the transportation conformity partners are outlined in the document, Transportation Conformity: A Guide for Interagency Consultation, which is referenced in the Kentucky transportation conformity rule.

The Commonwealth of Kentucky developed its consultation rule based on the elements contained in 40 CFR 93.105, 93.122(a)(4)(ii), and 93.125(c). As a first step, the Commonwealth worked with the existing transportation planning organization's interagency committee that included representatives from Kentucky's air quality agency, Kentucky Department of Transportation (DOT), U.S. DOT (i.e., Federal Highway Administration—Kentucky Division, Federal Transit Administration), the MPOs of the maintenance and nonattainment areas of Kentucky, and EPA. The interagency committee met regularly and drafted the consultation rules considering elements in 40 CFR 93.105, 93.122(a)(4)(ii), and 93.125(c), and integrated the local procedures and processes into the rule. The proposed rule provides additional information regarding Kentucky's analysis and applicable nonattainment and maintenance areas.

##### **III. Final Action**

EPA is taking final action to approve the December 31, 2008, SIP revision request from Kentucky for the purpose of establishing transportation conformity criteria and procedures in the Kentucky SIP. This SIP revision is consistent with section 176(c) of the CAA.

##### **IV. Statutory and Executive Order Reviews**

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a).

Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this proposed action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because

application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 21, 2010. Filing a

petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (*See* section 307(b)(2).)

**Approval and Promulgation of Implementation Plans: Tennessee; Visibility Impairment Prevention for Federal Class I Areas; Removal of Federally Promulgated Provisions****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Direct final rule.

**SUMMARY:** EPA is taking direct final action to rescind the Federally promulgated provisions regarding visibility in 40 CFR 52.2234 of the Tennessee State Implementation Plan (SIP). EPA approved Tennessee's visibility rules addressing new source review (NSR) on July 18, 1996, and a plan addressing monitoring and reporting of visibility on July 2, 1997. EPA's approval of these rules neglected to remove the previous Federally promulgated provisions from the Federal Implementation Plan (FIP) contained in 40 CFR 52.2234. EPA is correcting this omission in this rulemaking. This action is being taken pursuant to section 110 of the Clean Air Act (CAA).

**DATES:** This rule is effective on June 21, 2010 without further notice, unless EPA receives relevant adverse comment by May 21, 2010. If EPA receives such comment, EPA will publish a timely withdrawal in the **Federal Register** informing the public that this rule will not take effect.

**SUPPLEMENTARY INFORMATION:****Table of Contents**

- I. Background for Today's Action
- II. Final Action
- III. Statutory and Executive Order Reviews

**I. Background for Today's Action**

On February 9, 1993, and December 19, 1994, the State of Tennessee submitted provisions constituting its plan to address visibility impairment in Federal Class I areas. EPA approved these submittals on July 2, 1997 (62 FR 35681). On January 17, 1995, the State of Tennessee also submitted rules for addressing visibility in its NSR program. EPA fully approved this submittal on July 18, 1996 (61 FR 35387).

The aforementioned submittals provide the necessary revisions to Tennessee's plan for visibility impairment prevention for Class I areas, and satisfied EPA's requirements as set forth in 40 CFR 51.300 through 51.304 and 51.306. These visibility provisions were submitted to EPA in order to satisfy the second part of the Settlement Agreement with the Environmental Defense Fund, *et al.*, *Environmental Defense Fund v. Thomas*, number C826850 RPA, and are described at 49 FR 20647 on May 16, 1984. The schedule for submittal and promulgation of these visibility provisions was renegotiated and subsequently extended by a court order on September 9, 1986.

The second part of the Settlement Agreement required EPA to propose and promulgate Federal Visibility SIPs, addressing the general visibility plan provisions including implementation control strategies (40 CFR 51.302), integral vista protection (40 CFR 51.302 through 51.307), and long-term strategies (40 CFR 51.306) for those States whose SIPs EPA had determined to be inadequate with respect to the above provisions (*see* January 23, 1986,

notice of deficiency (51 FR 3046) and March 12, 1987, notice proposing FIPs for deficient State SIPs (52 FR 7803)). However, as provided in the renegotiated Settlement Agreement, a State could avoid the promulgation of said provisions if they submitted a visibility SIP by August 31, 1987. The State of Tennessee did not submit a plan by August 31, 1987, and as a result EPA promulgated Part 2 provisions for Tennessee in a FIP to satisfy the Settlement Agreement on November 24, 1987.

Subsequently, the State of Tennessee provided SIP revisions on February 9, 1993, December 19, 1994, and January 17, 1995, with the intent to replace the EPA-promulgated provisions (or FIP) that was put in place. The EPA actions on July 18, 1996 and July 2, 1997, fully approved these Tennessee SIP revisions but inadvertently did not remove the Federally-promulgated provisions in 40 CFR 52.2234. Today's action corrects that oversight.

## II. Final Action

EPA is taking direct final action to correct an omission related to the visibility requirements for Tennessee. Specifically, EPA is removing the previous Federally promulgated provisions in 40 CFR 52.2234 for visibility for Tennessee because the State later submitted, and EPA approved, revisions covering visibility requirements for Tennessee. EPA is approving the aforementioned changes to the Tennessee SIP because they are consistent with the CAA and Agency requirements. EPA is publishing this rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. However, in the proposed rules section of this **Federal Register** publication, EPA is publishing a separate document that will serve as the proposal to approve the SIP revision should adverse comments be filed. This rule will be effective June 21, 2010 without further notice unless the Agency receives adverse comments by May 21, 2010.

If EPA receives such comments, then EPA will publish a document withdrawing the final rule and informing the public that the rule will not take effect. All public comments received will then be addressed in a subsequent final rule based on the proposed rule. EPA will not institute a second comment period. Parties interested in commenting should do so at this time. If no such comments are received, the public is advised that this rule will be effective on June 21, 2010

and no further action will be taken on the proposed rule.

## III. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
  - Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
  - Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
  - Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
  - Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
  - Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
  - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
  - Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
  - Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, this rule does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country

located in the State, and EPA notes that it will not impose substantial direct costs on Tribal governments or preempt Tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 21, 2010. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the proposed rules section of today's **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements. (*See* section 307(b)(2)).

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

###### A. Does this Action Apply to Me?

The Agency included in the final rule a list of those who may be potentially affected by this action. If you have questions regarding the applicability of this action to a particular entity, consult the person listed under the **FOR FURTHER INFORMATION CONTACT**.

###### B. How Can I Access Electronic Copies of this Document and Other Related Information?

In addition to accessing electronically available documents at <http://www.regulations.gov>, you may access this **Federal Register** document electronically through the EPA Internet under the “**Federal Register**” listings at <http://www.epa.gov/fedrgstr>.

##### II. What Does this Correction Do?

In the *Federal Register* of July 8, 2009, (74 FR 32456), EPA’s Office of Pesticide Programs issued an exemption from the requirement of a tolerance for “polyglyceryl phthalate ester of coconut oil fatty acids” pursuant to a petition by the Joint Inserts Task Force, Cluster Support Team 23. The petition requested that an exemption from the requirement of a tolerance for residues of polyglyceryl phthalate ester of coconut oil fatty acids, including fatty acid coco polymers with glyceryl and phthalic anhydride (CAS No. 67746–02–5) and coconut oil polymer with glyceryl and phthalic anhydride (CAS No. 66070–87–9). This technical correction corrects the name of the inert ingredient and the CAS numbers.

##### III. Why is this Correction Issued as a Final Rule?

Section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), provides that, when an Agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, the Agency may issue a final rule without providing notice and an opportunity for public comment. EPA has determined that there is good cause for making today’s technical correction final without prior proposal and opportunity for comment, because EPA

is merely correcting language that was inadvertently mistyped in the previously published final rule. The correct inert ingredient names and CAS Numbers were present in the Supplementary Information Section of the July 8, 2009 final rule but were mistyped in the tolerance exemption table. EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(B).

##### IV. Do Any of the Statutory and Executive Order Reviews Apply to this Action?

The statutory and Executive order reviews were included in the July 8, 2009 final rule.

##### V. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, generally provides that before a rule may take effect, the Agency promulgating the rule must submit a rule report to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the *Federal Register*. This final rule is not a “major rule” as defined by 5 U.S.C. 804(2).

**Fisheries of the Northeastern United States; Scup Fishery; Reduction of Winter I Commercial Possession Limit**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; inseason adjustment.

**SUMMARY:** NMFS announces the reduction of the scup coastwide commercial possession limit from Maine through North Carolina for the Winter I period. Regulations governing the scup fishery require publication of this notification to advise the coastal

states from Maine through North Carolina that 80 percent of the commercial quota allocated to the Winter I period is projected to be harvested and to announce that the possession limit for a Federal vessel permit holder is reduced.

**DATES:** Effective April 21, 2010, through April 30, 2010.

**FOR FURTHER INFORMATION CONTACT:** Sarah Heil, Fishery Management Specialist, (978) 281-9257.

**SUPPLEMENTARY INFORMATION:** Regulations governing the scup fishery are found at 50 CFR part 648. The regulations at § 648.120(c) require the Northeast Regional Administrator to publish annual scup quota allocations and the percentage of landings attained during the Winter I period at which the possession limits would be reduced. On December 22, 2009, NMFS published the final rule for the summer flounder, scup, and black sea bass specifications in the **Federal Register** (74 FR 67978). This final rule requires NMFS to publish a notification in the **Federal Register** advising and notifying commercial vessels and dealer permit holders that the commercial scup possession limit will be reduced once

80 percent of the Winter I Period quota is projected to be harvested. Based upon recent projections, the Regional Administrator anticipates that 80 percent of the Federal commercial quota of 4,815,775 lb (2,184 mt) for the 2010 Winter I period has been harvested. Therefore, to maintain the integrity of the 2011 Winter I period quota by avoiding quota overages, the commercial scup possession limit will be reduced from 30,000 lb (13,608 kg) to 1,000 lb (454 kg) of scup per trip. This possession limit will remain in effect until the end of the Winter I period (through April 30, 2010) or until the Winter I quota allocation has been fully harvested, whichever occurs first.

### Federal Aviation Administration

#### 14 CFR Part 39

[Docket No. FAA-2010-0382; Directorate Identifier 2009-NM-211-AD]

RIN 2120-AA64

#### Airworthiness Directives; Bombardier, Inc. Model DHC-8-400, -401, and -402 Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** We propose to adopt a new airworthiness directive (AD) for the products listed above that would supersede an existing AD. This proposed AD results from mandatory continuing airworthiness information (MCAI) originated by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as:

Several cases have been reported where a loss of fluid in the No. 2 hydraulic system has caused the power transfer unit (PTU) to overspeed, resulting in pressure fluctuations and increased fluid flow within the No. 1 hydraulic system. In one case, the hydraulic system control logic did not shut down the PTU and the overspeed condition persisted, resulting in the illumination of the No. 1 HYD FLUID HOT caution light.

\* \* \* \* \*

The unsafe condition is possible loss of both the No. 1 and No. 2 hydraulic systems, resulting in the potential loss of several functions essential for safe flight and landing of the airplane. The proposed AD would require actions that are intended to address the unsafe condition described in the MCAI.

**DATES:** We must receive comments on this proposed AD by June 7, 2010.

**ADDRESSES:** You may send comments by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the instructions for submitting comments.

#### SUPPLEMENTARY INFORMATION:

##### Comments Invited

We invite you to send any written relevant data, views, or arguments about this proposed AD. Send your comments to an address listed under the **ADDRESSES** section. Include "Docket No. FAA-2010-0382; Directorate Identifier 2009-NM-211-AD" at the beginning of your comments. We specifically invite

comments on the overall regulatory, economic, environmental, and energy aspects of this proposed AD. We will consider all comments received by the closing date and may amend this proposed AD based on those comments.

We have lengthened the 30-day comment period for proposed ADs that address MCAI originated by aviation authorities of other countries to provide adequate time for interested parties to submit comments. The comment period for these proposed ADs is now typically 45 days, which is consistent with the comment period for domestic transport ADs.

We will post all comments we receive, without change, to <http://www.regulations.gov>, including any personal information you provide. We will also post a report summarizing each substantive verbal contact we receive about this proposed AD.

#### Discussion

On July 31, 2008, we issued AD 2008-17-06, Amendment 39-15644 (73 FR 47818, August 15, 2008). That AD required actions intended to address an unsafe condition on the products listed above.

Since we issued AD 2008-17-06, a modification of the power transfer unit (PTU) control logic, including the provision of automatic PTU shutdown in the event of loss of fluid in the No. 2 hydraulic system, has been developed. The modification addresses the identified unsafe condition. In addition, the applicability has been revised to remove airplanes having serial number 4185 and subsequent, since an equivalent modification has been installed in production on these airplanes. Transport Canada Civil Aviation (TCCA), which is the aviation authority for Canada, has issued Canadian Airworthiness Directive CF-2006-08R1, dated August 31, 2009 (referred to after this as "the MCAI"), to correct an unsafe condition for the specified products. The MCAI states:

Several cases have been reported where a loss of fluid in the No. 2 hydraulic system has caused the power transfer unit (PTU) to overspeed, resulting in pressure fluctuations and increased fluid flow within the No. 1 hydraulic system. In one case, the hydraulic system control logic did not shut down the PTU and the overspeed condition persisted, resulting in the illumination of the No.1 HYD FLUID HOT caution light.

As an interim action to avoid possible loss of both the No. 1 and No. 2 hydraulic systems, the Airplane Flight Manual (AFM) has been revised to include pulling the HYD PWR XFER circuit breaker in the event of the loss of all hydraulic fluid in the No. 2 hydraulic system.

Insertion of the resultant Temporary Amendment (TA) No. 13 into the AFM was mandated in the original issue of this [Canadian] directive. This instruction \* \* \* remains in effect until \* \* \* this [revised] directive is accomplished.

Revision 1 of this directive \* \* \* mandates modification of the PTU control logic, including the provision of automatic PTU shutdown in the event of loss of fluid in the No. 2 hydraulic system. In addition, the applicability of the [Canadian] directive has been revised to remove aircraft Serial Number (SN) 4185 and subsequent, since an equivalent modification has been installed in production on these aircraft.

The unsafe condition is possible loss of both the No. 1 and No. 2 hydraulic systems, resulting in the potential loss of several functions essential for safe flight and landing of the airplane. You may obtain further information by examining the MCAI in the AD docket.

#### Relevant Service Information

Bombardier has issued Service Bulletin 84-29-22, Revision A, dated February 24, 2009. The actions described in this service information are intended to correct the unsafe condition identified in the MCAI.

#### FAA's Determination and Requirements of This Proposed AD

This product has been approved by the aviation authority of another country, and is approved for operation in the United States. Pursuant to our bilateral agreement with the State of Design Authority, we have been notified of the unsafe condition described in the MCAI and service information referenced above. We are proposing this AD because we evaluated all pertinent information and determined an unsafe condition exists and is likely to exist or develop on other products of the same type design.

#### Differences Between This AD and the MCAI or Service Information

We have reviewed the MCAI and related service information and, in general, agree with their substance. But we might have found it necessary to use different words from those in the MCAI to ensure the AD is clear for U.S. operators and is enforceable. In making these changes, we do not intend to differ substantively from the information provided in the MCAI and related service information.

We might also have proposed different actions in this AD from those

in the MCAI in order to follow FAA policies. Any such differences are highlighted in a Note within the proposed AD.

#### Costs of Compliance

Based on the service information, we estimate that this proposed AD would affect about 42 products of U.S. registry.

The actions that are required by AD 2008-17-06 and retained in this proposed AD take up about 1 work-hour per product, at an average labor rate of \$85 per work hour. Required parts cost about \$0 per product. Based on these figures, the estimated cost of the currently required actions is up to \$85 per product.

We estimate that it would take up to 165 work-hours per product to comply with the new basic requirements of this proposed AD. The average labor rate is \$85 per work-hour. Required parts would cost about \$10,982 per product. Where the service information lists required parts costs that are covered under warranty, we have assumed that there will be no charge for these costs. As we do not control warranty coverage for affected parties, some parties may incur costs higher than estimated here. Based on these figures, we estimate the cost of the proposed modification on U.S. operators to be up to \$1,050,294, or up to \$25,007 per product.

#### Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. "Subtitle VII: Aviation Programs," describes in more detail the scope of the Agency's authority.

We are issuing this rulemaking under the authority described in "Subtitle VII, Part A, Subpart III, Section 44701: General requirements." Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

#### Regulatory Findings

We determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the

distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this proposed regulation:

1. Is not a "significant regulatory action" under Executive Order 12866;
2. Is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and
3. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

We prepared a regulatory evaluation of the estimated costs to comply with this proposed AD and placed it in the AD docket.

#### The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

#### PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40113, 44701.

#### § 39.13 [Amended]

2. The FAA amends § 39.13 by removing Amendment 39-15644 (73 FR 47818, August 15, 2008) and adding the following new AD:

**Bombardier, Inc.:** Docket No. FAA-2010-0382; Directorate Identifier 2009-NM-211-AD.

#### Comments Due Date

- (a) We must receive comments by June 7, 2010.

#### Affected ADs

- (b) This AD supersedes AD 2008-17-06, Amendment 39-15644.

#### Applicability

- (c) This AD applies to Bombardier, Inc. Model DHC-8-400, -401, and -402 airplanes, certificated in any category; serial numbers 4001, 4003, 4004, 4006, and 4008 through 4184 inclusive.

#### Subject

- (d) Air Transport Association (ATA) of America Code 29: Hydraulic power.

#### Reason

- (e) The mandatory continuing airworthiness information (MCAI) states: "Several cases have been reported where a loss of fluid in the No.2 hydraulic system has caused the power transfer unit (PTU) to

overspeed, resulting in pressure fluctuations and increased fluid flow within the No. 1 hydraulic system. In one case, the hydraulic system control logic did not shut down the PTU and the overspeed condition persisted, resulting in the illumination of the No.1 HYD FLUID HOT caution light.

“As an interim action to avoid possible loss of both the No. 1 and No. 2 hydraulic systems, the Airplane Flight Manual (AFM) has been revised to include pulling the HYD PWR XFER circuit breaker in the event of the loss of all hydraulic fluid in the No. 2 hydraulic system.

“Insertion of the resultant Temporary Amendment (TA) No. 13 into the AFM was mandated in the original issue of this [Canadian] directive. This instruction \* \* \* remains in effect until \* \* \* this [revised] directive is accomplished.

“Revision 1 of this directive \* \* \* mandates modification of the PTU control logic, including the provision of automatic PTU shutdown in the event of loss of fluid in the No. 2 hydraulic system. In addition, the applicability of the [Canadian] directive has been revised to remove aircraft Serial Number (SN) 4185 and subsequent, since an equivalent modification has been installed in production on these aircraft.”

The unsafe condition is possible loss of both the No. 1 and No. 2 hydraulic systems, resulting in the potential loss of several functions essential for safe flight and landing of the airplane.

**Compliance**

(f) You are responsible for having the actions required by this AD performed within the compliance times specified, unless the actions have already been done.

**Restatement of Requirements of AD 2007-12-03: Airplane Flight Manual (AFM) Revision**

(g) Within 14 days after July 10, 2007 (the effective date of AD 2007-12-03, Amendment 39-15081, which was superseded by AD 2008-17-06), revise the Limitations section of the applicable AFM to include the information in the applicable Bombardier temporary amendment specified in Table 1 of this AD, as specified in the temporary amendment. These temporary amendments introduce procedures for pulling the “HYD PWR XFER” circuit breaker in the event of the loss of all hydraulic fluid in the No. 1 or No. 2 hydraulic system. Operate the airplane according to the limitations and procedures in the applicable temporary amendment.

**Restatement of Requirements of AD 2008-17-06: AFM Revision**

(h) Within 14 days after September 2, 2008 (the effective date of AD 2008-17-06), revise the applicable AFM Normal and Abnormal Procedures section to include the information in the applicable Bombardier temporary amendment specified in Table 2 of this AD, as specified in the temporary

amendment. These temporary amendments introduce additional procedures for ensuring that the “PTU CNTRL” switch is Normal, the “PTU CNTRL ON” advisory light is out, and the “HYD PWR XFER” circuit breaker is pulled in the event of the illumination of the “#2 HYD ISO VALVE” caution light. #### Discussion

The FAA has examined the underlying safety issues involved in fuel tank explosions on several large transport airplanes, including the adequacy of existing regulations, the service history of airplanes subject to those regulations, and existing maintenance practices for fuel tank systems. As a result of those findings, we issued a regulation titled "Transport Airplane Fuel Tank System Design Review, Flammability Reduction and Maintenance and Inspection Requirements" (66 FR 23086, May 7, 2001). In addition to new airworthiness standards for transport airplanes and new maintenance requirements, this rule included Special Federal Aviation Regulation No. 88 ("SFAR 88," Amendment 21-78, and subsequent Amendments 21-82 and 21-83).

Among other actions, SFAR 88 requires certain type design (*i.e.*, type certificate (TC) and supplemental type certificate (STC)) holders to substantiate that their fuel tank systems can prevent ignition sources in the fuel tanks. This requirement applies to type design holders for large turbine-powered transport airplanes and for subsequent modifications to those airplanes. It requires them to perform design reviews and to develop design changes and maintenance procedures if their designs do not meet the new fuel tank safety standards. As explained in the preamble to the rule, we intended to adopt airworthiness directives to mandate any changes found necessary to address unsafe conditions identified as a result of these reviews.

In evaluating these design reviews, we have established four criteria intended to define the unsafe conditions associated with fuel tank systems that require corrective actions. The percentage of operating time during which fuel tanks are exposed to flammable conditions is one of these criteria. The other three criteria address the failure types under evaluation: Single failures, single failures in combination with latent condition(s),

and in-service failure experience. For all four criteria, the evaluations included consideration of previous actions taken that may mitigate the need for further action.

We have determined that the actions identified in this proposed AD are necessary to reduce the potential of ignition sources inside fuel tanks, which, in combination with flammable fuel vapors, could result in fuel tank explosions and consequent loss of the airplane.

An investigation conducted by the airplane manufacturer has revealed that float level switch wires located on the left and right wing forward spar, right main landing gear wheel well, horizontal stabilizer front spar, empennage, forward and aft cargo compartments, and fuel pump pressure switch wires located in the aft cargo compartment, are routed in the same bundles as power wires. If a short circuit between a float level switch wire and a power wire occurs, an over-current can cause excessive temperatures in the float level switch wires, which could damage the float level or fuel pump pressure switch wire, and become a potential ignition source for the fuel tank. Adding an in-line fuse as a self-contained component in each float level and pressure switch circuit,

and sleeving the wires between the fuel tank and the in-line fuse, will minimize the possibility of excessive temperatures in the float level or pressure switch wires. If a short circuit between a float level switch wire and a power wire occurs, the result could be a fuel tank explosion and consequent loss of the airplane.

**Relevant Service Information**

We have reviewed Boeing Service Bulletin DC10-28-252, Revision 1, dated January 6, 2010 (for Model DC-10-10, DC-10-10F, DC-10-15, DC-10-30, DC-10-30F (KC-10A and KDC-10), DC-10-40, DC-10-40F, MD-10-10F, and MD-10-30F airplanes). This service bulletin describes procedures for installing an in-line fuse in each float level switch and a pressure switch circuit in-line fuse in the fuel tanks listed below, as applicable.

- Fuel tanks 1, 2, and 3
- Upper and lower auxiliary fuel tanks
- Center wing fuel tanks
- Forward and aft auxiliary fuel tanks

Procedures for installing the in-line fuses include sleeving the wires between the fuel tank and the in-line fuse.

We have reviewed Boeing Service Bulletin MD11-28-132, dated November 25, 2008 (for Model MD-11

and MD-11F airplanes). This service bulletin describes procedures for installing an in-line fuse in each float level switch in the fuel tanks listed below, as applicable.

- Fuel tanks 1, 2, and 3
- Upper and lower auxiliary fuel tanks
- Forward auxiliary fuel tanks
- Center wing fuel tanks
- Tail fuel tank

Procedures for installing the in-line fuses include sleeving the wires between the fuel tank and the in-line fuse.

**FAA’s Determination and Requirements of This Proposed AD**

We are proposing this AD because we evaluated all relevant information and determined the unsafe condition described previously is likely to exist or develop in other products of these same type designs. This proposed AD would require accomplishing the actions specified in the service information described previously.

**Costs of Compliance**

We estimate that this proposed AD would affect 281 airplanes of U.S. registry. The following table provides the estimated costs for U.S. operators to comply with this proposed AD.

TABLE—ESTIMATED COSTS

Action	Work hours	Average labor rate per hour	Parts	Cost per product	Number of U.S.-registered airplanes	Fleet cost
Installation/Sleeving ..	Between 64 and 136 <sup>1</sup>	\$85	Between \$3,139 and \$5,598 <sup>1</sup>	Between \$8,579 and \$17,158	281	Between \$2,410,699 and \$4,821,398

<sup>1</sup> Depending on airplane configuration.

**Authority for This Rulemaking**

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. “Subtitle VII: Aviation Programs,” describes in more detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in “Subtitle VII, Part A, Subpart III, Section 44701: General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority

because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

**Regulatory Findings**

We determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this proposed regulation:

1. Is not a “significant regulatory action” under Executive Order 12866,

2. Is not a “significant rule” under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979), and

3. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

You can find our regulatory evaluation and the estimated costs of compliance in the AD Docket.

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** We propose to adopt a new airworthiness directive (AD) for certain Model 747-100, 747-100B, 747-100B SUD, 747-200B, 747-200C, 747-200F, 747-300, 747-400, 747SR, and 747SP

series airplanes. This proposed AD would require repetitive detailed inspections of certain overwing intercostal webs, and related investigative and corrective actions if necessary. This proposed AD results from reports of cracks in overwing intercostal webs. We are proposing this AD to detect and correct such cracking, which could grow and result in a severed intercostal. If an intercostal is severed, cracks could develop in the adjacent frame structure and skin, resulting in a rapid loss of cabin pressure.

**SUPPLEMENTARY INFORMATION:**

**Comments Invited**

We invite you to send any written relevant data, views, or arguments about this proposed AD. Send your comments to an address listed under the **ADDRESSES** section. Include “Docket No. FAA-2010-0383; Directorate Identifier 2009-NM-214-AD” at the beginning of your comments. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of this proposed AD. We will consider all comments received by the closing date and may amend this proposed AD because of those comments.

We will post all comments we receive, without change, to <http://www.regulations.gov>, including any personal information you provide. We will also post a report summarizing each substantive verbal contact we receive about this proposed AD.

**Discussion**

We have received several reports of cracks in overwing intercostal webs between station (STA) 1160 and STA 1220. Most of the cracks were found near the intercostal lower chord and a few cracks were found near the intercostal upper chord. The cracks ranged from 0.2 inch to 3.5 inches long. The cracks are caused by cyclic buckling of the web from normal flight loads. The earliest report of a web crack occurred on an airplane with 3,697 flight cycles; however, no cracks have been reported in the upper or lower chord of the overwing intercostals. This condition, if not corrected, could result

in crack growth and a severed intercostal. If an intercostal is severed, cracks could develop in the adjacent frame structure and skin, resulting in rapid loss of cabin pressure.

**Relevant Service Information**

We have reviewed Boeing Alert Service Bulletin 747-53A2750, dated August 27, 2009. Boeing Alert Service Bulletin 747-53A2750, dated August 27, 2009, describes procedures for doing a repetitive detailed inspection for cracking of the left-side and right-side overwing intercostal webs at STAs 1160, 1180, 1200, and 1220, and related investigative and corrective actions if necessary. The related investigative action is doing a detailed inspection for cracking of the upper chord, lower chord, and stiffener of the intercostal and adjacent frame assembly structure if a crack is found in the web of an overwing intercostal. Depending on findings, the corrective actions are replacing any cracked overwing intercostal web (the replacement of the overwing intercostal web includes doing an open-hole HFEC inspection for cracking of the fastener holes common to the replacement); and contacting Boeing for repair instructions of any cracked intercostal upper chord, lower chord, stiffener, or adjacent frame assembly structure, and of any crack found during any open-hole HFEC inspections, and doing the repair.

For any airplane having a STA 1160, 1180, 1200, or 1220 overwing intercostal web that has been replaced in accordance with this service bulletin, Boeing Alert Service Bulletin 747-53A2750, dated August 27, 2009, specifies procedures for doing repetitive detailed inspections for cracking of the replaced web, and related investigative and corrective actions if necessary. Related investigative actions include doing a detailed inspection for cracking of the upper chord, lower chord, and

stiffener of the intercostal, and adjacent frame assembly structure. Corrective actions include replacing any cracked overwing intercostal web; and contacting Boeing for repair instructions of any cracked intercostal upper chord, lower chord, stiffener, or adjacent frame assembly structure, and of any crack found during any open-hole HFEC inspections, and doing the repair.

**FAA’s Determination and Requirements of This Proposed AD**

We are proposing this AD because we evaluated all relevant information and determined the unsafe condition described previously is likely to exist or develop in other products of the same type design. This proposed AD would require accomplishing the actions specified in the service information described previously, except as discussed under “Differences Between the Proposed Rule and Service Bulletin.”

**Differences Between the Proposed Rule and Service Bulletin**

Boeing Alert Service Bulletin 747-53A2750, dated August 27, 2009, specifies to contact the manufacturer for instructions on how to repair certain conditions, but this proposed AD would require repairing those conditions in one of the following ways:

- Using a method that we approve; or
- Using data that meet the certification basis of the airplane, and that have been approved by the Boeing Commercial Airplanes Organization Designation Authorization (ODA) whom we have authorized to make those findings.

**Costs of Compliance**

We estimate that this proposed AD would affect 86 airplanes of U.S. registry. The following table provides the estimated costs for U.S. operators to comply with this proposed AD.

TABLE—ESTIMATED COSTS

Action	Work hours	Average labor rate per hour	Parts	Cost per product	Number of U.S.-registered airplanes	Fleet cost
Inspection .....	4	\$85	None .....	\$340 per inspection cycle	86	\$29,240 per inspection cycle

**Authority for This Rulemaking**

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. “Subtitle VII: Aviation Programs,” describes in more

detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in “Subtitle VII, Part A, Subpart III, Section 44701: General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in

air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on

products identified in this rulemaking action.

### Regulatory Findings

We determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this proposed regulation:

1. Is not a "significant regulatory action" under Executive Order 12866,
2. Is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979), and
3. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

You can find our regulatory evaluation and the estimated costs of compliance in the AD Docket.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see **ADDRESSES** section for address and phone number) between 9 a.m. and 5

p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the office of the Central Service Center, 2601 Meacham Blvd., Fort Worth, TX 76137.

Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking at 202-267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

**The Proposal**

This action proposes to amend Title 14, Code of Federal Regulations (14 CFR), Part 71, by adding additional Class E airspace extending upward from 700 feet above the surface for SIAPs operations at Hamilton Municipal Airport, Hamilton, TX. Adjustment to the geographic coordinates would be made in accordance with the FAAs National Aeronautical Charting Office. Controlled airspace is needed for the safety and management of IFR operations at the airport.

Class E airspace areas are published in Paragraph 6005 of FAA Order 7400.9T, dated August 27, 2009, and effective September 15, 2009, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart

I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would add additional controlled airspace at Hamilton Municipal Airport, Hamilton, TX.

**SUPPLEMENTARY INFORMATION:****Notice of Proposed Rulemaking**

April 15, 2010.

*I. Introduction*

1. In this order, the Federal Energy Regulatory Commission (Commission) is proposing to revise § 35.39 of its

regulations promulgated in Order No. 697<sup>1</sup> in order to reflect the clarification provided in an order to be issued concurrently with this order in response to the Compliance Working Group's<sup>2</sup> concerns regarding compliance with the market-based rate affiliate restrictions codified in Order No. 697.<sup>3</sup> Specifically, the Commission is proposing to revise the separation of functions and information sharing provisions of those affiliate restrictions to explicitly state that employees that determine the timing of scheduled outages or that engage in economic dispatch, fuel procurement, or resource planning may not be shared under the Commission's market-based rate affiliate restrictions adopted in Order No. 697.

*II. Background*

2. In Order No. 697, the Commission adopted affiliate restrictions that govern the relationship between franchised public utilities with captive customers and their "market-regulated" affiliates, i.e., affiliates whose power sales are regulated in whole or in part on a market-based rate basis. These market-based rate affiliate restrictions govern the separation of functions, the sharing of market information, sales of non-power goods or services, and power brokering. The Commission requires that, as a condition of receiving and retaining market-based rate authority, sellers comply with these affiliate

<sup>2</sup> The Compliance Working Group states that it consists of 27 energy companies, which include integrated electric businesses, merchant generators, marketing and trading businesses, and natural gas distributors, and explains that the group was formed in mid-2008 "to develop a model [Commission] compliance program guide."

The members of the Compliance Working Group taking part in its request for clarification are: Allegheny Energy, Inc., American Electric Power Company, Inc., Cleco Corporation, Consumers Energy Company, Dominion Resources, Inc., Duke Energy Corporation, Edison International, El Paso Electric Company, Energy East Corp., Entergy Corporation, Exelon Corporation, FirstEnergy Corp., FPL Group, Inc., Pacific Gas and Electric Co., Progress Energy, Inc., Public Service Enterprise Group Incorporated, and Westar Energy, Inc.

restrictions unless explicitly permitted by Commission rule or order. Failure to satisfy the conditions set forth in these affiliate restrictions constitutes a violation of the market-based rate tariff.<sup>4</sup>

3. On March 9, 2009, the Compliance Working Group submitted a request for clarification in the Commission's market-based rate rulemaking proceeding regarding which employees can be shared for purposes of compliance with the Commission's market-based rate affiliate restrictions. On October 28, 2009, the Compliance Working Group submitted an amended request for clarification. In response to the Compliance Working Group's request, the Commission is providing clarification regarding which employees may not be shared under these affiliate restrictions.<sup>5</sup> In this Notice of Proposed Rulemaking (NOPR), we propose to revise the text of the separation of functions and information sharing provisions of the affiliate restrictions contained in § 35.39 of the Commission's regulations in order to reflect the clarification provided in response to the Compliance Working Group's request.

*III. Discussion*

4. Under the separation of functions requirement in the market-based rate affiliate restrictions, employees of market-regulated power sales affiliates must operate separately, to the maximum extent practical, from employees of affiliated franchised utilities with captive customers.<sup>6</sup> Order No. 697 exempts certain categories of employees from this separation of functions requirement. Employees in these categories are permitted to be shared, and Order No. 697 gives examples of permissibly "shared employees" that are drawn from Order No. 2004, which established the Standards of Conduct rules that were in effect at the time that Order No. 697 was issued.<sup>7</sup> In particular, the market-based rate affiliate restrictions provide that

“Franchised public utilities with captive customers are permitted to share support employees, and field and maintenance employees with their market-regulated power sales affiliates. Franchised public utilities with captive customers are also permitted to share senior officers and boards of directors with their market-regulated power sales affiliates; provided, however, that the shared officers and boards of directors must not participate in directing, organizing or executing generation or market functions.”<sup>8</sup> Moreover, under the information sharing restriction, “[a] franchised public utility with captive customers may not share market information with a market-regulated power sales affiliate if the sharing could be used to the detriment of captive customers, unless simultaneously disclosed to the public.” However, “[p]ermissibly shared support employees, field and maintenance employees and senior officers and board of directors under § 35.39(c)(2)(ii) may have access to information covered by the prohibition of § 35.39(d)(1), subject to the no-conduit provision in § 35.39(g).”<sup>9</sup>

5. In its request for clarification, the Compliance Working Group asked the Commission to clarify which employees are permissibly “shared employees” for purposes of the Commission’s market-based rate affiliate restrictions. Specifically, it suggests that the Commission should interpret these affiliate restrictions to permit sharing of employees who are neither “transmission function employees” nor “marketing function employees” under the Standards of Conduct.<sup>10</sup> The Compliance Working Group stated that the issue arose because shared employees under the market-based rate affiliate restrictions are defined by reference to shared employees under the Order No. 2004-era Standards of Conduct, but as of the effective date of the Standards of Conduct Final Rule, November 26, 2008, the Standards of Conduct no longer use the concept of shared employees. The Compliance Working Group therefore claimed that this inconsistency poses a compliance conundrum that needs to be addressed

in order to enable companies and their employees to understand, and comply with, the market-based rate affiliate restrictions.

6. As explained in the April 15 Clarification Order, we are denying the Compliance Working Group’s request that the Commission interpret the market-based rate affiliate restrictions to permit the sharing of employees who are neither transmission function employees nor marketing function employees under the Standards of Conduct. However, in order to address the Compliance Working Group’s concerns regarding compliance with the market-based rate affiliate restrictions, the April 15 Clarification Order provides guidance regarding which employees may not be shared under the affiliate restrictions.<sup>11</sup>

7. Specifically, in the April 15 Clarification Order the Commission denies the Compliance Working Group’s request that it interpret the market-based rate affiliate restrictions to permit the sharing of employees who are neither transmission function employees nor marketing function employees under the Standards of Conduct because the Standards of Conduct definition of “marketing function employee” does not include certain employees who *may not* be shared under the market-based rate affiliate restrictions (for instance, employees that make economic dispatch decisions or that determine the timing of scheduled outages). Thus, the Commission explains that granting the Compliance Working Group’s requested interpretation would permit market-based rate sellers to share employees that *may not* currently be shared under the affiliate restrictions.

8. The April 15 Clarification Order explains that “marketing function employee” is not a defined term in the market-based rate regulations adopted in Order No. 697, and explains that the restrictions on which employees may be shared under the market-based rate affiliate restrictions are not limited to those employees who are engaged in sales. It states that as clarified in Order No. 697–A, under the market-based rate affiliate restrictions, “shared employees may not be involved in decisions regarding the marketing or sale of electricity from the facilities, may not make economic dispatch decisions, and may not determine the timing of scheduled outages for facilities.”<sup>12</sup> In

this regard, the April 15 Clarification Order explains that responsibility for economic dispatch or the timing of scheduled outages, for example, is not a “marketing function” under the Standards of Conduct and, therefore, engaging in these activities would not cause an employee to be a marketing function employee subject to the Independent Functioning Rule under the Standards of Conduct (and therefore, those employees could be shared). Thus, consistent with the Commission’s determinations in Order No. 697–A, the April 15 Clarification Order clarifies that, for purposes of compliance with the market-based rate affiliate restrictions, a franchised public utility with captive customers and its market-regulated power sales affiliates may not share employees that make economic dispatch decisions or that determine the timing of scheduled outages.<sup>13</sup>

9. In addition, as explained in the April 15 Clarification Order, franchised public utilities with captive customers should be prohibited from sharing employees that engage in resource planning or fuel procurement with their market-regulated power sales affiliates. If the franchised public utility and its market-regulated power sales affiliate are permitted to share employees that make strategic decisions about future generation supply, such as deciding when and/or where to build or acquire generating capacity, such strategic decision making by a shared employee could result in generation being built or acquired for the benefit of the market-regulated power sales affiliate, and at the expense of the captive customers of the franchised public utility. In this regard, the Commission notes that the corporate entity has an inherent incentive to decrease its market-regulated power sales affiliate’s costs in order to maximize profits for shareholders.

10. Similarly, a shared employee that procures fuel for both the franchised public utility and the market-regulated power sales affiliate may have the incentive to allocate purchases of lower priced fuel supplies to the market regulated power sales affiliate while allocating purchases of higher priced fuel supplies to the franchised public utility. By contrast, if the two entities are required to independently procure fuel, they would compete for the market’s best priced fuel.

11. Therefore, given that the definition of marketing function employee under the Standards of Conduct does not specifically address

employees that determine the timing of scheduled outages or that engage in economic dispatch, fuel procurement, or resource planning, the April 15 Clarification Order clarifies that employees engaging in these activities<sup>14</sup> are prohibited from being shared under the market-based rate affiliate restrictions, absent an explicit waiver from the Commission.

12. In order to reflect this clarification, we propose to revise § 35.39 of our regulations in order to clarify that employees that determine the timing of scheduled outages or that engage in economic dispatch, fuel procurement, or resource planning may not be shared under the market-based rate affiliate restrictions. Accordingly, we propose to revise the separation of functions provision contained in § 35.39(c)(2)(ii) of the regulations to include the provision that franchised public utilities with captive customers are prohibited from sharing employees that determine the timing of scheduled outages or that engage in economic dispatch, fuel procurement, or resource planning with their market-regulated power sales affiliates.

13. We also propose to revise the information sharing provision contained in § 35.39(d)(2) of the regulations to include the provision that employees that determine the timing of scheduled outages or that engage in economic dispatch, fuel procurement, or resource planning may not have access to information covered by the prohibition of § 35.39(d)(1).

#### IV. Information Collection Statement

14. The Office of Management and Budget's (OMB) regulations require that OMB approve certain information collection and data retention requirements imposed by an agency.<sup>15</sup> Order No. 697's revisions to the information collection requirements for market-based rate sellers were approved under FERC-919 "Market-Based Rates for Wholesale Sales of Electric Energy, Capacity and Ancillary Services by Public Utilities" OMB Control Nos. 1902-0234. While this order proposes to revise the regulations for the market-based rate program in order to provide clarification, it does not add to the existing information collection requirements. Accordingly, a copy of

<sup>14</sup> The prohibition on sharing employees that engage in resource planning applies only to the sharing of employees between a franchised public utility and its market-regulated power sales affiliate, and is not intended to alter resource planning activities by transmission providers that are permitted under the Standards of Conduct Final Rule.

<sup>15</sup> 5 CFR 1320.11.

this order will be sent to OMB for informational purposes only.

#### V. Environmental Analysis

15. The Commission is required to prepare an Environmental Assessment or an Environmental Impact Statement for any action that may have a significant adverse effect on the human environment.<sup>16</sup> The Commission has categorically excluded certain actions from this requirement as not having a significant effect on the human environment.<sup>17</sup> The actions proposed here fall within the categorical exclusions in the Commission's regulations for rules that are clarifying, corrective, or procedural, or do not substantially change the effect of legislation or regulations being amended.<sup>18</sup> In addition, the proposed rule is categorically excluded as an electric rate filing submitted by a public utility under sections 205 and 206 of the FPA.<sup>19</sup> As explained above, this proposed rule revises the regulations for the market-based rate program in order to provide clarification. Accordingly, no environmental assessment is necessary and none has been prepared in this NOPR.

#### VI. Regulatory Flexibility Act Analysis

16. The Regulatory Flexibility Act of 1980 (RFA)<sup>20</sup> generally requires a description and analysis of final rules that will have significant economic impact on a substantial number of small entities. The RFA mandates consideration of regulatory alternatives that accomplish the stated objectives of a proposed rule and that minimize any significant economic impact on a substantial number of small entities. Most filing companies regulated by the Commission do not fall within the RFA's definition of small entity.<sup>21</sup> Moreover, as noted above, this proposed rule revises the regulations for the market-based rate program in order to provide clarification of an existing requirement that affected entities, including small entities, are currently required to comply with. Because the proposed revisions clarify an existing requirement, and do not add to the

#### *Public Meeting*

We do not now plan to hold a public meeting. But you may submit a request for one using one of the four methods specified under **ADDRESSES**. Please explain why you believe a public meeting would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

#### **Background and Purpose**

The Coast Guard proposes establishing a temporary safety zone on the navigable waters of the Lower Colorado River in support of a fireworks show in the navigation channel of the Lower Colorado River, Laughlin, NV. The fireworks show is being sponsored by AVI Resort and Casino. The safety zone would be set at an 800 foot radius around the firing site. This temporary

safety zone is necessary to provide for the safety of the show's crew, spectators, participants of the event, participating vessels, and other vessels and users of the waterway.

#### **Discussion of Proposed Rule**

The Coast Guard proposes a safety zone that would be enforced from 8 p.m. to 9:45 p.m. on July 4, 2010. The limits of the safety zone would include all navigable waters within 800 feet of the firing location adjacent to the AVI Resort and Casino centered in the channel between Laughlin Bridge and the northwest point of AVI Resort and Casino Cove in position: 35°00'93" N, 114°38'28" W.

This safety zone is necessary to provide for the safety of the crews, spectators, and participants of the event and to protect other vessels and users of the waterway. Persons and vessels would be prohibited from entering into, transiting through, or anchoring within this safety zone unless authorized by the Captain of the Port, or his designated representative.

U.S. Coast Guard personnel would enforce this safety zone. Other Federal, State, or local agencies may assist the Coast Guard, including the Coast Guard Auxiliary. Vessels or persons violating this rule would be subject to both criminal and civil penalties.

#### **Regulatory Analyses**

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

#### *Regulatory Planning and Review*

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. Although the safety zone will restrict boating traffic within the navigable waters of the Lower Colorado River, Laughlin, NV, the effect of this regulation will not be significant as the safety zone will encompass only a portion of the waterway and will be very short in duration. The entities most likely to be affected are pleasure craft engaged in recreational activities and sightseeing. As such, the Coast Guard expects the economic impact of this rule to be minimal.

#### *Small Entities*

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

This proposed rule would affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor in the region of the lower Colorado River adjacent to AVI Resort and Casino from 8 p.m. to 9:45 p.m. on July 4, 2010.

This safety zone will not have a significant economic impact on a substantial number of small entities for the following reasons. The safety zone only encompasses a portion of the waterway; it is short in duration at a relatively late hour when commercial traffic is low; and the Captain of the Port may authorize entry into the zone, if necessary. Before the effective period, the Coast Guard will publish a local notice to mariners (LNM) and will issue broadcast notice to mariners (BNM) alerts via marine channel 16 VFH before the safety zone is enforced.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (*see ADDRESSES*) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

#### *Assistance for Small Entities*

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Petty Officer Corey McDonald, Waterways Management, U.S. Coast Guard Sector San Diego, at 619–278–7262. The Coast Guard will not retaliate against small

entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

#### *Collection of Information*

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

#### *Federalism*

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

#### *Unfunded Mandates Reform Act*

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

#### **Taking of Private Property**

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

#### *Civil Justice Reform*

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

#### *Protection of Children*

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

#### *Indian Tribal Governments*

This proposed rule does not have tribal implications under Executive

Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

#### *Energy Effects*

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

#### *Technical Standards*

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

#### *Environment*

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. A preliminary environmental analysis checklist supporting this determination is

available in the docket where indicated under **ADDRESSES**. This proposed rule involves establishing a safety zone and is categorically excluded under figure 2–1, paragraph (34)(g), of the Instruction. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

#### **List of Subjects in 33 CFR Part 165**

### Background and Purpose

The New York State Office of Parks, Recreation and Historic Preservation sponsors an annual air show at Jones Beach State Park during the week before Memorial Day. Jones Beach State Park is located on the south shore of Long Island, New York. The Air Show consists of aircraft performing aerobatics in close proximity to other aircraft over a specified area of the Atlantic Ocean off of Jones Beach State Park. Several aerial groups will participate in the Air Show. The entire Air Show will take place over the waters of the Atlantic Ocean immediately to the south of Jones Beach Island. The Coast Guard is proposing to establish a safety zone in order to provide for the safety of the maritime community and spectators viewing the Air Show from the water should an accident, such as a collision of aircraft, occur during the Show. The air shows generally take place from 10 a.m. to 3 p.m. every day from Thursday through Sunday before Memorial Day. The enforcement period for the Safety Zone will be from 9 a.m. to 3:30 p.m. each day. These times, while longer than the actual air shows, will provide sufficient time to clear the safety zone area prior to the shows, as well as providing additional time should they run over the scheduled period. The actual air show will be conducted within an area which is contained in, and smaller than, the safety zone area outlined by the coordinates provided below. The larger safety zone area is needed to protect the boating community from the inherent hazards of air shows.

### Discussion of Proposed Rule

The Coast Guard is proposing to establish a permanent safety zone for the Jones Beach State Park Air Show. The safety zone would be established by reference to geographic coordinates as follows: Beginning at a point on land located in Jones Beach State Park at approximate position 40°35'06" N, 073°32'37" W, then running east along the shoreline of Jones Beach State Park to approximate position 40°35'49" N, 073°28'47" W; then running south to a position in the Atlantic Ocean off of Jones Beach at approximate position 40°35'05" N, 073°28'34" W; then running west to approximate position 40°34'23" N, 073°32'23" W; then running north to the point of beginning at approximate position 40°35'06" N,

073°32'37" W. All coordinates are North American Datum 1983. The safety zone will be enforced May 24th, 2010 through May 30th, 2010 from 9:30 a.m. to 3:30 p.m. and annually thereafter on the Thursday through Sunday before Memorial Day in May. Notification for future dates of the New York Air Show at Jones Beach State Park will be made via a Notice of Enforcement in the **Federal Register**, marine broadcasts and broadcast notice to mariners.

Entry into this zone is prohibited unless authorized by the Captain of the Port Long Island Sound or by Designated On-scene Patrol Personnel. Any violation of the safety zone described herein is punishable by, among other things, civil and criminal penalties, *in rem* liability against the offending vessel, and the initiation of suspension or revocation proceedings against Coast Guard-issued merchant mariner credentials.

### Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

### Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation is unnecessary.

This regulation may have some impact on the public, but the potential impact will be minimized for the following reasons: The zone would only be enforced for a temporary period each day over a four day period; and vessels may transit in all areas around the zone at all times.

### Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This proposed rule may affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit or anchor in those portions of the Atlantic Ocean off of Jones Beach State Park, Jones Beach, New York covered by the safety zone.

For the reasons outlined in the Regulatory Evaluation section above, this proposed rule will not have a significant impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (*see ADDRESSES*) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

### Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact: Chief Petty Officer Christie Dixon, Prevention Department, USCG Sector Long Island Sound at 203–468–4459, e-mail: [christie.m.dixon@uscg.mil](mailto:christie.m.dixon@uscg.mil). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

### Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

### Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

### Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

#### Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

### Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

### Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

### Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

### Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of

energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

### Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

### Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions which will not individually or cumulatively have a significant effect on the human environment. This rule involves creation of a regulation that establishes a safety zone which is an action that may be categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction. An environmental analysis checklist will be available in the docket where indicated under **ADDRESSES**.

We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

### List of Subjects in 33 CFR Part 165

#### Approval and Promulgation of Implementation Plans: Tennessee; Visibility Impairment Prevention for Federal Class I Areas; Removal of Federally Promulgated Provisions

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to remedy an inadvertent omission in the Tennessee State Implementation Plan (SIP) regarding visibility in 40 CFR 52.2234. EPA approved Tennessee's visibility rules addressing new source review on July 18, 1996, and a plan

addressing monitoring and reporting of visibility on July 2, 1997. EPA's approval of these rules neglected to remove the previous federally promulgated provisions from the Federal Implementation Plan contained in 40 CFR 52.2234. EPA is proposing to correct this omission in this rulemaking. This action is being taken pursuant to section 110 of the Clean Air Act. In the Final Rules Section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments.

**DATES:** Written comments must be received on or before May 21, 2010.

The Hydrographic Services Improvement Act Amendments of 2008 states, "the voting members of the Panel shall be individuals who, by reason of knowledge, experience, or training, are especially qualified in one or more of the disciplines and fields relating to hydrographic data and hydrographic services, marine transportation, port administration, vessel pilotage, coastal and fishery management, and other disciplines as determined appropriate by the Administrator." NOAA encourages individuals with expertise in navigation data, products and services; coastal management; fisheries management; coastal and marine spatial planning; geodesy; water levels; and other science-related fields to submit applications for Panel membership. To apply for membership on the Panel, applicants should submit a resume as indicated in the **ADDRESSES** section. NOAA is an equal opportunity employer.

**SUPPLEMENTARY INFORMATION:** This notice responds to the Hydrographic Services Improvement Act Amendments of 2002 (Pub. L. 107-372), which requires the Under Secretary of Commerce for Oceans and Atmosphere to solicit nominations for Panel membership. The Panel shall advise the NOAA Administrator on matters related to the responsibilities and authorities set forth in section 303 of the Hydrographic Services Improvement Act of 1998, its amendments, and such other appropriate matters as the

Administrator refers to the Panel for review and advice.

Under 33 U.S.C. 883a, *et seq.*, NOAA's National Ocean Service (NOS) is responsible for providing nautical charts and related information for safe navigation. NOS collects and compiles hydrographic, tidal and current, geodetic, and a variety of other data in order to fulfill this responsibility. The Hydrographic Services Review Panel provides advice on current and emerging oceanographic and marine science technologies relating to operations, research and development; and dissemination of data pertaining to:

- (a) Hydrographic surveying;
- (b) Shoreline surveying;
- (c) Nautical charting;
- (d) Water level measurements;
- (e) Current measurements;
- (f) Geodetic measurements;
- (g) Geospatial measurements;
- (h) Geomagnetic measurements; and
- (i) Other oceanographic/marine related sciences.

The Panel has fifteen voting members appointed by the Administrator in accordance with 33 U.S.C. 892c. Members are selected on a standardized basis, in accordance with applicable Department of Commerce guidance. The Co-Directors of the Center for Coastal and Ocean Mapping/Joint Hydrographic Center and two other NOAA employees serve as nonvoting members of the Panel. The Director, NOAA Office of Coast Survey, serves as the Designated Federal Official (DFO).

This solicitation is to obtain candidate applications for up to 11 full voting member vacancies on the Panel as of January 1, 2011. Additional appointments may be made to fill vacancies left by any members who choose to resign during 2010. Be advised that some voting members whose terms expire January 1, 2011 may be reappointed for another full term if eligible.

If you submitted an application for the July 16, 2009 **Federal Register** Notice for membership solicitation, and are still interested in being considered for HSRP membership, you need to confirm your interest by contacting NOAA's HSRP Program Coordinator, Kathy Watson, at [Hydroservices.panel@noaa.gov](mailto:Hydroservices.panel@noaa.gov) or 301-713-2770 x 158. If you respond that you are still interested, your 2009 application will remain valid and will be included in this 2010 selection.

Voting members are individuals who, by reason of knowledge, experience, or training, are especially qualified in one or more disciplines relating to hydrographic surveying, tides, currents, geodetic and geospatial measurements,

marine transportation, port administration, vessel pilotage, coastal or fishery management, and other oceanographic or marine science areas as deemed appropriate by the Administrator. Full-time officers or employees of the United States may not be appointed as a voting member. Any voting member of the Panel who is an applicant for, or beneficiary of (as determined by the Under Secretary) any assistance under 33 U.S.C. 892c shall disclose to the Panel that relationship, and may not vote on any other matter pertaining to that assistance.

Voting members of the Panel serve a four-year term, except that vacancy appointments are for the remainder of the unexpired term of the vacancy. Members serve at the discretion of the Under Secretary and are subject to government ethics standards. Any individual appointed to a partial or full term may be reappointed for one additional full term. A voting member may serve until his or her successor has taken office. The Panel selects one voting member to serve as the Chair and another to serve as the Vice Chair. The Vice Chair acts as Chair in the absence or incapacity of the Chair but will not automatically become the Chair if the Chair resigns. Meetings occur at least twice a year, and at the call of the Chair or upon the request of a majority of the voting members or of the Under Secretary. #### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson Stevens Act) authorizes the establishment of Regional Fishery Management Councils to exercise sound judgment in the stewardship of fishery

resources through the preparation, monitoring, and revision of such fishery management plans under circumstances (a) which will enable the States, the fishing industry, consumers, environmental organizations, and other interested persons to participate in the development of such plans, and (b) which take into account the social and economic needs of fishermen and dependent communities.

Section 302(j) of the Magnuson-Stevens Act requires that Council members appointed by the Secretary, Scientific and Statistical Committee (SSC) members appointed by a Council under Section 302(g)(1), or individuals nominated by the Governor of a State for possible appointment as a Council member, disclose their financial interest in any Council fishery. These interests include harvesting, processing, lobbying, advocacy, or marketing activity that is being, or will be, undertaken within any fishery over which the Council concerned has jurisdiction, or with respect to an individual or organization with a financial interest in such activity. Seated Council members appointed by the Secretary, including the Tribal Government appointee and SSC members, must file a financial interest form within 45 days of taking office and must provide an update of their statements at any time any such financial interest is acquired, or substantially changed. The National Marine Fisheries Service is in the process of revising the statement of financial interests form by adding clearer instructions, providing examples of submissions, and updating the form to provide a more appropriate intuitive format.

The Secretary is required to submit an annual report to Congress on action taken by the Secretary and the Councils to implement the disclosure of financial interest and recusal requirements, including identification of any conflict of interest problems with respect to the Councils and SSCs and recommendations for addressing any such problems.

The Act further provides that a member shall not vote on a Council decision that would have a significant and predictable effect on a financial interest if there is a close causal link between the Council decision and an expected and substantially disproportionate benefit to the financial interest of the affected individual relative to the financial interest of other participants in the same gear type or sector of the fishery. However, an affected individual who is declared ineligible to vote on a Council action

may participate in Council deliberations relating to the decision after notifying the Council of his/her recusal and identifying the financial interest that would be affected.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

Workers come from many places inside and outside Alaska to work seasonally in its fish processing facilities. As a result, the population of an Alaska community with a fish processing plant can increase significantly during peak processing seasons. However, very limited information is available in a consolidated location or format about these fish processing facilities. The National Marine Fisheries Service's Alaska Fisheries Science Center proposes to obtain such basic information, as an accurate number of individuals employed at each processing facility during the months of operation, the peak number of workers for processing various species by season, the ethnicity of processing workers, types of lodging and other accommodations and activities available for processing workers, whether or not the company provides meals for the processing workforce in a company galley, the interactions between seasonal processing workers and permanent residents of the community, and the history of the fish processing facility in the community. This type of information is important when attempting to forecast the possible social impacts of fishing regulations on communities which have an onshore fish processing facility.

This project would produce "processor profiles", short narrative descriptions of all the onshore fish processing plants in the state of Alaska that will augment and update existing community profiles.

## II. Method of Collection

Phone surveys will be conducted with all shore-based fish processing plants in Alaska. Site visits will be conducted with shore-based fish processing plants in three communities in Alaska: Cordova, Kenai, and Petersburg (these communities have not previously received a site visit and have the largest number of fish processing facilities in their sub-regions).

[A-351-806]

#### Silicon Metal from Brazil: Amended Final Results of Administrative Review Pursuant to Court Decision

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** April 21, 2010.

**FOR FURTHER INFORMATION CONTACT:** Thomas Martin, AD/CVD Operations,

Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: 202-482-3936.

**SUPPLEMENTARY INFORMATION:**

**Background**

This matter arose from a challenge to the *Final Results* issued by the Department of Commerce (“the Department”) regarding the administrative review of the antidumping duty order on Silicon Metal from Brazil for the period of review beginning July 1, 1996, through June 30, 1997. See *Silicon Metal from Brazil: Notice of Final Results of Antidumping Duty Administrative Review*, 64 FR 6305 (February 9, 1999) (“*Final Results*”). Following publication of the *Final Results*, the petitioners<sup>1</sup> and the respondents Eletrosilex S.A. (“Eletrosilex”) and Ligas de Aluminio S.A. filed lawsuits with the Court of International Trade (“CIT”) challenging the Department’s *Final Results*. Eletrosilex contested the Department’s application of total adverse facts available (“AFA”) to Eletrosilex, and the Department’s selected AFA rate of 93.20 percent.

On July 17, 2000, the CIT issued its decision, remanding the *Final Results* to the Department to reconsider its determination to apply AFA to Eletrosilex and the rate which the Department selected as AFA. See *American Silicon Technologies v. United States*, 110 F. Supp. 2d 992, 1004-5 (2000). On January 29, 2001, the Department submitted remand results to the CIT. See “Silicon Metal From Brazil; Final Results of Redetermination Pursuant to Court Remand, Ct. No. 99-00149.” In the remand results, the Department considered its determination and reached the same conclusions as regards applying AFA to Eletrosilex, and the appropriate rate to select as AFA, as it did in the *Final Results*.

On October 17, 2002, the CIT issued its decision, affirming the Department’s determination to apply AFA to Eletrosilex but remanding to the Department to redetermine an AFA rate. See *American Silicon Technologies v. United States*, 240 F. Supp. 2d 1306, 1313 (2002). Pursuant to the CIT’s remand instructions, the Department submitted remand results to the CIT on January 22, 2003. See “Silicon Metal From Brazil; Final Results of

Redetermination Pursuant to Court Remand” (“Second Remand Results”). The Department selected as AFA for Eletrosilex a margin of 67.93 percent, a margin calculated for another respondent in the administrative review of silicon metal from Brazil for the period July 1, 1994, through June 30, 1995. See *Silicon Metal from Brazil, Final Results of Redetermination Pursuant to Court Remand, American Silicon Technologies v. United States*, Court No. 97-02-00267, Slip. Op. 99-34. On June 27, 2003, the CIT sustained the Second Remand Results. See *American Silicon Technologies v. United States*, 273 F. Supp. 2d 1342 (2003). However, on October 30, 2003, pursuant to a motion by Eletrosilex, the CIT stayed further action pending the results of litigation regarding the administrative review of silicon metal from Brazil for the 94/95 period of review. See *American Silicon Technologies v. United States*, 27 C.I.T. 1677; 2003 Ct. Intl. Trade LEXIS 147 (2003). On May 13, 2004, the CIT sustained the Department’s remand results regarding the 94/95 period of review. See *American Silicon Technologies v. United States*, 28 C.I.T. 698; 2004 Ct. Intl. Trade LEXIS 49 (2004). That decision was not appealed.

On January 27, 2010, the CIT dissolved the stay of its June 27, 2003 judgment. As there is now a final and conclusive court decision in this case, we are amending our *Final Results*.

**Amended Final Results**

As the litigation in this case has concluded, the Department is amending the *Final Results* in accordance with the CIT’s decision. The revised dumping margin for Eletrosilex is as follows:

Manufacturer/Exporter	Margin
Eletrosilex S.A. ....	67.93%

The Department intends to issue instructions to U.S. Customs and Border Protection to liquidate all entries at the appropriate rates for the company listed above, 15 days after the date of publication of this notice.

This notice is published in accordance with sections 751(a)(1) and 777(i) of the Tariff Act of 1930, as amended.

**Certain Magnesia Carbon Bricks from the People’s Republic of China: Amended Preliminary Determination of Sales at Less Than Fair Value**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** April 21, 2010.

**SUMMARY:** On March 12, 2010, the Department of Commerce (“Department”) published the Preliminary Determination of sales at less than fair value (“LTFV”) in the antidumping duty investigation of certain magnesia carbon bricks (“bricks”) from the People’s Republic of China (“PRC”). See *Certain Magnesia Carbon Bricks from the People’s Republic of China: Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination*, 75 FR 11847 (March 12, 2010) (“*Preliminary Determination*”). We are amending our Preliminary Determination to correct certain ministerial errors with respect to the antidumping duty margin calculation for RHI Refractories Liaoning Co., Ltd. (“RHI”). The corrections to the RHI margin also affect the margin assigned to the companies receiving a separate rate and the PRC-wide rate. In addition, we have granted a separate rate to Yingkou Jiahe Refractories Co., Ltd. (“Jiahe”).

**FOR FURTHER INFORMATION CONTACT:** Paul Walker, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC, 20230; telephone: (202) 482-0413.

**SUPPLEMENTARY INFORMATION:** As noted above, on March 12, 2010, the Department published in the **Federal Register** the *Preliminary Determination* that bricks from the PRC are being, or are likely to be, sold in the United States at LTFV, as provided in section 733 of the Tariff Act of 1930, as amended (“Act”). See *Preliminary Determination*.

On March 12, 2010, RHI, Dalian Mayerton Refractories Co., Ltd. and Liaoning Mayerton Refractories Co., Ltd. (collectively, “Mayerton”), Jiahe, and Resco Products, Inc. (“Petitioner”), filed timely allegations of ministerial errors contained in the Department’s *Preliminary Determination*. After reviewing the allegations, we have determined that the *Preliminary Determination* included significant

<sup>1</sup> The petitioners are American Silicon Technologies, Elkem Metals Company, Globe Metallurgical, Inc. and SKW Metals & Alloys, Inc.

ministerial errors. Therefore, in accordance with 19 CFR 351.224(e), we have made changes, as described below, to the *Preliminary Determination*.

**Period of Investigation**

The period of investigation (“POI”) is January 1, 2009, through June 30, 2009. See 19 CFR 351.204(b)(1).

**Scope of Investigation**

Imports covered by this investigation consist of certain chemically bonded (resin or pitch), magnesia carbon bricks with a magnesia component of at least 70 percent magnesia (“MgO”) by weight, regardless of the source of raw materials for the MgO, with carbon levels ranging from trace amounts to 30 percent by weight, regardless of enhancements, (for example, magnesia carbon bricks can be enhanced with coating, grinding, tar impregnation or coking, high temperature heat treatments, anti-slip treatments or metal casing) and regardless of whether or not anti-oxidants are present (for example, anti-oxidants can be added to the mix from trace amounts to 15 percent by weight as various metals, metal alloys, and metal carbides). Certain magnesia carbon bricks that are the subject of this investigation are currently classifiable under subheadings 6902.10.1000, 6902.10.5000, 6815.91.0000, and 6815.99 of the Harmonized Tariff Schedule of the United States (“HTSUS”). While HTSUS subheadings are provided for convenience and customs purposes, the written description is dispositive.

**Significant Ministerial Error**

Pursuant to 19 CFR 351.224(e) and (g)(1), the Department is amending the *Preliminary Determination* to reflect the correction of significant ministerial errors it made in the margin calculations

regarding RHI, and Jiahe, a separate rate applicant. In accordance with 19 CFR 351.224(e), we are correcting significant ministerial errors in the *Preliminary Determination*. A ministerial error is defined as errors in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial. See section 735(e) of the Act. A significant ministerial error is defined as a ministerial error, the correction of which, singly or in combination with other errors, would result in (1) a change of at least five absolute percentage points in, but not less than 25 percent of, the weighted-average dumping margin calculated in the original (erroneous) preliminary determination, or (2) a difference between a weighted-average dumping margin of zero or *de minimis* and a weighted-average dumping margin of greater than *de minimis* or vice versa. See 19 CFR 351.224(g). As a result of this amended preliminary determination, we have revised the antidumping rate for RHI and added Jiahe to the list of exporters that received a separate rate. In addition, we have revised the separate rate based on RHI’s revised dumping margin. See the “Amended Preliminary Determination” section below. Moreover, we have revised the PRC-wide rate based on RHI’s revised dumping margin. *Id.*; see also Memorandum to the File, through Scot T. Fullerton, Program Manager, Office 9, from Paul Walker, Case Analyst, “Investigation of Magnesia Carbon Bricks from the People’s Republic of China: Corroboration of the PRC-wide Rate for the Amended Preliminary Determination,” dated concurrently with this notice.

**Ministerial Error Allegations**

On March 12, 2010, Jiahe, a separate rate applicant, submitted a ministerial error allegation claiming that the Department did not name it in the *Preliminary Determination* as one of the exporters receiving a separate rate. On March 12, 2010, Mayerton and RHI submitted ministerial error allegations with respect to their preliminary margin calculations, relating to certain conversion errors and movement expenses. On March 18, 2010, the Petitioner submitted rebuttal comments to RHI’s ministerial error allegations. The Department has reviewed its preliminary calculations and agrees that certain errors which the parties alleged are significant ministerial errors within the meaning of 19 CFR 351.224(g). See Memorandum to James Doyle, Office Director, Office 9, through Scot T. Fullerton, Program Manager, Office 9, from Paul Walker, Senior Case Analyst, “Investigation of Magnesia Carbon Bricks from the People’s Republic of China: Ministerial Error Memorandum,” dated concurrently with this notice, for a discussion of the ministerial error allegations. See Appendix I for a list of the ministerial error allegations.

The collection of bonds or cash deposits and suspension of liquidation will be revised accordingly and parties will be notified of this determination, in accordance with section 733(d) and (f) of the Act.

**Amended Preliminary Determination**

As a result of our correction of significant ministerial errors in the *Preliminary Determination*, we have determined that the following weighted-average dumping margins apply:

Rodgers et al.* (Settlement), the Omnibus Public Land Management Act of 2009 Public Law 111-11, Title X. (Restoration Act), and section 10(a)(1)(A) of the ESA. This proposed reintroduction includes designating an experimental population for spring-run Chinook salmon within the San Joaquin River from below the confluence with the Stanislaus River to Friant Dam. The proposed action will include promulgation of a 4(d) rule.

##### Geographic Scope

The proposed planning area for the proposed reintroduction will consist of the aquatic ecosystems and natural communities, and potentially adjacent riparian and floodplain natural communities, within and along the San Joaquin River and from the confluence of the Stanislaus River (approximately 3 miles northeast of Vernalis, California) upstream to Friant Dam and its associated tributaries including: the Stanislaus River below Goodwin Dam, the Tuolumne River below La Grange Dam, and the Merced River below Crocker-Huffman Dam.

##### Covered Species

The species that is intended to be the initial focus of the reintroduction is the spring-run Central Valley Chinook salmon (*Oncorhynchus tshawytscha*).

### Request for Comments

The primary purpose of the scoping process is to identify important issues raised by the public related to the issuance of an ESA 10(j) rule and promulgation of an ESA 4(d) rule associated with the reintroduction of spring-run Chinook salmon to the San Joaquin River. Written comments from interested parties are invited to ensure that the full range of issues related to the proposed development of the 4(d) rule and the proposed reintroduction. All comments received, including names and addresses, will become part of the official administrative record and may be made available to the public. Information regarding this proposed action is available in alternative formats upon request.

### Reasonable Accommodations

Persons needing reasonable accommodation to attend and participate should contact Elif Fehman-Sullivan (see **FOR FURTHER CONTACT INFORMATION**). To allow sufficient time to process requests, please call no later than five days prior to attending the meeting.

#### Certain Cased Pencils From the People's Republic of China: Extension of Time Limit for the Final Results of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** April 21, 2010.

**FOR FURTHER INFORMATION CONTACT:** Alexander Montoro or Joseph Shuler, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-0238 and (202) 482-1293, respectively.

#### SUPPLEMENTARY INFORMATION:

##### Background

On December 22, 2009, the Department of Commerce

(“Department”) published the preliminary results of the administrative review of the antidumping duty order on certain cased pencils from the People’s Republic of China (“PRC”), covering the period December 1, 2007 through November 30, 2008. *See Certain Cased Pencils from the People’s Republic of China: Preliminary Results of Antidumping Duty Administrative Review*, 74 FR 68047 (December 22, 2009). The final results of this administrative review were originally due no later than April 21, 2010. As explained in the memorandum from the Deputy Assistant Secretary for Import Administration, the Department has exercised its discretion to toll deadlines for the duration of the closure of the Federal Government from February 5, through February 12, 2010. Thus, all deadlines in this segment of the proceeding have been extended by seven days. The revised deadline for the final results of this review is currently April 28, 2010. See Memorandum to the Record from Ronald Lorentzen, DAS for Import Administration, regarding “Tolling of Administrative Deadlines As a Result of the Government Closure During the Recent Snowstorm,” dated February 12, 2010.

#### Extension of Time Limit for Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the “Act”), requires that the Department issue the final results of an administrative review within 120 days after the date on which the preliminary results are published. If it is not practicable to complete the review within that time period, section 751(a)(3)(A) of the Act allows the Department to extend the deadline for the final results to a maximum of 180 days after the date on which the preliminary results are published.

The Department finds that it is not practicable to complete the final results of this review by April 28, 2010, because the Department needs additional time to consider complex issues the parties have raised related to surrogate valuation. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time limit for completion of the final results by 30 days to May 28, 2010.

This notice is published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: April 15, 2010.

#### Magnesium Metal from the People's Republic of China: Preliminary Results of the 2008-2009 Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** In response to requests from interested parties, the Department of Commerce ("the Department") is conducting an administrative review of the antidumping duty order on magnesium metal from the People's Republic of China ("PRC"), covering the period April 1, 2008, through March 31, 2009. This administrative review covers one exporter of the subject merchandise.

We have preliminarily determined that the respondent in this administrative review has not made sales in the United States at prices below normal value during the period of review ("POR"). If these preliminary results are adopted in our final results of this review, we will instruct U.S. Customs and Border Protection ("CBP") to liquidate entries of subject merchandise during the POR without regard to antidumping duties.

We invite interested parties to comment on these preliminary results. Parties who submit comments are requested to submit with each argument a summary of the argument. We intend to issue the final results no later than 120 days from the date of publication of this notice, pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act").

**EFFECTIVE DATE:** April 21, 2010.

**FOR FURTHER INFORMATION CONTACT:** Laurel LaCivita or Eugene Degnan, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4243 and (202) 482-0414, respectively.

#### SUPPLEMENTARY INFORMATION:

##### Background

On May 12, 1995, the Department published in the **Federal Register** the antidumping duty order on magnesium metal from the PRC.<sup>1</sup> On April 1, 2009,

<sup>1</sup> See *Notice of Antidumping Duty Orders: Pure Magnesium From the People's Republic of China, the Russian Federation and Ukraine; Notice of Amended Final Determination of Sales at Less Than Fair Value: Antidumping Duty Investigation*

the Department published in the **Federal Register** a notice of opportunity to request an administrative review of the antidumping duty order on magnesium metal from the PRC for the period April 1, 2008, through March 31, 2009.<sup>2</sup> On April 27, 2009, in accordance with 19 CFR 351.213(b)(2), Tianjin Magnesium International, Co. Ltd. ("TMI"), a foreign exporter of the subject merchandise, requested the Department to review its sales of subject merchandise. On May 30, 2009, US Magnesium LLC ("Petitioner") also requested that the Department conduct an administrative review of TMI's exports of subject merchandise. On May 29, 2009, the Department initiated an administrative review of the order on magnesium metal from the PRC for the POR with respect to TMI.<sup>3</sup>

On June 10, 2009, the Department issued its antidumping duty questionnaire to TMI. On July 6, 2009, TMI submitted its Section A questionnaire response ("TMI's AQR"). On August 3, 2009, TMI submitted its Section C and D questionnaire responses ("TMI's CQR" and "TMI's DQR," respectively). On September 9, 2009, Petitioner requested that the Department verify TMI. On October 10, 2009, Petitioner submitted comments on TMI's AQR, CQR, and DQR. On December 23, 2009, the Department issued its first supplemental questionnaire to TMI. On January 26, 2010, TMI submitted its response to the Department's sections A, C and D supplemental questionnaire ("TMI's 1st SQR"). On March 19, 2010, the Department issued the second supplemental questionnaire to TMI and the Department received a response on April 6, 2010 ("TMI's 2nd SQR").

On October 13, 2009, the Department requested that Import Administration's Office of Policy provide a list of surrogate countries for this review.<sup>4</sup> On October 13, 2009, the Office of Policy issued its list of surrogate countries.<sup>5</sup> On

On October 30, 2009, Petitioner and TMI submitted comments on surrogate country selection ("Petitioner's Surrogate Country Selection Letter" and "TMI's Surrogate Country Selection Letter"). On November 12, 2009, Petitioner and TMI submitted surrogate value comments ("Petitioner's Surrogate Value Comments" and "TMI's Surrogate Value Comments," respectively). On November 25, 2009, Petitioner submitted rebuttal surrogate value comments ("Petitioner's Rebuttal Surrogate Value Comments"). On November 27, 2009, TMI submitted rebuttal surrogate value comments ("TMI's Rebuttal Surrogate Value Comments").

On December 23, 2009, the Department extended the time period for completion of the preliminary results of this review by 75 days until March 16, 2010.<sup>6</sup>

On February 2, 2010, the Department requested that CBP provide entry documentation for certain transactions during the POR.<sup>7</sup>

Thus, all deadlines in this segment of the proceeding have been extended by seven days. As a result, the revised deadline for the preliminary results of this review became March 23, 2010.<sup>8</sup>

On March 3, 2010, Petitioner requested the Department to extend the deadline for the preliminary results of review by an additional 45 days until May 7, 2010. On March 16, 2010, the Department extended the deadline for the preliminary results an additional 21 days until April 13, 2010.<sup>9</sup>

## Period of Review

The POR is April 1, 2008, through March 31, 2009.

## Scope of Order

The product covered by this antidumping duty order is magnesium metal, which includes primary and secondary alloy magnesium metal, regardless of chemistry, raw material source, form, shape, or size. Magnesium is a metal or alloy containing by weight primarily the element magnesium. Primary magnesium is produced by decomposing raw materials into magnesium metal. Secondary magnesium is produced by recycling magnesium-based scrap into magnesium metal. The magnesium covered by this order includes blends of primary and secondary magnesium.

The subject merchandise includes the following alloy magnesium metal products made from primary and/or secondary magnesium including, without limitation, magnesium cast into ingots, slabs, rounds, billets, and other shapes, and magnesium ground, chipped, crushed, or machined into raspings, granules, turnings, chips, powder, briquettes, and other shapes: products that contain 50 percent or greater, but less than 99.8 percent, magnesium, by weight, and that have been entered into the United States as conforming to an "ASTM Specification for Magnesium Alloy"<sup>10</sup> and thus are outside the scope of the existing antidumping orders on magnesium from the PRC (generally referred to as "alloy" magnesium).

The scope of this order excludes: (1) all forms of pure magnesium, including chemical combinations of magnesium and other material(s) in which the pure magnesium content is 50 percent or greater, but less than 99.8 percent, by weight, that do not conform to an "ASTM Specification for Magnesium Alloy"<sup>11</sup>; (2) magnesium that is in liquid or molten form; and (3) mixtures containing 90 percent or less magnesium in granular or powder form

*Preliminary Results of the Antidumping Duty Administrative Review*, 75 FR 13489 (March 22, 2010).

<sup>10</sup> The meaning of this term is the same as that used by the American Society for Testing and Materials in its Annual Book of ASTM Standards: Volume 01.02 Aluminum and Magnesium Alloys.

<sup>11</sup> This material is already covered by existing antidumping orders. *See Notice of Antidumping Duty Orders: Pure Magnesium from the People's Republic of China, the Russian Federation and Ukraine; Notice of Amended Final Determination of Sales at Less Than Fair Value: Antidumping Duty Investigation of Pure Magnesium from the Russian Federation*, 60 FR 25691 (May 12, 1995); and *Antidumping Duty Order: Pure Magnesium in Granular Form from the People's Republic of China*, 66 FR 57936 (Nov. 19, 2001).

by weight and one or more of certain non-magnesium granular materials to make magnesium-based reagent mixtures, including lime, calcium metal, calcium silicon, calcium carbide, calcium carbonate, carbon, slag coagulants, fluor spar, nepheline syenite, feldspar, alumina (Al<sub>2</sub>O<sub>3</sub>), calcium aluminate, soda ash, hydrocarbons, graphite, coke, silicon, rare earth metals/mischmetal, cryolite, silica/fly ash, magnesium oxide, periclase, ferroalloys, dolomite lime, and colemantite.<sup>12</sup>

The merchandise subject to this order is classifiable under items 8104.19.00, and 8104.30.00 of the Harmonized Tariff Schedule of the United States (“HTSUS”). Although the HTSUS items are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

#### Non-Market Economy Country Status

The Department has treated the PRC as a non-market economy (“NME”) country in all past antidumping duty investigations and administrative reviews and continues to do so in this case.<sup>13</sup> The Department has previously examined the PRC’s market economy status and determined that NME status should continue for the PRC.<sup>14</sup> In accordance with section 771(18)(C)(i) of the Act, any determination that a foreign country is a NME country shall remain in effect until revoked by the administering authority.<sup>15</sup> No interested party to this proceeding has contested such treatment. Accordingly, we

<sup>12</sup> This third exclusion for magnesium-based reagent mixtures is based on the exclusion for reagent mixtures in the 2000-2001 investigations of magnesium from China, Israel, and Russia. See *Final Determination of Sales at Less Than Fair Value: Pure Magnesium in Granular Form From the People’s Republic of China*, 66 FR 49345 (September 27, 2001); *Final Determination of Sales at Less Than Fair Value: Pure Magnesium From Israel*, 66 FR 49349 (September 27, 2001); *Final Determination of Sales at Not Less Than Fair Value: Pure Magnesium From the Russian Federation*, 66 FR 49347 (September 27, 2001). These mixtures are not magnesium alloys, because they are not chemically combined in liquid form and cast into the same ingot.

<sup>13</sup> See 771(18)(C) of the Act; see, e.g., *Pure Magnesium from the People’s Republic of China: Final Results of Antidumping Duty Administrative Review*, 73 FR 76336 (December 16, 2008); and *Frontseating Service Valves From the People’s Republic of China: Final Determination of Sales at Less Than Fair Value and Final Negative Determination of Critical Circumstances*, 74 FR 10886 (March 13, 2009).

<sup>14</sup> See Memorandum from the Office of Policy to David M. Spooner, Assistant Secretary for Import Administration, The People’s Republic of China (PRC) Status as a Non-Market Economy (NME), dated May 15, 2006. <sup>15</sup> See section 771(18)(C)(i) of the Act.

calculated normal value (“NV”) in accordance with section 773(c) of the Act, which applies to NME countries.

#### Surrogate Country

When the Department is investigating imports from an NME country, section 773(c)(1) of the Act directs it to base NV on the NME producer’s factors of production (“FOPs”). The Act further instructs that valuation of the FOPs shall be based on the best available information in a surrogate market economy country or countries considered to be appropriate by the Department.<sup>16</sup> When valuing the FOPs, the Department shall utilize, to the extent possible, the prices or costs of FOPs in one or more market economy countries that are: (1) at a level of economic development comparable to that of the NME country; and (2) significant producers of comparable merchandise.<sup>17</sup> Further, the Department normally values all FOPs in a single surrogate country.<sup>18</sup> The sources of surrogate value are discussed under the “Normal Value” section below and in the Factor Valuation Memorandum, which is on file in the Central Records Unit, Room 1117 of the main Department building.<sup>19</sup>

In examining which country to select as its primary surrogate country for this proceeding, the Department first determined that India, the Philippines, Indonesia, Colombia, Thailand, and Peru are countries comparable to the PRC in terms of economic development.<sup>20</sup> In Petitioner’s Surrogate Country Selection Letter, Petitioner contends that the Department should continue to select India as the surrogate country for this administrative review, as it has in previous segments of this proceeding. In addition, Petitioner maintains that to the best of its knowledge, there are no magnesium producers currently operating in any of the six countries identified in the Surrogate Country Memorandum. Petitioner states that Southern Magnesium & Chemicals Ltd. (“Southern Magnesium”), which is located in India, has either downsized or ceased its magnesium production operations.<sup>21</sup> Petitioner argues, however, that India is

a significant producer of aluminum and the Department has “routinely determined that aluminum is a product comparable to magnesium production.”<sup>22</sup> Petitioner states that India has five major producers of aluminum.<sup>23</sup> Additionally, Petitioner contends that the Department determined that zinc is the only other merchandise that the Department has found to be comparable to magnesium,<sup>24</sup> and India is a significant producer of zinc.<sup>25</sup> Finally, Petitioner contends that India is the best available surrogate country for this proceeding because India is known to have complete, up-to-date, and reliable publicly available information for all raw material factors of production. Petitioner states that India is the only potential surrogate country that can be a source for surrogate financial ratios because India is a significant producer of aluminum and zinc.

In TMI’s Surrogate Country Selection Letter, TMI contends that India is the most appropriate surrogate country for the PRC in this review.<sup>26</sup> TMI reiterates the reasons that the Department articulated in its determination to use India as the appropriate surrogate country in the 2006–2007 administrative review of magnesium metal from the PRC: (1) India is a significant producer of comparable merchandise; (2) India is at a level of economic development comparable to the PRC; and (3) the Department has reliable data to use from India.<sup>27</sup> Both Petitioner and TMI submitted Indian sourced data to value FOPs.

After evaluating interested parties' comments, the Department has determined that India is the appropriate surrogate country to use in this review in accordance with section 773(c)(4) of the Act. The Department based its decision on the following facts: (1) India is at a level of economic development comparable to that of the PRC; (2) India is a significant producer of comparable merchandise, i.e., aluminum and zinc; and (3) India provides the best opportunity to use quality, publicly available data to value the FOPs. All the data submitted by both Petitioner and TMI for our consideration as potential surrogate values and surrogate financial ratios are sourced from India. Finally, on the record of this review, we have usable surrogate value data (including financial data) from India, but no such surrogate data from any other potential surrogate country.

Therefore, because India best represents the experience of producers of comparable merchandise operating in a surrogate country, we have selected India as the surrogate country and, accordingly, have calculated NV using Indian prices to value TMI's FOPs, when available and appropriate. We have obtained and relied upon publicly available information wherever possible.

In accordance with 19 CFR 351.301(c)(3)(ii), interested parties may submit publicly available information to value the FOPs within 20 days after the date of publication of the preliminary determination.<sup>28</sup>

### Separate Rates

In proceedings involving NME countries, the Department has a rebuttable presumption that all companies within the country are subject to government control and thus should be assessed a single antidumping duty rate. It is the Department's policy to assign all exporters of subject merchandise in an NME country this single rate unless an exporter can

<sup>28</sup> In accordance with 19 CFR 351.301(c)(1), for the final determination of this review, interested parties may submit factual information to rebut, clarify, or correct factual information submitted by an interested party less than ten days before, on, or after the applicable deadline for submission of such factual information. However, the Department notes that 19 CFR 351.301(c)(1) permits new information only insofar as it rebuts, clarifies, or corrects information recently placed on the record. The Department generally cannot accept the submission of additional, previously absent-from-the-record alternative SV information pursuant to 19 CFR 351.301(c)(1). See *Glycine from the People's Republic of China: Final Results of Antidumping Duty Administrative Review and Final Rescission, in Part*, 72 FR 58809 (October 17, 2007), and accompanying Issues and Decision Memorandum at Comment 2.

demonstrate that it is sufficiently independent so as to be entitled to a separate rate. Exporters can demonstrate this independence through the absence of both de jure and de facto governmental control over export activities. The Department analyzes each entity exporting the subject merchandise under a test arising from the *Notice of Final Determination of Sales at Less Than Fair Value: Sparklers From the People's Republic of China*, 56 FR 20588 (May 6, 1991) ("*Sparklers*"), as further developed in *Notice of Final Determination of Sales at Less Than Fair Value: Silicon Carbide From the People's Republic of China*, 59 FR 22585 (May 2, 1994) ("*Silicon Carbide*"). However, if the Department determines that a company is wholly foreign-owned or located in a market economy, then a separate rate analysis is not necessary to determine whether it is independent from government control.

### Separate Rate Recipients

TMI is the only respondent in this administrative review. TMI reported that it is a wholly Chinese-owned company. Therefore, the Department must analyze whether it can demonstrate the absence of both de jure and de facto government control over export activities.

#### a. Absence of De Jure Control

The Department considers the following de jure criteria in determining whether an individual company may be granted a separate rate: (1) an absence of restrictive stipulations associated with an individual exporter's business and export licenses; (2) any legislative enactments decentralizing control of companies; and (3) other formal measures by the government decentralizing control of companies.<sup>29</sup>

The evidence provided by TMI supports a preliminary finding of de jure absence of government control based on the following: (1) an absence of restrictive stipulations associated with its business and export licenses; (2) applicable legislative enactments decentralizing control of companies; and (3) formal measures by the government decentralizing control of companies.<sup>30</sup>

#### b. Absence of De Facto Control

Typically, the Department considers four factors in evaluating whether each respondent is subject to de facto

<sup>29</sup> See *Sparklers*, 56 FR at 20589.

<sup>30</sup> See Foreign Trade Law of the People's Republic of China, contained in TMI's AQR, at Exhibit A-2; see also Regulations of the People's Republic of China on Company Registration contained in TMI's AQR at Exhibit A-5.

government control of its export functions: (1) whether the export prices are set by or are subject to the approval of a government agency; (2) whether the respondent has authority to negotiate and sign contracts and other agreements; (3) whether the respondent has autonomy from the government in making decisions regarding the selection of management; and (4) whether the respondent retains the proceeds of its export sales and makes independent decisions regarding disposition of profits or financing of losses.<sup>31</sup> The Department has determined that an analysis of de facto control is critical in determining whether respondents are, in fact, subject to a degree of governmental control which would preclude the Department from assigning separate rates.

The evidence provided by TMI supports a preliminary finding of de facto absence of government control based on the following: (1) the absence of evidence that the export prices are set by or are subject to the approval of a government agency;<sup>32</sup> (2) the respondent has authority to negotiate and sign contracts and other agreements;<sup>33</sup> (3) the respondent has autonomy from the government in making decisions regarding the selection of management;<sup>34</sup> and (4) the respondent retains the proceeds of its export sales and makes independent decisions regarding disposition of profits or financing of losses.<sup>35</sup>

Therefore, the evidence placed on the record of this review by TMI demonstrates an absence of de jure and de facto government control with respect to TMI's exports of the merchandise under review, in accordance with the criteria identified in *Sparklers* and *Silicon Carbide*. Accordingly, we have determined that TMI has demonstrated its eligibility for a separate rate.

### Fair Value Comparisons

To determine whether sales of magnesium metal to the United States by TMI were made at NV, we compared Export Price ("EP") to NV, as described

<sup>31</sup> See *Silicon Carbide*, 59 FR at 22587; see also *Notice of Final Determination of Sales at Less Than Fair Value: Furfuryl Alcohol From the People's Republic of China*, 60 FR 22544, 22545 (May 8, 1995).

<sup>34</sup> See TMI's AQR at 8-9.

<sup>35</sup> See TMI's AQR at 8-9.

in the “Export Price” and “Normal Value” sections of this notice.

#### Export Price

In accordance with section 772(a) of the Act, EP is the price at which the subject merchandise is first sold (or agreed to be sold) before the date of importation by the producer or exporter of the subject merchandise outside of the United States to an unaffiliated purchaser in the United States or to an unaffiliated purchaser for exportation to the United States, as adjusted under section 772(c) of the Act. In accordance with section 772(a) of the Act, we have used EP for TMI’s U.S. sales because the subject merchandise was sold directly to the unaffiliated customers in the United States prior to importation and because Constructed Export Price was not otherwise warranted.

We have based the EP on delivered prices to unaffiliated purchasers in the United States. In accordance with section 772(c)(2)(A) of the Act, we have made deductions from the starting price for movement expenses, including expenses for foreign inland freight from the plant to the port of exportation, domestic brokerage and handling, international freight, marine insurance, brokerage and handling expenses incurred in the U.S. and U.S. customs duty. No other adjustments to EP were reported or claimed by TMI.<sup>36</sup>

#### Normal Value

Section 773(c)(1) of the Act provides that, the Department shall determine NV using an FOP methodology if the the merchandise is exported from an NME country and the Department finds that the available information does not permit the calculation of NV using home-market prices, third-country prices, or constructed value under section 773(a) of the Act. When determining NV in an NME context, the Department will base NV on FOPs because the presence of government controls on various aspects of these economies renders price comparisons and the calculation of production costs invalid under our normal methodologies. The Department’s questionnaire requires that TMI provide information regarding the weighted-average FOPs across all of the company’s plants that produce the subject merchandise, not just the FOPs from a single plant. This methodology ensures that the Department’s

<sup>36</sup> See Memorandum “Analysis for the Preliminary Results of Pure Magnesium from the People’s Republic of China: Tianjin Magnesium International, Co. Ltd.” (“TMI’s Analysis Memorandum”), dated April 13, 2010.

calculations are as accurate as possible.<sup>37</sup>

In accordance with 19 CFR 351.408(c)(1), the Department will normally use publicly available information to find an appropriate surrogate value to value FOPs, but when a producer sources an input from a market economy and pays for it in market-economy currency, the Department may value the factor using the actual price paid for the input.<sup>38</sup> TMI reported that it did not purchase any inputs from market economy suppliers for the production of the subject merchandise.<sup>39</sup>

We calculated NV based on FOPs in accordance with section 773(c)(3) and (4) of the Act and 19 CFR 351.408(c). The FOPs include but are not limited to: (1) hours of labor required; (2) quantities of raw materials employed; (3) amounts of energy and other utilities consumed; and (4) representative capital costs. The Department used FOPs reported by TMI for materials, energy, labor, by-products, and packing.

TMI stated that it had no by-products or co-products other than magnesium waste and magnesium alloy waste, which are generated during the production of subject merchandise and reintroduced into the production process.<sup>40</sup> However, for these preliminary results, TMI did not request, and we did not grant a by-product offset in our calculation of NV.

#### Factor Valuations

In accordance with section 773(c) of the Act, the Department calculated NV based on FOPs reported by TMI for the POR. To calculate NV, the Department multiplied the reported per-unit factor consumption quantities by publicly available Indian surrogate values. In selecting the surrogate values, the Department considered the quality, specificity, and contemporaneity of the data. The Department adjusted input prices by including freight costs to make them delivered prices, as appropriate. Specifically, the Department added to Indian import surrogate values a surrogate freight cost using the shorter of the reported distance from the domestic supplier to the factory or the

distance from the nearest seaport to the factory of production. This adjustment is in accordance with the decision of the U.S. Court of Appeals for the Federal Circuit in *Sigma Corp. v. United States*, 117 F.3d 1401, 1407–08 (Fed. Cir. 1997). A detailed description of all surrogate values used to value TMI’s reported FOPs can be found in the Factor Valuation Memorandum.

The Department calculated surrogate values for the majority of reported FOPs purchased from NME sources using the contemporaneous, weighted-average unit import value derived from the *Monthly Statistics of the Foreign Trade of India*, as published by the Directorate General of Commercial Intelligence and Statistics of the Ministry of Commerce and Industry, Government of India in the World Trade Atlas, available at <http://www.gtis.com/wta.htm> (“WTA Indian Import Statistics”).<sup>41</sup> WTA Indian Import Statistics were reported in U.S. dollars<sup>42</sup> and are contemporaneous with the POR to calculate surrogate values for TMI’s material inputs. In selecting the best available information for valuing FOPs in accordance with section 773(c)(1) of the Act, the Department’s practice is to select, to the extent practicable, surrogate values which are non-export average values, most contemporaneous with the period of review, product-specific, and tax-exclusive.<sup>43</sup>

In those instances where the Department could not obtain publicly available information contemporaneous with the POR with which to value FOPs, the Department adjusted the surrogate values using the Indian Wholesale Price Index (“WPI”), as published in the *International Financial Statistics* of the International Monetary Fund.<sup>44</sup>

Furthermore, with regard to Indian import-based surrogate values, we have disregarded prices that we have reason to believe or suspect may be subsidized, such as those from Indonesia, South

<sup>41</sup> See Factor Valuation Memorandum at Attachment 1.

<sup>42</sup> The import data obtained from the WTA as published by Global Trade Information Services (“GTIS”), began identifying the original reporting currency for India as the U.S. dollar. Korea, and Thailand. We have found in other proceedings that these countries maintain broadly available, non-industry-specific export subsidies and, therefore, it is reasonable to infer that all exports to all markets from these countries may be subsidized.<sup>45</sup> We are also guided by the statute's legislative history that explains that it is not necessary to conduct a formal investigation to ensure that such prices are not subsidized.<sup>46</sup> Rather, the Department was instructed by Congress to base its decision on information that is available to it at the time it is making its determination. Therefore, we have not used prices from these countries in calculating the Indian import-based surrogate values.

The Department used WTA Indian Import Statistics to calculate surrogate values for raw materials, including magnesium metal scrap, magnesium alloy scrap, unalloyed aluminum, alloyed aluminum, flux, sulphur, and zinc, as well as for packing materials, including steel bands and plastic bags.

We valued flux No.2, which consists of magnesium chloride, potassium chloride and sodium chloride, using data from *Chemical Weekly*. We consider both *Chemical Weekly* and WTA Indian Import Statistics to be reliable sources, and as such, the Department has used them in past cases to value chemical component inputs. In the instant case, however, we have determined that *Chemical Weekly* is the best information available for valuing flux because the quantity of the total imports of magnesium chloride in the WTA Indian Import Statistics is very small and thus does not appear to represent commercial quantities.

We valued brokerage and handling using a simple average of the brokerage and handling costs that were reported in public submissions that were filed in three antidumping duty cases. Specifically, we averaged the public brokerage and handling expenses reported by Navneet Publications (India) Ltd. in the 2007–2008 administrative review of certain lined paper products from India, Essar Steel Limited in the

2006–2007 antidumping duty administrative review of hot-rolled carbon steel flat products from India, and Himalya International Ltd. in the 2005–2006 administrative review of certain preserved mushrooms from India. We inflated the brokerage and handling rates using the appropriate WPI inflator.

For direct labor, indirect labor, and packing labor, consistent with 19 CFR 351.408(c)(3), the Department used the PRC regression-based wage rate as reported on Import Administration's website.<sup>47</sup> Because this regression-based wage rate does not separate the labor rates into different skill levels or types of labor, the Department has applied the same wage rate to all skill levels and types of labor reported by TMI.

We valued electricity using the updated electricity price data for small, medium, and large industries, as published by the Central Electricity Authority, an *administrative body of the Government of India*, in its publication titled *Electricity Tariff & Duty and Average Rates of Electricity Supply in India*, dated March 2008. These electricity rates represent actual country-wide, publicly-available information on tax-exclusive electricity rates charged to small, medium, and large industries in India. We did not inflate this value because utility rates represent current rates, as indicated by the effective dates listed for each of the rates provided.

We valued truck freight expenses using an Indian per-unit average rate calculated from data on the following Web site: <http://www.infobanc.com/logistics/logtruck.htm>. The logistics section of this Web site contains inland freight truck rates between many large Indian cities. We did not inflate this rate since it is iscontemporaneous with the POR.

We valued marine insurance using the price quote retrieved from RJG Consultants, online at <http://www.rjgconsultants.com/163.html>, a market-economy provider of marine insurance. We did not inflate this rate since it is iscontemporaneous with the POR.

To value steam coal, we used steam coal prices from the December 12, 2007, *CIL's Coal Pricing Circular*. See CIL: S&M: GM(F): Pricing 1124, dated 12

December 2007).<sup>48</sup> Since TMI reports using non-coking coal with a useful heat value (“UHV”) of 5500 kcal/kg,<sup>49</sup> we calculated the surrogate value for steam coal by averaging the prices of grades B and C steam coal from the December 12, 2007, *CIL's Coal Pricing Circular*.<sup>50</sup> We did not inflate this value to the current POR because the steam coal rates represent the rates that were in effect until October 16, 2009,<sup>51</sup> and are therefore contemporaneous with the POR. Finally, we have applied an additional fixed surcharge of 165 rupees (“Rs.”)/metric ton (“MT”) to our calculation of the average of B and C grades of steam coal.

19 CFR 351.408(c)(4) directs the Department to value overhead, general and administrative expenses (“SG&A”), and profit using non-proprietary information gathered from producers of identical or comparable merchandise in the surrogate country. In this administrative review, Petitioner placed the 2008–2009 financial statements on the record for one Indian producer of aluminum products - National Aluminium Company Limited (“NALCO”), and one producer of zinc products - Hindustan Zinc Limited (“Hindustan Zinc”). TMI placed the 2008–2009 financial statements on the record for five Indian producers of aluminum products: Madras Aluminum Company Ltd. (“MALCO”), HINDALCO Industries Limited (“HINDALCO”), Century Extrusions Ltd. (“Century”), Sudal Industries Ltd. (“Sudal”), and Bhoruka Aluminum (“Bhoruka”).

For the following reasons, we have elected not to rely on the 2008–2009 audited financial statements of MALCO, HINDALCO, Century and Bhoruka as surrogate financial statements under section 351.408(c)(4). First, we elected not to rely on MALCO's audited financial statements because MALCO suspended production of aluminum and alumina in November 2008, seven months into its fiscal year (and the POR).<sup>52</sup> In addition, since it suspended aluminum and alumina production, it switched the use of its power generation from captive consumption to external sales.<sup>53</sup> As a result, the financial statements do not reflect the cost

experience of producing a comparable product to the subject merchandise for five months of the POR.

Second, we have elected not to rely on the financial statements of HINDALCO, NALCO, Century and Bhoruka because the record indicates that during this period these companies received subsidies the Department has previously determined to be countervailable. Consistent with Department practice, we do not use financial statements of a company that we have reason to believe or suspect may have received subsidies, where there are other sufficient reliable and representative data on the record for purposes of calculating the surrogate financial ratios, because the financial statements of companies receiving actionable subsidies are less representative of the financial experience of the relevant industry than the ratios derived from financial statements that do not contain evidence of subsidization.<sup>54</sup> In this case, HINDALCO's 2008–2009 financial statements indicate that HINDALCO received benefits under the Duty Free Import Entitlement Scheme (“EPCG Scheme”).<sup>55</sup> Similarly, NALCO's financial statements indicate that NALCO received benefits under the Duty Entitlement Pass Book (“DEPB Premium”)<sup>56</sup> and obtained EPCG licenses.<sup>57</sup> Century's audited financial statements demonstrated that it also received benefits under the EPCG scheme.<sup>58</sup> India's EPCG Scheme and DEPB Premiums each have been found by the Department to provide a countervailable subsidy.<sup>59</sup> Third, we

rejected Bhoruka's audited financial statements because they did not show a profit for the 2008–2009 fiscal year.<sup>60</sup> The Department has an established practice of not relying on financial statements that are incomplete, or that indicate that the company is unprofitable, or designated as “sick” by the Indian government.<sup>61</sup> Fourth, we have determined not to use the 2008–2009 financial statements of Hindustan Zinc because Hindustan Zinc has four captive mines, which indicates that it is at a much higher level of integration than TMI's supplier and so would not accurately reflect TMI's supplier's experience.<sup>62</sup> The Department also has an established practice of rejecting financial statements of surrogate producers whose production process or integration level is not comparable to the respondent's when better information is available.<sup>63</sup>

As a result, we have preliminarily determined to use the 2008–2009 audited financial statements of Sudal as the basis of the financial ratios in this review. Sudal is a secondary aluminum extrusion manufacturer that used, purchased, or imported aluminum metals as raw materials to manufacture aluminum extrusions and fabricated products.<sup>64</sup> Although the aluminum extrusions and fabricated products produced by Sudal require more processing than the magnesium metal ingots and chippings produced by TMI's producer, Sudal begins its respective manufacturing process at a similar level

of production as TMI's producer. Moreover, Sudal earned a profit,<sup>65</sup> and there is no record evidence to indicate that it received benefits that the Department has determined to be countervailable.<sup>66</sup> Further, its audited financial statements are complete and are sufficiently detailed to disaggregate materials, labor, overhead, and SG&A expenses.<sup>67</sup> While the Department has not previously determined whether the production process for magnesium metal is similar to that of extruded aluminum products for purposes of calculating surrogate financial ratios, we find that the evidence currently on the record does not establish that it must be considered as too dissimilar. Thus, we preliminarily find that the audited financial statements of Sudal constitutes the best information available on the record on which to base surrogate financial ratios in this review. Accordingly, we invite parties to provide additional information and explanation on the record concerning the comparability of the manufacturing process for magnesium metal and extruded aluminum products.

For a complete listing of all the inputs and a detailed discussion about our surrogate value selections, see the Factor Valuation Memorandum.

The Department made currency conversions into U.S. dollars, in accordance with section 773A(a) of the Act, based on the exchange rates in effect as certified by the Federal Reserve Bank on the dates of the U.S. sales.

#### Verification

As provided in section 782(i)(3) of the Act, we intend to verify the information from TMI upon which we will rely in making our final determination.

## Disclosure

The Department will disclose calculations performed for these preliminary results to the parties within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). Any interested party may request a hearing within 30 days of publication of these preliminary results.<sup>68</sup> If a hearing is requested, the Department will announce the hearing schedule at a later date. Interested parties may submit case briefs and/or written comments no later than seven days after the release of the verification report issued in this review.<sup>69</sup> Rebuttal briefs and rebuttals to written comments, limited to issues raised in such briefs or comments, may be filed no later than five days after the time limit for filing the case briefs.<sup>70</sup> Further, we request that parties submitting written comments provide the Department with an additional copy of those comments on diskette or CD ROM. The Department intends to issue the final results of this administrative review, which will include the results of its analysis of issues raised in any comments, and at a hearing, within 120 days of publication of these preliminary results, pursuant to section 751(a)(3)(A) of the Act.

## Assessment Rates

The Department will determine, and CBP shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.<sup>71</sup> For assessment purposes, we calculated importer- or customer specific assessment rates for merchandise subject to this review. We calculated an *ad valorem* rate for each importer or customer by dividing the total dumping margins for reviewed sales to that party by the total entered values associated with those transactions. For duty-assessment rates calculated on this basis, we will direct CBP to assess the resulting *ad valorem* rate against the entered customs values for the subject merchandise. Where appropriate, we calculated a per-unit rate for each importer or customer by dividing the total dumping margins for reviewed sales to that party by the total sales quantity associated with those transactions. For duty-assessment rates calculated on this basis, we will direct CBP to assess the resulting per-unit rate against the entered quantity of the subject merchandise. Where an

importer- (or customer-) specific assessment rate is *de minimis* (i.e., less than 0.50 percent) in accordance with the requirement of 19 CFR 351.106(c)(2), the Department will instruct CBP to assess that importer's (or customer's) entries of subject merchandise without regard to antidumping duties. We intend to instruct CBP to liquidate entries containing subject merchandise exported by the PRC-wide entity at the PRC-wide rate we determine in the final results of this review. The Department intends to issue appropriate assessment instructions directly to CBP 15 days after publication of the final results of this review.

## Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by sections 751(a)(2)(C) of the Act: (1) For TMI, which has a separate rate, the cash deposit rate will be that established in the final results of this review (except, if the rate is zero or *de minimis*, zero cash deposit will be required); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that received a separate rate in a prior segment of this proceeding the cash deposit rate will continue to be the exporter-specific rate; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 141.49 percent; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

## Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with sections

751(a)(1) and 777(i) of the Act and 19 CFR 351.213.

Dated: April 13, 2010.

#### Summary of Information Collection

DFARS Part 211 and the clauses at DFARS 252.211-7004 and 252.211-7005 are required for DoD contractors and subcontractors to propose—

(a) Alternatives to military preservation, packaging, or packing specifications; and/or

(b) Single Process Initiative (SPI) processes in lieu of military or Federal specifications.

The provision at DFARS 252.211-7004, Alternate Preservation, Packaging, and Packing, is used in solicitations that include military preservation, packaging, or packing specifications when it may be feasible for DoD to evaluate and award using commercial or industrial preservation, packaging, or packing. If the offeror chooses to propose alternate preservation, packaging, or packing, the provision requires the offeror to submit information sufficient to allow evaluation of the proposed commercial or industrial preservation, packaging, or packing.

The clause at DFARS 252.211-7005, Substitutions for Military or Federal Specifications and Standards, is used in solicitations and contracts for previously developed items. The clause encourages offerors to propose management or manufacturing processes, if previously accepted by DoD under the Single Process Initiative (SPI) program, as alternatives to military or Federal specifications and standards cited in the solicitation.

**DEPARTMENT OF DEFENSE**

**Department of the Army; Corps of Engineers**

**Notice of Intent To Prepare a Draft Environmental Impact Statement on Beach and Dune Restoration in St. Lucie County, FL**

**AGENCY:** U.S. Army Corps of Engineers, Jacksonville District, DoD.

**ACTION:** Notice of Intent (NOI).

**SUMMARY:** The U.S. Army Corps of Engineers (Corps), Jacksonville District, has received a permit application for a Department of the Army permit under Section 10 of the Rivers and Harbors Act and Section 404 of the Clean Water Act from the St. Lucie County Erosion Control District (County) to construct a beach nourishment and dune restoration project along St. Lucie County. As part of the permit process, the Corps is evaluating the environmental effects associated with beach nourishment and dune restoration.

The primary Federal involvement associated with the Proposed Action is the dredging and discharge of fill within navigable waters of the United States. Because of the extensive hardbottom resources immediately adjacent to the beach, the high recreational uses of the project area, and the potential environmental impacts of the proposed project, the Corps will prepare an Environmental Impact Statement (EIS) in compliance with the National Environmental Policy Act (NEPA) to render a final decision on the County's permit application. The Corps' decision will be to either issue or deny a Department of the Army permit for the Proposed Action. The Draft EIS (DEIS) is intended to be sufficient in scope to address Federal, State, and local requirements and environmental issues

concerning the Proposed Action and permit reviews.

The ongoing St. Lucie County, FL, Shore Protection Feasibility Study was authorized by Section 418 of the Water Resources and Development Act of 2000 (Pub. L. 106-541). It is anticipated that this study will culminate in a congressionally authorized Federal project and the Corps will cost share future renourishment events subsequent to the construction of the initial project by the permittee. In addition, as a Federal agency with jurisdiction to manage resources available on the Outer Continental Shelf (OCS), the U.S. Minerals Management Service would be invited to become a cooperating agency on the study should potential borrow areas be identified within Federal waters (outside the 3-mile State statutory limit).

**DATES:** A public scoping workshop will be held on, or about, May 19, 2010 at 6 p.m. EST.

**ADDRESSES:** The meeting will be held at the following location. St. Lucie County Commission Chambers, Roger Poitras Administration Annex, 2300 Virginia Ave., Fort Pierce, FL 34982. The workshop will give agencies and the public an opportunity to receive more information on the Proposed Action, alternatives, and to provide comments and suggestions on the scope of the EIS.

**FOR FURTHER INFORMATION CONTACT:**

Questions about the Proposed Action and Draft EIS should be directed to Mr. Garrett Lips, Corps Regulatory Project Manager, by telephone at (561) 472-3519 or by e-mail at [Garrett.G.Lips@usace.army.mil](mailto:Garrett.G.Lips@usace.army.mil). Written comments should be addressed to the U.S. Army Corps of Engineers, Attn: Mr. Garrett Lips, 4400 PGA Boulevard, Suite 500, Palm Beach Gardens, Florida 34410 or by facsimile at (561) 626-6971.

**SUPPLEMENTARY INFORMATION:** a. *Project Background and Authorization.* The Corps will study the southern 3.8 miles of County shoreline which approximately coincides with Florida Department of Environmental Protection Shoreline Monuments R-88.5 to R-90.3, and R-98 to the St. Lucie/Martin County line. The study area is comprised of the shoreline and nearshore environment. The shoreline in this area has experienced long-term erosion due to waves and intense tropical storms.

b. *Background:* No previous beach nourishment activities have occurred along this segment of beach. However, upland dune restoration was performed after Hurricane Jeanne in 2004, which was not regulated by the Corps. Native dune vegetation is limited to those few locations where the dry beach extends

far enough to allow dune vegetation to grow. Based on aerial photography, hardbottom colonized by *Phragmatopoma lapidosa* is commonly found within 600 feet of the inter-tidal beach, depending on the time of evaluation and the specific location within the project area.

c. *Purpose and Need:* The project purpose is to stabilize and restore the beach and dune between FDEP Monuments R-88.5 to R-90.3, and R-98 to the St. Lucie/Martin County line.

d. *Proposed Action.* St. Lucie County intends to restore the beach and dune by placing approximately 610,000 cubic yards of beach compatible sand along the proposed project's beach. The sand will be hopper-dredged from a relict shoal approximately three to six miles offshore of FDEP monuments R-88 to R-115.

e. *Alternatives.* An evaluation of alternatives to the Proposed Action initially being considered includes a "No Action" alternative, beach nourishment and dune restoration through filling activities, as well as analyzing other reasonable alternatives developed through the project scoping process to stabilizing the beach to meet the identified purpose and need.

f. *Draft EIS Scoping Process:* The Corps is furnishing this notice to advise other Federal and State agencies, affected federally recognized Tribes, and the public of our intentions. This notice announces the initiation of a 30-day scoping period which requests the public's involvement in the scoping and evaluation process of the DEIS. Stakeholders will be notified through advertisements, public notices and other means. All parties who express interest will be given an opportunity to participate in this process. The process allows the Corps to obtain suggestions and information on the scope of issues and an opportunity to provide reasonable alternatives to be included in the Draft EIS. The Corps invites comments from all interested parties to ensure that all significant issues are identified and the full range of issues related to the permit request are addressed. We will accept written comments until 30 days after the date of publication of this notice. (See **DATES** and **ADDRESSES**)

g. *Significant issues:* The DEIS will analyze the following: aesthetics/visual quality, agricultural resources, air quality, biological resources, cultural resources, cumulative impacts, environmental justice, flood protection, geology/soils, growth inducement, land use/planning, noise/vibration, public health and safety, public services/utilities, recreation, socioeconomics,

threatened and endangered species, traffic/circulation, water resources including wetlands, and other issues identified through scoping, public involvement, and interagency coordination. The Corps will conduct an environmental review of the Proposed Action in accordance with the requirements of NEPA, 1969, as amended, (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 Code of Federal Regulations, Section 1500 *et seq.*), Corps Procedures for Implementing NEPA (33 Code of Federal Regulations, Section 230 *et seq.*), NEPA Implementation Procedures for the Regulatory Program (33 Code of Federal Regulations, Section 325, Appendix B), and with other appropriate Federal laws and regulations, policies, and procedures of the Corps for compliance with those regulations. The Proposed Action, through the Corps permit review process, will require consultation under Section 7 of the Endangered Species Act and the Magnuson-Stevens Fishery Conservation and Management Act. Additionally, the proposed action would involve evaluation for compliance with the Section 404(b)(1) Guidelines of the Clean Water Act; Section 106 of the National Historic Preservation Act; Water Quality Certification pursuant to Section 401 of the Clean Water Act; certification of State lands, easements and right of ways; and determination of Coastal Zone Management Act consistency.

h. *Availability of the Draft EIS.* The Corps currently expects the DEIS to be made available to the public in late October 2010. A public meeting will be held during the public comment period for the DEIS. Written comments will be accepted at the meeting.

#### SUPPLEMENTARY INFORMATION:

##### Authority and Background

Any strategy to realize the goal of the President and the Secretary of Energy (Secretary)—to achieve 83-percent reductions in energy use by the year 2050—must address the energy performance of the buildings sector. Increases in stringency to building energy codes, along with increased adoption by states and localities and paired with rigorous compliance verification, can provide significant reductions in building energy use. This is consistent with section 304(d) and (e) of the Energy Conservation and Production Act which requires DOE to provide technical and financial assistance to states. (42 U.S.C. 6833(d) and (e))

A number of states are in the process of, or planning to, update, implement, and enforce their building energy codes. Further, many states will implement plans to assess and improve compliance with their updated codes, in response to assurances received by their governors in response to the American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5), of which the Secretary was notified. This presents a unique opportunity to increase current efforts to ensure that states, municipalities, and local governments, are able to adopt the latest energy codes and increase compliance rates.

In view of the above, DOE believes it is important to provide interested parties with an opportunity to submit information they feel will assist DOE in compiling information.

#### Public Participation

##### A. Submission of Information

DOE will accept information in response to this notice under the timeline provided in the **DATES** section above. Information submitted to the Department by e-mail should be provided in WordPerfect, Microsoft Word, PDF, or text file format. Those responding should avoid the use of special characters or any form of encryption, and wherever possible, comments should include the electronic signature of the author. Comments submitted to the Department by mail or hand delivery/courier should include one signed original paper copy. No telefacsimiles will be accepted. Comments submitted in response to this notice will become a matter of public record and will be made publicly available.

##### B. Issues on Which DOE Seeks Information

*DOE is particularly interested in receiving information on the following issues/topics:*

(1) Problems, issues, and barriers to the adoption, implementation, enforcement, and improved compliance with improved building energy codes.

(2) Training needed for designers, builders, code officials, owners, and others to support upgraded codes to meet Standard 90.1-2007 (or code that achieves equivalent or greater energy savings) for commercial buildings and the 2009 IECC (or code that achieves equivalent or greater energy savings) for residential buildings. Training and assistance needed to develop and implement a plan to achieve compliance with upgraded codes by 2017.

(3) Processes, information, materials and tools necessary to upgrade building

codes to meet Standard 90.1–2007, Energy Standard for Buildings Except Low-Rise Residential Buildings (or equivalent) for commercial buildings and the 2009 International Energy Conservation Code (or equivalent) for residential buildings. Information, materials, and tools necessary to develop and implement a plan to achieve 90-percent compliance with upgraded codes by 2017.

(4) Assistance and resources available from stakeholders, states, local jurisdictions, and others.

Issued in Washington, DC, on April 9, 2010.

**Title:** NSPS for Flexible Vinyl and Urethane Coating and Printing (Renewal).

**ICR Numbers:** EPA ICR Number 1157.09, OMB Control Number 2060–0073.

**ICR Status:** This ICR is scheduled to expire on May 31, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** This Information Collection Request (ICR) renewal is being

submitted for the NSPS for Flexible Vinyl and Urethane Coating and Printing (40 CFR Part 60, Subpart FFF) (Renewal), which were proposed on January 18, 1983 and promulgated on June 29, 1984. These standards apply to the following facilities in subpart FFF: Each rotogravure printing line used to print or coat flexible vinyl or urethane products, and for which construction, modification or reconstruction commenced after the proposed date of the rule. The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60 subpart A and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart FFF.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 15 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Initially, occasionally, and semi-annually.

**Estimated Number of Respondents:** 20.

**Frequency of Response:** Initially, occasionally, and semi-annually.

**Estimated Total Annual Hour Burden:** 594.

**Estimated Total Annual Cost:** \$242,431 which includes \$55,831 in labor costs, \$6,600 in capital/startup costs, and \$180,000 in operation and maintenance (O&M) costs.

**Changes in the Estimates:** The regulations have not changed over the past three years and are not anticipated to change over the next three years. However, a slight increase in labor hours for respondents and small decrease in labor hours for the Agency occurred due to an incorrect calculation of the number of hours in the previous ICR. There was also an increase in O&M costs due to an error in the number of affected facilities in the previous ICR.

Dated: April 15, 2010.

**Title:** NESHAP for Magnetic Tape Manufacturing Operations (Renewal).

**ICR Numbers:** EPA ICR Number 1678.07, OMB Control Number 2060-0326.

**ICR Status:** This ICR is scheduled to expire on June 30, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control

numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart EE. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 200 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Magnetic tape manufacturing operations.

**Estimated Number of Respondents:** 6.  
**Frequency of Response:** Initially, occasionally, quarterly, semiannually and annually.

**Estimated Total Annual Hour Burden:** 3,396.

**Estimated Total Annual Cost:** \$366,607, which includes \$319,607 in labor costs, \$11,000 in capital/startup costs, and \$36,000 in operation and maintenance (O&M) costs.

**Changes in the Estimates:** There is no change in the estimation methodology of labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent. Therefore, the

labor hours in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR. Because this ICR carries two decimal places in calculations within Table 1, there is an apparent increase of one labor hour in this ICR compared to the previous ICR which presented calculation results rounded to a whole number.

The increase in cost to respondents and the Agency is due to labor rate adjustments to reflect rates for fiscal year 2009. This increase is not due to any program changes. Labor rates reflected in the previous ICR were based on fiscal year 2003.

Dated: April 15, 2010.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 45 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Changes in the Estimates:** There are no changes in the respondent labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the respondents is very low, negative or non-existent. Therefore, the labor hours in the previous ICR reflect the current burden to the respondents and are reiterated (with a correction for rounding) in this ICR. It should be noted that there is an apparent decrease of one hour in the total labor hours for this ICR. Total labor hours for this ICR are 47,189 rather than 47,190 as in the previous ICR. This is due to rounding of the various cost figures.

There is an increase in both respondent and Agency labor costs resulting from labor rate increases from 2003 to 2009.

### Dimethyldithiocarbamate Salts; Amendments to Terminate Uses

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces EPA's order for the cancellation and/or amendments to terminate uses, voluntarily requested by the registrant and accepted by the Agency, of products containing the pesticides sodium dimethyldithiocarbamate and/or potassium dimethyldithiocarbamate, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a September 16, 2009 **Federal Register** Notice of Receipt of Requests from dimethyldithiocarbamate salts registrants to voluntarily cancel and/or

amend to terminate uses of some of their dimethyldithiocarbamate salts product registrations. These are not the last dimethyldithiocarbamate salts products registered for use in the United States. In the September 16, 2009 notice, EPA indicated that it would issue an order implementing the cancellations and amendments to terminate uses, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrant withdrew its requests within this period. The Agency did not receive any comments on the notice. Further, the registrant did not withdraw its requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested product cancellation and amendments to terminate uses. Any distribution, sale, or use of the sodium dimethyldithiocarbamate and potassium dimethyldithiocarbamate products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

**DATES:** The cancellations are effective April 21, 2010.

**SUPPLEMENTARY INFORMATION:****I. Information about the Workshop**

This workshop is designed to inform the planning for EPA's recently initiated review of the primary (health-based)

and secondary (welfare-based) National Ambient Air Quality Standards (NAAQS) for lead (Pb).<sup>1</sup> Consistent with the NAAQS review process,<sup>2</sup> the workshop will provide an opportunity to highlight key policy issues around which EPA would structure the Pb NAAQS review. In workshop discussions, external and internal experts will be expected to highlight significant new and emerging Pb research and make recommendations to the Agency regarding the design and scope of this review. The goal of the workshop is to ensure that this review focuses on the key policy-relevant issues and considers the most meaningful new science to inform our understanding of these issues. Workshop discussions will provide important input as EPA considers the appropriate design and scope of major elements of the Pb review that will inform the Agency's policy assessment. These elements include an integrated review plan (IRP) highlighting the key policy-relevant issues; an integrated science assessment; and a risk and exposure assessment. The workshop discussions are planned to build upon the following two publications, copies of which are available at [http://www.epa.gov/ttn/naaqs/standards/pb/s\\_pb\\_index.html](http://www.epa.gov/ttn/naaqs/standards/pb/s_pb_index.html).

1. *National Ambient Air Quality Standards for Lead: Final Rule* (73 FR 66964, November 12, 2008). The preamble to the final rule includes detailed discussions of policy-relevant issues central to the last review.

2. *Air Quality Criteria for Lead* (EPA/600/R-05/144aF, October 2006).

As an early step in the new review, the workshop is intended to identify issues and questions to frame the review. Drawing from the workgroup discussions, EPA will next develop a draft IRP. The IRP, in addition to summarizing the schedule and process for the review, will present general approaches for evaluating the relevant scientific information, assessing lead-related risks to public health and the environment, and addressing the key policy-relevant issues. The Clean Air Scientific Advisory Committee (CASAC) will be asked to consult with the Agency on the draft IRP in the late summer of 2010, and the public will have the opportunity to comment on it as well. The final IRP will be used as the framework to guide the review.

<sup>1</sup> The **Federal Register** notice issuing EPA's call for information for the recently initiated review is available at: [http://www.epa.gov/ttn/naaqs/standards/pb/s\\_pb\\_index.html](http://www.epa.gov/ttn/naaqs/standards/pb/s_pb_index.html).

**Re: Notice of Suspension and Initiation of Debarment Proceedings, File No. EB-10-IH-2080**

Dear Mr. Soled:

The Federal Communications Commission ("FCC" or "Commission") has received notice of your guilty plea for conspiracy to defraud the United States in violation of 18 U.S.C. § 371 in connection with your participation in the schools and libraries universal service support mechanism ("E-Rate program").<sup>1</sup>

<sup>1</sup> Any further reference in this letter to "your conviction" refers to your guilty plea and subsequent sentencing for conspiracy to defraud the United States. *United States v. Jay H. Soled*, Criminal Docket No. 1:08-cr-00464-2, Plea Agreement (N.D. Ill. filed Feb. 4, 2010 and entered Mar. 15, 2010) ("Soled Judgment"); *United States v. Jay H. Soled*, Criminal Docket No. 1:08-cr-00464-

Consequently, pursuant to 47 CFR § 54.8, this letter constitutes official notice of your suspension from the E-Rate program. In addition, the Enforcement Bureau ("Bureau") hereby notifies you that we are commencing debarment proceedings against you.<sup>2</sup>

#### I. Notice of Suspension

The Commission has established procedures to prevent persons who have "defrauded the government or engaged in similar acts through activities associated with or related to the schools and libraries support mechanism" from receiving the benefits associated with that program.<sup>3</sup> On July 10, 2008, you, Jay H. Soled, entered a plea agreement and pleaded guilty to knowingly and intentionally conspiring with others to defraud and obtain money from the E-Rate Program through submission of materially false representations, concealment of material facts, mail fraud, wire fraud, and intentional manipulation of the competitive bidding process.<sup>4</sup> Specifically, from Fall 1999 to at least November 2003, you held yourself out as an E-Rate salesperson and installer for the purpose of defrauding the E-Rate Program.<sup>5</sup> You admitted that you and others devised schemes to defraud school districts and the E-Rate program by having your co-conspirators steer E-rate related contracts to various companies that directly benefited you, your conspirators, and your company, primarily DeltaNet, Inc.<sup>6</sup> In furtherance of the

<sup>2</sup> Plea Agreement (N.D. Ill. filed July 10, 2008 and entered July 14, 2008) ("Soled Plea"); *United States v. Benjamin Rowner and Jay H. Soled*, Criminal Docket No. 1:08-cr-20047-01-02 CM/JPO, Information (D. Kan. filed and entered Apr. 23, 2008) ("Rowner and Soled Information").

<sup>3</sup> 47 CFR § 54.8; see also 47 CFR § 0.111 (delegating to the Enforcement Bureau authority to resolve universal service suspension and debarment proceedings). The Commission adopted debarment rules for the schools and libraries universal service support mechanism in 2003. See *Schools and Libraries Universal Service Support Mechanism*, Second Report and Order and Further Notice of Proposed Rulemaking, 18 FCC Rcd 9202 (2003) ("Second Report and Order") (adopting section 54.521 of the Commission's rules to suspend and debar parties from the E-Rate program). In 2007, the Commission extended the debarment rules to apply to all of the Federal universal service support mechanisms. *Comprehensive Review of the Universal Service Fund Management, Administration, and Oversight; Federal-State Joint Board on Universal Service; Schools and Libraries Universal Service Support Mechanism; Lifeline and Link Up; Changes to the Board of Directors for the National Exchange Carrier Association, Inc.*, Report and Order, 22 FCC Rcd 16372, 16410-12 (2007) (*Program Management Order*) (renumbering section 54.521 of the universal service debarment rules as section 54.8 and amending subsections (a)(1), (5), (c), (d), (e)(2)(i), (3), (e)(4), and (g)).

schemes, you submitted misleading, fraudulent and false documents to the Universal Service Administrative Company ("USAC") claiming schools were paid or would pay their co-pay, submitted other materially false and fraudulent documents to USAC, and concealed from the school districts relationships with co-conspirators in order to induce schools to select your companies as service providers in violation of E-Rate Program rules.<sup>7</sup> Ultimately, your conspiracy was comprised of two closely related schemes that affected at least thirteen different schools in eight different states across the United States.<sup>8</sup>

On February 4, 2010, you were sentenced to serve twenty-seven months in prison, to be followed by twenty-four months of supervised release for your role in the scheme to defraud the E-Rate program.<sup>9</sup> You were also ordered to pay \$271,716 in restitution to USAC for your role in the schemes.<sup>10</sup>

Pursuant to section 54.8 of the Commission's rules, your conviction requires the Bureau to suspend you from participating in any activities associated with or related to the schools and libraries support mechanism.<sup>11</sup> Such activities include the receipt of funds or discounted services through the schools and libraries support mechanism, or consulting with, assisting, or advising applicants or service providers regarding the schools and libraries support mechanism.<sup>12</sup>

## II. Initiation of Debarment Proceedings

Your guilty plea and conviction of criminal conduct in connection with the E-Rate program, in addition to serving as a basis for immediate suspension from the program, also serves as a basis for the initiation of debarment proceedings against you. Your conviction falls within the categories of causes for debarment defined in section 54.8(c) of the Commission's rules.<sup>19</sup> Therefore, pursuant to section 54.8 of the Commission's rules, your conviction requires the Bureau to commence debarment proceedings against you.<sup>20</sup>

As with your suspension, you may contest debarment or the scope of the proposed debarment by filing arguments and any relevant documentation within 30 calendar days of the earlier of the receipt of this letter or of publication in the **Federal Register**.<sup>21</sup> Absent extraordinary circumstances, the Bureau will debar you.<sup>22</sup> The Bureau will decide any request for reversal or limitation of debarment within 90 days of receipt of such request.<sup>23</sup> If the Bureau decides to debar you, its decision will become effective upon the earlier of your receipt of a debarment notice or publication of the decision in the **Federal Register**.<sup>24</sup>

If and when your debarment becomes effective, you will be prohibited from participating in activities associated with or related to the schools and libraries support mechanism for three years from the date of debarment.<sup>25</sup> The Bureau may, if necessary to protect the public interest, extend the debarment period.<sup>26</sup>

Re: Notice of Suspension and Initiation of Debarment Proceedings, File No. EB-10-IH-2079

Dear Mr. Rowner: The Federal Communications Commission ("FCC" or "Commission") has received notice of your guilty plea for conspiracy to defraud the United States in violation of 18 U.S.C. § 371 in connection with your participation in the schools and libraries universal service support mechanism ("E-Rate program").<sup>1</sup> Consequently, pursuant to 47 CFR § 54.8, this letter constitutes official notice of your suspension from the E-Rate program. In addition, the Enforcement Bureau ("Bureau") hereby notifies you that we are commencing debarment proceedings against you.<sup>2</sup>

**I. Notice of Suspension**

The Commission has established procedures to prevent persons who have

Benjamin Rowner*, Criminal Docket No. 1:08-cr-00464-1, Plea Agreement (N.D. Ill. filed Feb. 4, 2010 and entered Mar. 15, 2010) ("Rowner Judgment"); *United States v. Benjamin Rowner*, Criminal Docket No. 1:08-cr-00464-1, Plea Agreement (N.D. Ill. filed July 10, 2008 and entered July 14, 2008) ("Rowner Plea"); *United States v. Benjamin Rowner and Jay H. Soled*, Criminal Docket No. 1:08-cr-20047-01-02 CM/JPO, Information (D. Kan. filed and entered Apr. 23, 2008) ("Rowner and Soled Information").

<sup>2</sup> 47 CFR § 54.8; see also 47 CFR § 0.111 (delegating to the Enforcement Bureau authority to resolve universal service suspension and debarment proceedings). The Commission adopted debarment rules for the schools and libraries universal service support mechanism in 2003. See *Schools and Libraries Universal Service Support Mechanism*, Second Report and Order and Further Notice of Proposed Rulemaking, 18 FCC Rcd 9202 (2003) ("Second Report and Order") (adopting section 54.521 of the Commission's rules to suspend and debar parties from the E-Rate program). In 2007, the Commission extended the debarment rules to apply to all of the Federal universal service support mechanisms. *Comprehensive Review of the Universal Service Fund Management, Administration, and Oversight; Federal-State Joint Board on Universal Service; Schools and Libraries Universal Service Support Mechanism; Lifeline and Link Up; Changes to the Board of Directors for the National Exchange Carrier Association, Inc.*, Report and Order, 22 FCC Rcd 16372, 16410-12 (2007) (Program Management Order) (renumbering section 54.521 of the universal service debarment rules as section 54.8 and amending subsections (a)(1), (5), (c), (d), (e)(2)(i), (3), (e)(4), and (g)).

"defrauded the government or engaged in similar acts through activities associated with or related to the schools and libraries support mechanism" from receiving the benefits associated with that program.<sup>3</sup> On July 10, 2008, you, Benjamin Rowner, entered a plea agreement and pleaded guilty to knowingly and intentionally conspiring with others to defraud and obtain money from the E-Rate Program through submission of materially false representations, concealment of material facts, mail fraud, wire fraud, and intentional manipulation of the competitive bidding process.<sup>4</sup> Specifically, from Fall 1999 to at least November 2003, you held yourself out as an E-Rate salesperson and installer for the purpose of defrauding the E-Rate Program.<sup>5</sup> You admitted that you and others devised schemes to defraud school districts and the E-Rate program by having your co-conspirators steer E-rate related contracts to various companies that directly benefited you, your conspirators, and your company, primarily DeltaNet, Inc.<sup>6</sup> In furtherance of the schemes, you submitted misleading, fraudulent and false documents to the Universal Service Administrative Company ("USAC") claiming schools were paid or would pay their co-pay, submitted other materially false and fraudulent documents to USAC, and concealed from the school districts relationships with co-conspirators in order to induce schools to select your companies as service providers in violation of E-Rate Program rules.<sup>7</sup> Ultimately, your conspiracy was comprised of two closely related schemes that affected at least thirteen different schools in eight different States across the United States.<sup>8</sup>

On February 4, 2010, you were sentenced to serve twenty-seven months in prison, to be followed by twenty-four months of supervised release for your role in the scheme to defraud the E-Rate program.<sup>9</sup> You were also ordered to pay \$271,716 in restitution to USAC for your role in the schemes.<sup>10</sup>

<sup>3</sup> Second Report and Order, 18 FCC Rcd at 9225, ¶ 66. The Commission's debarment rules define a "person" as "[a]ny individual, group of individuals, corporation, partnership, association, unit of government or legal entity, however, organized." 47 CFR § 54.8(a)(6).

Pursuant to section 54.8 of the Commission's rules, your conviction requires the Bureau to suspend you from participating in any activities associated with or related to the schools and libraries support mechanism.<sup>11</sup> Such activities include the receipt of funds or discounted services through the schools and libraries support mechanism, or consulting with, assisting, or advising applicants or service providers regarding the schools and libraries support mechanism.<sup>12</sup>

Your suspension becomes effective upon the earlier of your receipt of this letter or publication of notice in the **Federal Register**, pending the Bureau's final debarment determination.<sup>13</sup> In accordance with the Commission's debarment rules, you may contest this suspension or the scope of this suspension by filing arguments in opposition to the suspension, with any relevant documentation.<sup>14</sup> Your request must be received within 30 days after you receive this letter or after notice is published in the **Federal Register**, whichever comes first.<sup>15</sup> Such requests, however, will not ordinarily be granted.<sup>16</sup> The Bureau may reverse or limit the scope of suspension only upon a finding of extraordinary circumstances.<sup>17</sup> The Bureau will decide any request for reversal or modification of suspension within 90 days of its receipt of such request.<sup>18</sup>

**II. Initiation of Debarment Proceedings**

Your guilty plea and conviction of criminal conduct in connection with the E-Rate program, in addition to serving as a basis for immediate suspension from the program, also serves as a basis for the initiation of debarment proceedings against you. Your conviction falls within the categories of causes for debarment defined in section 54.8(c) of the Commission's rules.<sup>19</sup> Therefore, pursuant to section 54.8 of the Commission's rules, your conviction requires the Bureau to commence debarment proceedings against you.<sup>20</sup>

### Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and send comments to Maryam I. Daneshvar, CDC Acting Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to [omb@cdc.gov](mailto:omb@cdc.gov).

*Comments are invited on:* (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

**Proposed Project**

“Youth Knowledge, Attitudes, and Feedback to Inform Choose Respect Implementation” (OMB no. 0920–0816 exp. 6/30/2012)—Revision—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

*Background and Brief Description*

A revision of approved OMB# 0920–0816 is requested to reflect adjustments in the age of youth who will participate in the focus group studies and surveys (11–14 will become 11–18). The revision requests permission to ask knowledge and attitude questions at some of the focus groups.

Over a three-year period, NCIPC seeks to understand youths’ (ages 11 to 18) knowledge and attitudes regarding healthy and unhealthy relationships, and obtain their feedback regarding message development/placement, creative executions, appropriate partners, and other similar issues, to inform ongoing implementation and evaluation of the Choose Respect campaign, an initiative intended to

promote youth awareness of and participation in healthy dating relationships. Communication research indicates that campaign planning implementation must employ a consumer-oriented approach to ensure that program messages/materials, and their placement, can successfully gain the attention of and resonate with the intended audience. To that end, the NCIPC proposes conducting further planning, implementation, and evaluation research that enlists the involvement and support of youth. The proposed information collection will inform message and materials development and provide interim and ongoing feedback to campaign planners regarding the implementation and progress of the campaign.

The proposed data collection will enlist geographically, culturally/ racially/ethnically, and socio-economically diverse groups of young people to complete: (1) Ten-minute online surveys, with 200 respondents, up to four times per year; and (2) up to 36 in-person focus groups, with up to eight participants each (or more smaller discussion groups with fewer people per

group), twice per year. Online surveys will reduce the potential burden for young people as Web-based formats are convenient and consistent with the way they communicate and spend their leisure time.

*Online surveys*—Each Web-based survey will involve a different group of tweens/teens. The burden table shows time to screen parents and youth, as well as the actual time to complete the survey (rows 4–6).

*In-person focus groups*—First and second focus groups will involve different groups of young people. The focus groups will be segmented by age and gender, as indicated. Other variables for segmentation may include, but not be limited to, geography, language, and culture/race/ethnicity. The burden table shows time to screen parents and youth, as well as the actual time for focus groups and a waiting room survey (rows 1–3). The assumption is that two parental contacts will be needed to successfully recruit one respondent for each type of study. There are no costs to respondents other than their time.

*Title:* Cross-Site Evaluation of the Children’s Bureau Grantee.

*Cluster:* Supporting Evidence-Based Home Visiting Programs to Prevent Child Maltreatment (EBHV).

*OMB No.:* New Collection.

**Description**

The Administration for Children and Families (ACE), U.S. Department of Health and Human Services (HHS), is proposing this cross-site evaluation data collection activity to identify successful strategies for adopting, implementing, and sustaining high-quality home visitation programs to prevent child maltreatment. An evaluation study will address four domains: (1) Systems change to develop infrastructure, (2) fidelity to evidence-based models, (3)

costs of home visiting programs, and (4) family and child outcomes (via a review of grantee analysis reports). A process study will focus on the broader grant initiative to understand how programs plan and develop the infrastructure needed to support home visitation services and how they ensure service quality.

Information will be collected through biennial site visits, web based data entry, a data quality progress table, a relationship questionnaire completed by participants and home visitors, and a grantee-partner network survey. In particular, site visits will include interviews with key grantee staff and

stakeholders involved in the execution of the grant and in the efforts to make system changes. Grantees will complete systems web-based data entry on goals and operations every six months while agencies implementing home visiting

programs associated with the grantee will utilize the fidelity/cost Web-based data entry to provide EBHV program, provider, and participant characteristic along with yearly data on costs of home visiting programs.

**Respondents**

EBHV grantee and key staff (evaluators, home visitors and supervisors), partners, implementing agencies, home visiting participants, and home visitors.

**ANNUAL BURDEN ESTIMATES**

Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: OPRE Reports Clearance Officer. All requests should be identified by the title of the information collection. E-mail address: [OPREinfo@acf.hhs.gov](mailto:OPREinfo@acf.hhs.gov).

**OMB Comment**

OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, Fax: 202-395-6974, Attn: Desk Officer for the Administration for Children and Families.

**Fiscal Year (FY) 2010 Funding Opportunity**

**AGENCY:** Substance Abuse and Mental Health Services Administration, HHS.

**ACTION:** Notice of intent to award a Single Source Grant to Link2Health Solutions, Inc.

**SUMMARY:** This notice is to inform the public that the Substance Abuse and Mental Health Services Administration (SAMHSA) intends to award approximately \$478,000 (total costs) for up to two years to Link2Health Solutions, Inc. This is not a formal request for applications. Assistance will be provided only to Link2Health Solutions, Inc. based on the receipt of a satisfactory application that is approved by an independent review group.

*Funding Opportunity Title:* SM-10-013.

*Catalog of Federal Domestic Assistance (CFDA) Number:* 93.243.

*Authority:* Section 520(A) of the Public Health Service Act, as amended.

*Justification:* Only an application from Link2Health Solutions will be considered for funding under this announcement. Two-year funding has become available to assist SAMHSA in responding to the growing and pressing need to provide resources for individuals stressed by the nation's current economic crisis. It is considered most cost-effective and efficient to supplement the existing grantee for the National Suicide Prevention Lifeline and to build on the existing capacity and infrastructure within its network of crisis centers.

Link2Health Solutions is in the unique position to carry out the activities of this grant announcement because it is the current recipient of SAMHSA's cooperative agreement to manage the National Suicide Prevention Lifeline. As such, Link2Health Solutions has been maintaining the network communications system and has an existing relationship with the networked crisis centers.

The crisis centers that comprise the National Suicide Prevention Lifeline are a critical part of the nation's mental health safety net. Many crisis centers are experiencing significant increases in calls. The National Suicide Prevention Lifeline crisis centers require assistance to continue to play their critical role in providing support as well as emergency services to suicidal callers during these challenging economic times. In addition, the National Suicide Prevention Lifeline crisis centers are community resources that need to be utilized to reach out to those in their communities most at risk, including those currently impacted severely by the economy.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

Assuring the safety and safe use of medical devices in the home is becoming an increasingly important public health issue. The aging of the U.S. population and shifts toward shorter hospital stays continue to make home healthcare more common. With these trends, a significant number of medical devices, including infusion pumps, ventilators, and wound care

therapies, are now being used in the home.

Home healthcare can provide significant benefits to patients, in terms of both quality of life and cost of care. However, because the home environment is fundamentally different from the clinical environment, home use of medical devices presents unique challenges, many of which have the potential to impact patient safety. Home medical care is often provided by lay caregivers, who may not have received proper training in the operation of the medical devices on which their loved ones rely. Moreover, many medical devices that are currently used in the home were not designed for use by lay caregivers or outside of a controlled clinical environment.

FDA's CDRH has announced its Medical Device Home Use Initiative, a multi-pronged effort to support the safety and safe use of medical devices in the home. The goal of the initiative is to support safe, high-quality home healthcare and facilitate the development of medical devices that are capable of meeting patients' needs in the home. This public workshop is one of several steps CDRH is taking to provide greater assurance of the safety and safe use of medical device technology used in the home setting. Additional information on the benefits and challenges associated with the use of devices in the home, other actions FDA is taking as a part of its home use device initiative, as well as an agency white paper is available at [www.fda.gov/homeusedevices](http://www.fda.gov/homeusedevices).

##### **II. Why Are We Holding This Public Workshop?**

The purpose of the public workshop is to solicit expert input on topics related to the safe and effective use of medical device technology in the home environment. The workshop will highlight steps that can be taken to assure that medical devices are safe and effective when used by lay people in the home. The information gathered in the workshop will help guide future efforts by FDA's CDRH to address the growing use of medical devices in the home environment. Some of this information may be incorporated into guidance document or other agency actions. Accordingly, FDA looks forward to participation and written or electronic comments from manufacturers and distributors, innovators, and organizations that either market or have in development technologies that could be used in the home environment.

FDA will solicit feedback on:

1. The agency's current working definition of “home use” as a medical

device that: Is intended for users in a non-clinical or transitory environment; is managed partly or wholly by the user; requires adequate labeling for use; and may require training by a licensed healthcare provider in order to be used safely and effectively;

2. The unique risks in the home environment that need to be factored into device design;

3. The unique characteristics of end users in the home environment that need to be factored into device design;

4. The challenges and limitations associated with tracking medical devices in the home for purposes of safety notices and recalls, as well as potential solutions to these challenges; and

5. What elements, from the user perspective, should be incorporated into device labeling to help lay users understand and use a medical device safely in the home.

FDA intends to discuss and expand on these topics during the breakout group discussions at the workshop.

##### **III. What Will Be the Format for the Workshop?**

The workshop will begin with a general session. The presentations during this session will provide topics for a set of breakout groups that will meet in the afternoon. Each of the breakout group discussion sessions will be led and moderated by an expert panel. Each breakout session will begin with a presentation by an invited speaker, describing the issues of concern in the specific topic area. This will be followed by a moderated question and comment session, including both pre-specified questions posed to the assembled group and any questions that arise during the workshop discussions. Breakout group participation will be limited by space and will be available on a first-come, first-served basis. At the conclusion of the day's breakout group discussions, the general session will reconvene. When the general session reconvenes, each breakout group will report to the general session the results of its discussion.

##### **IV. Where Can I Find Out More About FDA's Medical Device Home Use Initiative?**

Information on the public workshop, registration information, the agenda, lodging, and other relevant information will be posted, as it becomes available, on the Internet at <http://www.fda.gov/MedicalDevices/NewsEvents/Workshops/Conferences/default.htm> (select the appropriate meeting from the list). Background information regarding

FDA's Medical Device Home Use Initiative can be found at [www.fda.gov/homeusedevices](http://www.fda.gov/homeusedevices).

#### V. Additional Information

Following the meeting, a report of the workshop and the information presented will be available on the meeting Web page which can be found at <http://www.fda.gov/MedicalDevices/NewsEvents/WorkshopsConferences/default.htm> (select the appropriate meeting from the list).

#### Notice of Realty Action, Independence National Historical Park, Pennsylvania and Valley Forge National Historical Park, Pennsylvania

**AGENCY:** National Park Service, Department of the Interior.

**ACTION:** Announcement of land exchange.

**SUMMARY:** This notice announces a proposed exchange of a 0.87-acre parcel of Federal land in Philadelphia County, Pennsylvania, for a 78-acre parcel of privately owned land in Lower Providence Township, Montgomery County, Pennsylvania. The federally owned land is located within the boundary of Independence National Historical Park (INDE). The privately owned land is located within the boundary of Valley Forge National Historical Park (VAFO).

All current compliance documents for this exchange are available on the following National Park Service (NPS) PEPC Web site: <http://parkplanning.nps.gov/documentsList.cfm?parkId=245&projectId=28017>.

I. The federally owned land has been determined to be suitable for disposal by exchange. The authority for this exchange is 16 U.S.C. 460l-22(b). The Federal property to be exchanged is identified as INDE Tract 01-182. The United States, National Park Service, acquired this land during the 1950s from various owners. The conveyance deeds are recorded at the Recorder of

Deeds Office of Philadelphia County, Pennsylvania.

The United States will convey fee simple title to INDE Tract 01-182 by virtue of a Quitclaim Deed. The deed will impose permanent restrictions and reserve rights to the United States. A copy of the deed restrictions can also be found on the NPS PEPC Web site.

II. In exchange for the land described in paragraph I above, the United States will acquire fee simple title to the surface and mineral estates of VAFO Tract 101-60. This unimproved 78-acre parcel is owned by The National Center for the American Revolution. This parcel abuts the Walnut Hill complex of the Park, which contains significant encampment period buildings and ruins. The acquisition of this tract allows NPS to protect the resources in perpetuity and provides VAFO the ability to fully interpret the encampment of the Continental Army.

III. The values of the properties to be exchanged shall be determined by a current market value appraisal and if they are not approximately equal, the values shall be equalized by payment of cash as circumstances require.

For a period of 45 days from the date of this notice, interested parties may submit written comments to the Park Superintendents at the addresses listed below. Adverse comments will be evaluated and this action may be modified or vacated accordingly. In the absence of any action to modify or vacate, this realty action will become the final determination of the Department of the Interior. Pursuant to the proposed Consent Decree, Defendants will reduce volatile organic compound and hazardous air pollutant emissions by bringing storage tanks and loading racks at their bulk gasoline terminals into compliance with the NSPS and NESHAP requirements by no later than December 31, 2011. The Consent Decree also requires Defendants to pay a \$2,400,000 civil penalty.

### National Institute of Corrections

#### Solicitation for a Cooperative Agreement: Development of Two Documents—Inmate Behavior Management: A Guide to Meeting Inmates’ Basic Needs and—Inmate Behavior Management: A Guide to Defining and Conveying Expectations for Inmates

**AGENCY:** National Institute of Corrections, Department of Justice.

**ACTION:** Solicitation for a Cooperative Agreement.

**SUMMARY:** The National Institute of Corrections, Jails Division, is seeking applications for the development of two documents that provide jail practitioners with a guide on (1) meeting inmates’ basic needs and (2) defining and conveying expectations for inmates as part of an overall strategy to manage inmate behavior.

**DATES:** Applications must be received by 4 p.m. (EDT) on Thursday, May 6, 2010.

**ADDRESSES:** Mailed applications must be sent to: Director, National Institute of Corrections, 320 First Street, NW., Room 5007, Washington, DC 20534. Applicants are encouraged to use Federal Express, UPS, or similar service to ensure delivery by the due date.

Hand delivered applications should be brought to 500 First Street, NW., Washington, DC 20534. At the front desk, dial 7-3106, ext. 0 for pickup.

Faxed or e-mailed applications will not be accepted.

Electronic applications can only be submitted via <http://www.grants.gov>.

**FOR FURTHER INFORMATION CONTACT:** A copy of this announcement and links to the required application forms can be found on NIC's Web page at <http://www.nic.gov>.

All technical or programmatic questions concerning this announcement should be directed to Fran Zandi, Correctional Program Specialist, National Institute of Corrections, Jails Division. Ms. Zandi can be reached at 1-800-995-6423, ext. 71070 or by e-mail at [fzandi@bop.gov](mailto:fzandi@bop.gov).

**SUPPLEMENTARY INFORMATION:**

*Background:* The National Institute of Corrections (NIC) has identified six key elements in the effective management of inmate behavior in jails: (1) Assessing the risks and needs of each inmate at various points during his/her detention; (2) Assigning inmates to appropriate housing; (3) Meeting inmates' basic needs; (4) Defining and conveying expectations for inmate behavior; (5) Supervising inmates; and (6) Keeping inmates productively occupied.

If a jail fully and properly implements all six elements, it should experience a significant reduction in the unwanted and negative inmate behavior often experienced in jails, such as vandalism, violence, rule violations, and disrespectful behavior toward staff and other inmates.

*Purpose:* The NIC Jails Division offers training and technical assistance on inmate behavior management, but wishes to develop additional tools that will help jails implement the individual elements.

*Scope of Work:* The National Institute of Corrections wishes to produce two documents that provide jail practitioners specific guidance on, and tools for, implementing elements #3 and #4 in their own jurisdiction as part of the overall inmate behavior management strategy.

*Document Length:* The number of pages in the body is to be determined.

The documents will include appendices and a bibliography.

*Document Audience:* Jail administrators and management staff. This guide is intended for use by jails of all sizes. In developing the document, the awardee must take into account the diversity of jails in terms of size and resources, and the sometimes severe resource limitations many jails face.

*Use of Document:* Jail practitioners will use these documents as guides on meeting inmates' basic needs, and defining and conveying expectations for inmates, as part of an overall strategy to manage inmate behavior. They will be companion documents as part of a set of materials NIC is developing on inmate behavior management.

*Document Distribution:* NIC expects to distribute the documents widely. They will be made available on the NIC Web site and through the NIC Information Center, upon request and free of charge.

*Document Content:* Document content will reflect and expand on the information in NIC's "Inmate Behavior Management: The Key to a Safe and Secure Jail". This document is available at <http://nic.gov/library/023882>.

The documents will be clear and practical guides for jail practitioners. They will have a common format, which will be developed by the awardee in conjunction with NIC staff. Each document will include, at a minimum: An overview of the six key elements of inmate behavior management; An in-depth discussion of the individual element; What the document addresses, including why it is key to managing inmate behavior, its relationship to the other five elements, the benefits of implementing the element, and the potential consequences of failing to implement it (this discussion will also cite anecdotal evidence or research that demonstrates the usefulness of the element in managing inmate behavior); a discussion of processes and indicators that can be used to assess the degree to which a jail currently implements the element, with sample assessment tools; Specific strategies for fully implementing the element; a discussion of the associated policies and procedures, staff training, staff supervision strategies, and resource requirements to successfully implement the element (the document will include samples of policies, procedures, staff training tools, information for inmates, and other related documents); guidance on how to set realistic and measurable goals for element implementation; suggested processes for evaluating both the quality of the implementation and the success in achieving goals (For each

type of evaluation, the document will describe evaluation timeframes, data that should be collected, data collection methods, and data collection analysis); a discussion of the importance of the administrator's commitment to implementing the element; and concrete examples of how the administrator can demonstrate this commitment.

*Project Description:* The awardee will produce two completed documents that have received initial editing from a professional editor. NIC will be responsible for the final editing process and document design, but the awardee will remain available during this time to answer questions and to make revisions to the documents.

*Project Schedule:* The list below shows the major activities required to complete the project. Document development will begin upon award of this agreement and must be complete 18 months after the award date. The schedule for completion of activities should include, at a minimum, the following activities. The awardee will: Meet with the NIC project manager for an overview of the project and initial planning; Review materials provided by NIC; complete the initial outline of document content and layout; Meet with the NIC project manager by WebEx to review, discuss, and agree on the content outline; research content topics and related resources; Submit draft sections of the document to NIC for review; revise draft sections for NIC's approval; submit document to the editor hired by the awardee for the first content edit; submit a draft of entire document to NIC for review; Revise the document for NIC's approval; and submit the document to NIC in hard copy and on disk in Microsoft Word format.

Throughout the project period, the awardee will make provisions for meetings with NIC staff, to be held in Washington DC or via WebEx, at critical planning and review points in document development.

*Document Preparation:* For all awards in which a document will be a deliverable, the awardee must follow the guidelines listed herein, as well as follow the Guidelines for Preparing and Submitting Manuscripts for Publication as found in the "General Guidelines for Cooperative Agreements," which will be included in the award package. All final publications submitted for posting on the NIC Web site must meet the Federal government's requirement for accessibility (508 PDF or HTML file).

The awardee must also provide descriptive text interpreting all graphics, photos, graphs and/or multimedia to be included with, or

distributed alongside, the documents. In addition, the awardee will provide transcripts for all audio/visual materials, if applicable.

An applicant conference will be held on Friday, April 30, 2010 from 1 p.m. to 3 p.m. (EDT) by WebEx. The conference will give applicants the opportunity to meet with NIC project staff and ask questions about the project and the application procedures. Attendance at the conference is optional. Provisions will be made using WebEx technology (telephone and computer-based conferencing). The WebEx session requires applicants to have access to a telephone and computer. Applicants who plan to attend via WebEx should e-mail Fran Zandi, NIC Jails Division, Correctional Program Specialist at [fzandi@bop.gov](mailto:fzandi@bop.gov) by Tuesday, April 27, 2010 by 3 p.m. (EDT).

## NUCLEAR REGULATORY COMMISSION

[Docket No. 050-16; NRC-2010-0159]

### DTE Energy; Enrico Fermi Atomic Power Plant, Unit 1

Environmental Assessment and Finding of No Significant Impact for an Exemption From Certain Control and Tracking Requirements in 10 CFR Part 20 Appendix G Section III.E

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from certain control and tracking requirements in 10 CFR Part 20 Appendix G Section III.E for Facility Operating License No. DPR-9 issued to DTE Energy (DTE or the licensee), for the Enrico Fermi Atomic Power Plant Unit 1, (Fermi-1) located in Monroe County, Michigan.

#### Environmental Assessment

##### *Identification of Proposed Action*

The proposed action is in accordance with the licensee's application for an exemption dated November 13, 2009. The licensee has requested an exemption from certain control and tracking requirements in 10 CFR Part 20 Appendix G Section III.E, which require the licensee to investigate, and file a report with the NRC, if shipments of low-level radioactive waste are not acknowledged by the intended recipient within 20 days after transfer to the shipper.

The proposed action would grant an exemption to extend the time period that can elapse during shipments of low-level radioactive waste before the licensee is required to investigate and file a report with the NRC. Specifically, the exemption would extend the time period for the licensee to receive acknowledgment that the low-level radioactive waste shipment has been received by the intended recipient from 20 days to 35 days.

##### *The Need for the Proposed Action*

DTE is in the process of decommissioning Fermi-1. During the decommissioning process, large volumes of slightly contaminated debris are generated and require disposal. DTE transports low-level radioactive waste from Fermi-1 to distant locations such as a waste disposal facility operated by Energy Solutions in Clive, Utah.

The licensee's request to extend the 20-day investigation and reporting requirements for shipments of low-level radioactive waste to 35 days is based on historical data derived from recent shipments from Fermi-1. That experience indicates that rail or mixed mode truck/rail transportation times to waste disposal facilities consistently exceeded the 20-day reporting requirement. A review of the data indicates that transportation time for shipments by rail or truck/rail took over 20 days on average and, on occasion, took up to 34 days to receive the manifest confirming shipment. Shipping from Fermi-1 is expected to continue to be either by rail or a combination of truck/rail shipments, as larger and bulkier components are planned for shipment. The use of rail is expected to continue to result in shipping delays that exceed the 20 day reporting time for shipments from Fermi-1.

The licensee believes, and the staff agrees, that the need to investigate, trace, and report to the NRC on the shipment of low-level waste packages not reaching their destination within 20 days does not serve the underlying purpose of the rule. Therefore, the NRC staff finds that granting an exemption to extend the time period from 20 days to 35 days for mixed-mode or truck/rail or rail shipments of low-level radioactive waste will not result in an undue hazard to life or property.

##### *Environmental Impacts of the Proposed Action*

The NRC has reviewed the licensee's proposed exemption request and concluded that the proposed exemption is procedural and administrative in nature.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed

action does not involve any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

##### *Alternatives to the Proposed Action*

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

##### *Agencies and Persons Contacted*

In accordance with NRC policy, on March 23, 2010, NRC staff consulted with a representative from the Michigan Department of Natural Resources and the Environment, Radiological Protection and Medical Waste Section, regarding the environmental impact of the proposed action. The state official had no comments.

##### **Finding of No Significant Impact**

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

Dated at Rockville, Maryland, this 14th day of April 2010.

**SUPPLEMENTARY INFORMATION:**

**I. Introduction**

The U.S. Nuclear Regulatory Commission (NRC) is issuing a revision to an existing guide in the agency's "Regulatory Guide" series. This series was developed to describe and make available to the public information such as methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

Revision 2 of Regulatory Guide 1.68.2, "Initial Startup Test Program to Demonstrate Remote Shutdown Capability for Water-Cooled Nuclear Power Plants," was issued with a temporary identification as Draft Regulatory Guide, DG-1236. This guide describes an initial startup test program acceptable to the staff of the U.S. Nuclear Regulatory Commission (NRC) for demonstrating hot shutdown capability and the potential for cold shutdown from outside the control room. This guide is applicable to water-cooled nuclear power plants.

**II. Further Information**

In August 2009, DG-1236 was published to allow public comments for a period of 60 days. Industry comments were received from the Nuclear Energy Institute (NEI), no other comments were received and the comment period was closed on October 9, 2009. The staff's responses to comments received on DG-1236 are located in the NRC's Agencywide Document Access and Management system under accession number ML100610057. Electronic copies of Regulatory Guide 1.68.2, Revision 2 are available through the NRC's public Web site under "Regulatory Guides" at <http://www.nrc.gov/reading-rm/doc-collections/>.

In addition, regulatory guides are available for inspection at the NRC's Public Document Room (PDR) located at Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852-2738. The PDR's

**SMALL BUSINESS ADMINISTRATION****Small Business Size Standards: Waiver of the Nonmanufacturer Rule**

**AGENCY:** U.S. Small Business Administration.

**ACTION:** Notice of intent to waive the Nonmanufacturer Rule for Improved Outer Tactical Vests and related accessories under Product Service Code (PSC) 8470 (Armor Personal) under North American Industry Classification

System (NAICS) code 339113 (Surgical Appliance and Supplies Manufacturing).

**SUMMARY:** The U.S. Small Business Administration (SBA) is considering granting a waiver of the Nonmanufacturer Rule for Improved Outer Tactical Vests. According to a request, no small business manufacturers supply these products to the Federal government. If granted, the waiver would allow an otherwise qualified nonmanufacturer to supply the products of any manufacturer on a Federal contract set aside for small businesses, service-disabled veteran-owned small businesses, or Participants in the SBA's 8(a) Business Development (BD) Program.

**DATES:** Comments and source information must be submitted May 6, 2010.

**ADDRESSES:** You may submit comments and source information to Pamela M. McClam, Program Analyst, Small Business Administration, Office of Government Contracting, 409 3rd Street, SW., Suite 8800, Washington, DC 20416.

**FOR FURTHER INFORMATION CONTACT:** Ms. Pamela M. McClam, by telephone at (202) 205-7408; by FAX at (202) 481-4783, or by e-mail at [Pamela.mcclam@sba.gov](mailto:Pamela.mcclam@sba.gov).

**SUPPLEMENTARY INFORMATION:** Section 8(a)(17) of the Small Business Act (Act), 15 U.S.C. 637(a)(17), and SBA's implementing regulations provide that recipients of Federal contracts set aside for small businesses, service-disabled veteran-owned small businesses, or Participants in the SBA's 8(a) BD Program must provide the product of a small business manufacturer or processor, if the recipient is other than the actual manufacturer or processor of the product. This requirement is commonly referred to as the Nonmanufacturer Rule. 13 CFR 121.406(b), 125.15(c). Section 8(a)(17)(b)(iv) of the Act authorizes SBA to waive the Nonmanufacturer Rule for any "class of products" for which there are no small business manufacturers or processors available to participate in the Federal market.

In order to be considered available to participate in the Federal market for a class of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal government within the last 24 months. 13 CFR 121.1202(1). The SBA defines "class of products" based on Office of Management and Budget's NAICS. In addition, SBA uses PSCs to identify

particular products within the NAICS code to which a waiver would apply.

The SBA is currently processing a request to waive the Nonmanufacturer Rule for Improved Outer Tactical Vests and related accessories under NAICS code 339113, Surgical Appliance and Supplies Manufacturing, PSC 8470—Armor Personal.

The public is invited to comment or provide source information to SBA on the proposed waivers of the Nonmanufacturer Rule for this class of product within 15 days after date of publication in the **Federal Register**.

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-61905; File No. SR-Phlx-2010-55]

### Self-Regulatory Organizations; NASDAQ OMX PHLX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to a New Category of Fees for "Professionals"

April 14, 2010.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on March 31, 2010, NASDAQ OMX PHLX, Inc. ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to adopt fees for a new type of participant called "professional."<sup>3</sup>

While changes to the Exchange's Fee Schedule pursuant to this proposal are effective upon filing, the Exchange has designated this proposal to be operative on April 1, 2010.

The text of the proposed rule change is available on the Exchange's Web site

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

<sup>3</sup> See Securities Exchange Act Release No. 61802 (March 30, 2010), 75 FR 17193 (April 5, 2010) (SR-Phlx-2010-05).

at <http://nasdaqtrader.com/micro.aspx?id=PHLXfilings>, at the principal office of the Exchange, at the Commission's Public Reference Room, and on the Commission's Web site at <http://www.sec.gov>.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The purpose of the proposed rule change is to adopt a new category of fees, "professional." The Exchange believes that the proposed fees for professional orders will allow the Exchange to remain competitive with other options exchanges who apply fees to professional orders.

The Exchange defines a "professional" as any person or entity that (i) is not a broker or dealer in securities, and (ii) places more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s)<sup>4</sup> (hereinafter "Professional").

The Exchange proposes to add a "Professional" fee category to its transaction fees for equity options, index options and foreign currency options. The Exchange proposes to amend Categories II, III and IV of the Fee Schedule to assess a \$0.20 transaction fee on Professional orders in all equity option classes, a \$0.35 transaction fee on Professional orders in sector index options and a \$0.30 transaction fee on Professional orders in U.S. dollar-settled foreign currency options.

<sup>4</sup> A Professional will be treated in the same manner as an off-floor broker-dealer for purposes of Rules 1014(g) (except with respect to all-or-none orders, which will be treated like customer orders), 1033(e), 1064.02 (except professional orders will be considered customer orders subject to facilitation), and 1080.08 as well as Options Floor Procedure Advices B-6, B-11 and F-5. Member organizations must indicate whether orders are for professionals.

The Exchange is also proposing that Payment For Order Flow Fees<sup>5</sup> not be assessed on Professional orders and is amending Category II of the Fee Schedule to reflect that. The Exchange would not assess a payment for order flow fee on professional orders, because the Exchange believes payment for order flow fees are not required to remain competitive with other options exchanges with respect to Professional orders.<sup>6</sup>

In Category V of the Fee Schedule, the Exchange is also proposing that Cancellation Fees<sup>7</sup> not be assessed on Professional orders. The Exchange is excluding professional orders from the computation of the Cancellation Fee, because the Exchange does not believe that these orders raise the types of issues that the Cancellation Fee is intended to address.<sup>8</sup>

The Exchange also proposes to add a notation to the Routing Fees in Category IX to indicate that Professional orders will be subject to the Routing Fees.

## 2. Statutory Basis

The Exchange believes that its proposal to amend its schedule of fees is consistent with Section 6(b) of the Act<sup>9</sup> in general, and furthers the objectives of Section 6(b)(4) of the Act<sup>10</sup> in particular, in that it is an equitable allocation of reasonable fees and other charges among Exchange members. The Exchange believes that adding Professional fees to the fees applicable to the other equity options, sector index options and foreign currency options transaction fees is fair and reasonable, because the proposed fees are similar to the transaction fees applicable to broker-

dealers trading on Phlx<sup>11</sup> as well as fees assessed by other options exchanges. For example, CBOE assesses a \$0.20 per contract fee for professional orders in equity options,<sup>12</sup> the same as the Exchange's proposed Category II fees.

With regard to the sector index options fees and foreign currency options fees proposed for Professionals, these charges are similar to the current transaction fees assessed on the Exchange's Registered Options Traders pursuant to Categories III and IV of the Exchange's Fee Schedule; and therefore, the Exchange believes the proposed fee is fair and reasonable.

The Exchange believes that excluding Professional orders from the computation of the Cancellation Fee will continue to fairly allocate costs among members according to system use, which is the purpose of cancellation fees. In addition, the Exchange will not assess specialists, SQTs, RSQTs and ROTs a payment for order flow fee on Professional orders, in order to compete with other options exchanges.

The Exchange also proposes to specify that Routing Fees apply to Professional orders for purposes of clarity.

### B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act<sup>13</sup> and paragraph (f)(2) of Rule 19b-4<sup>14</sup> thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors,

or otherwise in furtherance of the purposes of the Act.

## IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

### Electronic Comments

You should submit only information that you wish to make available publicly. All submissions should refer to File No. SR-Phlx-2010-55 and should be submitted on or before May 12, 2010.

<sup>5</sup> The Exchange currently assesses \$.25 per contract for options that are executed in the penny pilot program and \$.70 for remaining equity options. These fees are assessed for trades resulting from either Directed or non-Directed Orders that are delivered electronically and executed on the Exchange: Assessed on ROTs, specialists and Directed ROTs on those trades when the specialist unit or Directed ROT elects to participate in the payment for order flow program.

<sup>6</sup> See Securities Exchange Act Release No. 61693 (March 11, 2010), 75 FR 13175 (March 18, 2010) (SR-ISE-2010-16).

<sup>7</sup> The Exchange currently assesses \$2.10 per order for each cancelled electronically delivered customer order in excess of the number of customer orders executed on the Exchange by a member organization in a given month. All customer orders from the same member organization that are executed in the same series on the same side of the market at the same price within a 300 second period will be aggregated and counted as one executed customer options order.

### Surface Transportation Board

[STB Docket No. AB-33 (Sub-No. 281X)]

#### Union Pacific Railroad Company— Abandonment Exemption—in Orange County, CA

Union Pacific Railroad Company (UP) filed a notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon a 1.15-mile line of railroad, on the Brea Chemical Industrial Lead, from milepost 507.5 to milepost 508.65 near the City of Brea, in Orange County, CA. The line traverses United States Postal Service Zip Code 92821.

*UP has certified that:* (1) No local traffic has moved over the line for at least 2 years; (2) there is no overhead traffic on the line; (3) no formal complaint filed by a user of rail service on the line (or filed by a state or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Board or with any U.S. District Court or has been decided in favor of complainant within the 2-year period; and (4) the requirements at 49 CFR 1105.7 (environmental report), 49 CFR 1105.8 (historic report), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to this exemption, any employee adversely affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 USC 10502(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) has been received, this exemption will be effective on or after May 21, 2010, unless stayed pending reconsideration. Petitions to stay that do

not involve environmental issues,<sup>1</sup> formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),<sup>2</sup> and trail use/rail banking requests under 49 CFR 1152.29 must be filed by May 3, 2010. Petitions to reopen or requests for public use conditions under 49 CFR 1152.28 must be filed by May 11, 2010, with: Surface Transportation Board, 395 E Street, S.W., Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to UP's representative: Mack H. Shumate, Jr., Senior General Attorney, 101 North Wacker Drive, Suite 1920, Chicago, IL 60606.

If the verified notice contains false or misleading information, the exemption is void *ab initio*.

UP has filed a combined environmental and historic report which address the effects, if any, of the abandonment on the environment and historic resources. SEA will issue an environmental assessment (EA) by April 26, 2010. Interested persons may obtain a copy of the EA by writing to SEA (Room 1100, Surface Transportation Board, Washington, DC 20423-0001) or by calling SEA, at (202) 245-0305. Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at 1-800-877-8339. Comments on environmental and historic preservation matters must be filed within 15 days after the EA becomes available to the public.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), UP shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the line. If consummation has not been effected by UP's filing of a notice of consummation by April 21, 2011, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

<sup>1</sup> The Board will grant a stay if an informed decision on environmental issues (whether raised by a party or by the Board's Section of Environmental Analysis (SEA) in its independent investigation) cannot be made before the exemption's effective date. See *Exemption of Out-of-Service Rail Lines et al.*, 5 I.C.C.2d 377 (1989). Any request for a stay should be filed as soon as possible so that the Board may take appropriate action before the exemption's effective date.

<sup>2</sup> Each OFA must be accompanied by the filing fee, which currently is set at \$1,500. See 49 CFR 1002.2(f)(25).

Decided: April 15, 2010.

#### SUPPLEMENTARY INFORMATION:

*Title:* 2009 Business Relocation Assistance Retrospective Study.

*Background:* Among benefits included in relocation assistance under the Uniform Act is a payment, not to exceed \$10,000, to assist displaced businesses in reestablishing at a new location. The Uniform Act also includes a fixed payment for moving expenses not to exceed \$20,000 in lieu of the payments for actual reasonable moving and reestablishment related expenses. The Uniform Act benefit levels were last revised in 1989. Since that time, displaced business moves have become increasingly complex and costly. HEPR, the Government Accountability Office (GAO) and several States have done recent research into the costs born by businesses that are required to relocate as a result of federally funded projects and programs. The general conclusion is that the Uniform Act benefit levels are inadequate. For example the GAO recently reported on the need for an update of benefit levels in Eminent Domain, Information about its Uses and Effect on Communities and Property Owners Is Limited (GAO-07-28). The report communicates in several points, including discussions on pages 4 and 16, that Uniform Act benefits available to business are considered inadequate by interviewees.

The data collected utilizing the following interview document would identify the name, location and type of business; actual costs that a business incurs which would be reimbursable if not for the statutory maximum reestablishment expenses or the additional in-lieu eligibility that a business would be eligible to receive as well as the amount of the relocation assistance the business received as a reimbursement through the relocation program.

Interviews with selected participants will be conducted over a one-year period.

*Respondents:* Approximately 300 participants to be interviewed in one year.

*Frequency:* One collection from each participant.

*Estimated Average Burden per Response:* Approximately 4 hours per participant over a year.

*Estimated Total Annual Burden Hours:* Approximately 1200 hours.

*Public Comments Invited:* You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

**Authority:** The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

its implementing regulations, the Federal Railroad Administration (FRA) hereby announces that it is seeking renewal of the following currently approved information collection activities. Before submitting these information collection requirements for clearance by the Office of Management and Budget (OMB), FRA is soliciting public comment on specific aspects of the activities identified below.

**DATES:** Comments must be received no later than June 21, 2010.

**ADDRESSES:** Submit written comments on any or all of the following proposed activities by mail to either: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 17, Washington, DC 20590, or Ms. Kimberly Toone, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 35, Washington, DC 20590. Commenters requesting FRA to acknowledge receipt of their respective comments must include a self-addressed stamped postcard stating, "Comments on OMB control number \_\_\_\_\_." Alternatively, comments may be transmitted via facsimile to (202) 493-6216 or (202) 493-6497, or via e-mail to Mr. Brogan at [Robert.Brogan@dot.gov](mailto:Robert.Brogan@dot.gov), or to Ms. Toone at [Kimberly.Toone@dot.gov](mailto:Kimberly.Toone@dot.gov). Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

**FOR FURTHER INFORMATION CONTACT:** Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292) or Ms. Kimberly Toone, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6132). (These telephone numbers are not toll-free.)

**SUPPLEMENTARY INFORMATION:**

The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, § 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, to the public for comment on information collection activities before seeking approval for reinstatement or renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically,

FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(I)-(iv); 5 CFR 1320.8(d)(1)(I)-(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it organizes information collection requirements in a "user friendly" format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below are brief summaries of three currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

*Title:* Filing of Dedicated Cars.

*OMB Control Number:* 2130-0502.

*Abstract:* Title 49, Part 215 of the Code of Federal Regulations, prescribes certain conditions to be followed for the movement of freight cars that are not in compliance with this Part. Dedicated service means the exclusive assignment of railroad cars to the transportation of freight between specified points under the following conditions: (1) The cars are operated primarily on track that is inside an industrial or other non-railroad installation; and only occasionally over track of a railroad; (2) The cars are not operated at speeds of more than 15 miles per hour; and over track of a railroad—(A) for more than 30 miles in one direction; or (B) on a round trip for more than 60 miles; (3) The cars are not freely interchanged among railroads; (4) The words "Dedicated Service" are stenciled, or otherwise

displayed, in clear legible letters on each side of the car body; and (5) The cars have been examined and found safe to operate in dedicated service. These cars must be identified in a written report to FRA before they are assigned to dedicated service, and these reports must be filed with FRA 30 days before the cars operate in dedicated service. FRA uses the information collected under § 215.5(d) to determine the number of railroads affected, the number and type of cars involved, the commodities being carried, and the territorial and speed limits within which the cars will be operated. FRA reviews these reports to determine if the equipment is safe to operate and if the operation qualifies for dedicated service. The information collected indicates to FRA inspectors that the particular or "dedicated" car is in special service and that certain exceptions have been provided for regarding the application of this regulation spelled out in § 215.3. Cars not in compliance with § 215.5(d) will be cited for violations by FRA inspectors. The information collected is also used by railroads to provide identification and control so that dedicated cars remain in the prescribed service.

**Notice of Intent To Prepare a Supplemental Environmental Impact Statement: State Route 374 From State Route 149 West of River Road to State Route 76 in Clarksville, Montgomery County, TN**  
**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice of Intent to Prepare a Supplemental Environmental Impact Statement (EIS).

**SUMMARY:** The FHWA is issuing this notice to advise the public that a Supplemental EIS will be prepared for the extension of SR 374 from SR 149 west of River Road to SR 76 in Clarksville, Montgomery County, Tennessee.

**FOR FURTHER INFORMATION CONTACT:** Mr. Charles J. O'Neill, Planning and Program Management Team Leader, FHWA—Tennessee Division Office, 404

BNA Drive, Suite 508, Nashville, TN 37217. Phone: (615) 781-5770.

**SUPPLEMENTARY INFORMATION:** The FHWA, in cooperation with the Tennessee Department of Transportation, will prepare a Supplemental EIS on a proposal to extend SR 374 in Clarksville, Montgomery County, Tennessee. A Draft EIS for the extension of SR 374 from SR 13 to SR 76 in Clarksville was approved in March 2000. On December 17, 2008, the FHWA issued a Notice to Rescind the original Notice of Intent to Prepare an EIS (published November 12, 1996) for the subject project. The original

Notice of Intent was rescinded due to the age of the Draft EIS and the desire to assess any potential changes in impacts to the human and natural environment. A Supplemental Draft EIS must be prepared to update the technical studies to be in full compliance with NEPA and other current environmental regulations, including SAFETEA-LU.

The Supplemental Draft EIS will evaluate the extension of SR 374 from SR 149 west of River Road to SR 76, a distance of approximately 7 miles. The proposed roadway will provide two traffic lanes in each direction, separated by either a median or a turn lane. The project will involve construction on new location, as well as improvements to existing facilities. Once constructed, it is expected that the facility will help divert traffic away from congested roadways leading to and from downtown Clarksville.

*The Supplemental EIS will evaluate a range of reasonable alternatives, which will include:* (1) No Build; (2) Transit; (3) Transportation Systems Management; and (4) one or more Build Alternatives.

Early coordination letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies, and to private organizations and entities that have previously expressed or are known to have an interest in this proposal. A Coordination Plan will be developed to include the public in the project development process. This plan will utilize the following outreach efforts to provide information and solicit input: Newsletters, project Web site, e-mail and direct mail, informational meetings and briefings, a public hearing, and other efforts as necessary and appropriate. A public hearing will be held upon completion of the Supplemental Draft EIS, and public notice will be given of the time and place of the public hearing. The Supplemental Draft EIS will be available for public and agency review and comment prior to the public hearing.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning the proposed action and the EIS should be directed to the FHWA contact person identified above at the address provided above.

### National Highway Traffic Safety Administration

[Docket No. NHTSA-2010-0047; Notice 1]

#### Tireco, Inc., Receipt of Petition for Decision of Inconsequential Noncompliance

Tireco, Inc., (Tireco), has determined that approximately 6,170 of its "GEO-Trac" brand P235/75R15 passenger car tires, manufactured between June 12, 2009 and August 20, 2009 by the fabricating manufacturer, the Shandong Linglong Tyre Co., Ltd., and imported into the United States by Tireco, do not comply with paragraph S5.5(c) of Federal Motor Vehicle Safety Standard (FMVSS) No. 139, *New pneumatic radial tires for light vehicles*. Tireco has filed an appropriate report pursuant to 49 CFR Part 573, *Defect and Noncompliance Responsibility and Reports*.

Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR part 556), Tireco has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of Tireco's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of

judgment concerning the merits of the petition.

Affected are approximately 6,170 tires imported into the United States by Tireco who identified the tires as "Geo-Trac" brand P235/75R15 passenger car replacement tires.

In consultation with the fabricating manufacturer, the Shandong Linglong Tyre Co., Ltd., Tireco has determined that all of the noncompliant tires were manufactured between June 12, 2009 (Serial Week 24) and August 20, 2009 (Serial Week 34). Tireco stated that it has already retrieved almost half of the 6,170 noncompliant tires from its distributors and dealers and estimates that there are only 3,370 noncompliant tires in the field that would be covered by the requested exemption.<sup>1</sup>

Paragraph S5.5(c) (and paragraph S5.5.4 as incorporated by reference) of FMVSS No. 139 requires in pertinent part:

S5.5 Tire markings. Except as specified in paragraphs (a) through (i) of S5.5, each tire must be marked on each sidewall with the information specified in S5.5(a) through (d) and on one sidewall with the information specified in S5.5(e) through (i) according to the phase-in schedule specified in S7 of this standard. The markings must be placed between the maximum section width and the bead on at least one sidewall, unless the maximum section width of the tire is located in an area that is not more than one-fourth of the distance from the bead to the shoulder of the tire. If the maximum section width falls within that area, those markings must appear between the bead and a point one-half the distance from the bead to the shoulder of the tire, on at least one sidewall. The markings must be in letters and numerals not less than 0.078 inches high and raised above or sunk below the tire surface not less than 0.015 inches. \* \* \*

(c) The maximum permissible inflation pressure, subject to the limitations of S5.5.4 through S5.5.6 of this standard; \* \* \*

S5.5.4 For passenger car tires, if the maximum inflation pressure of a tire is 240, 280, 300, 340, or 350 kPa, then:

(a) Each marking of that inflation pressure pursuant to S5.5(c) must be followed in parenthesis by the equivalent psi, rounded to the next higher whole number; \* \* \*

Tireco indicated that the noncompliance is that the markings on the non-compliant tires specifying the maximum inflation pressure in kPa and

in psi are reversed from the order required by paragraph S5.5.5(c). The Company said that the maximum inflation pressure should have been marked as "300 kPa (44 psi)" but were "inadvertently" marked on both sidewalls with a maximum inflation pressure of "44 kPa (300 psi)." Tireco reported that this noncompliance was brought to their attention on August 19, 2009 by one of the company's distributor customers.

Tireco argues that no vehicle operator would ever inflate the tires to the incorrect pressures that appear on the sidewalls of the subject tires, and specifically stated that "it would be virtually impossible to do so." Tireco supports this conclusion with the following statements:

- With respect to the erroneous psi marking, no commercially available air compressor used in tire retail stores, at gas stations, or for home use has the capacity to inflate tires to 300 psi, and consumers would immediately be aware from their past experience that a pressure of 300 psi could not be correct.

- With respect to the erroneous kPa marking, it [is] extremely unlikely that a consumer would attempt to inflate the tires to 44 kPa, since (1) drivers in the United States almost always utilize the psi parameter rather than kPa value when they inflate their tires; and (2) any driver who used the kPa parameter would know that the 44 kPa value was not correct, since all passenger car tires have a maximum inflation pressure of at least 240 kPa. Moreover, even if a consumer were to attempt to inflate the tires to 44 kPa (which is equivalent to approximately 7 psi), he or she would immediately be aware that the tires were drastically underinflated, and would not be in a drivable state.

Tireco concludes that the subject non-compliance "cannot result in the tires being overloaded, or any other adverse safety consequence to the tires or to the vehicles on which they are mounted." Additionally, Tireco cites three cases which it believes support its conclusion that NHTSA has previously granted tires companies inconsequential exemptions relating to errors in the marking of maximum inflation pressure. (See *Michelin North America, Inc.*, 70 FR 10161 (March 2, 2005); *Kumho Tire Co., Inc.*, 71 FR 6129 (February 6, 2006); and *Michelin North America, Inc.*, 74 FR 10805 (March 12, 2009)).

Furthermore, Tireco points out three other substantive factors that support its petition:

- The subject tires meet or exceed all of the substantive performance requirements of FMVSS No. 139.

- There have been no complaints regarding this issue from vehicle owners (the incorrect markings were brought to Tireco's attention by one of its distributors).

- The manufacturer of these tires, Shandong Linglong Tyre Co., Ltd., has corrected the molds at its factory, so that this noncompliance will not be repeated in current or future production.

Supported by all of the above stated reasons, Tireco believes that the described noncompliance of its tires to meet the requirements of FMVSS No. 139 is inconsequential to motor vehicle safety, and that its petition, to exempt it from providing recall notification of noncompliance as required by 49 U.S.C. 30118 and remedying the recall noncompliance as required by 49 U.S.C. 30120, should be granted.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance.

Interested persons are invited to submit written data, views, and arguments on this petition. Comments must refer to the docket and notice number cited at the beginning of this notice and be submitted by any of the following methods:

<sup>1</sup> Tireco's petition, which was filed under 49 CFR Part 556, requests an agency decision to exempt Tireco as importer from the notification and recall responsibilities of 49 CFR Part 573 for 3,370 of the 6,170 affected tires. However, the agency cannot relieve Tireco's distributors of the prohibitions on the sale, offer for sale, or introduction or delivery for introduction into interstate commerce of the noncompliant tires under their control after Tireco recognized that the subject noncompliance existed. Those tires must be brought into conformance, exported, or destroyed.

The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

##### **Exemption Decision**

This notice addresses 17 individuals who have requested renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these

17 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Lyle H. Banser  
Lloyd J. Botsford  
Walter M. Brown  
Charley J. Davis  
Derek T. Ford

Laurent G. Jacques  
Lucio Leal  
Earl R. Mark  
Douglas A. Mendoza  
Michael R. Moore  
Richard W. Neyens

*The exemptions are extended subject to the following conditions:* (1) That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provides a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

##### **Basis for Renewing Exemptions**

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and 31315, each of the 17 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (64 FR 68195; 65 FR 20251; 67 FR 17102; 69 FR 17267; 71 FR

16410; 67 FR 10471; 67 FR 19798; 69 FR 19611; 71 FR 19604; 73 FR 15254; 68 FR 61857; 68 FR 75715; 71 FR 646; 72 FR 71998; 68 FR 74699; 69 FR 10503; 71 FR 6829; 70 FR 48797; 70 FR 61493; 70 FR 57353; 70 FR 72689; 70 FR 71884; 71 FR 4632; 73 FR 9158; 71 FR 4194; 71 FR 13450; 72 FR 67340; 73 FR 1395; 73 FR 6242; 73 FR 16950). Each of these 17 applicants has requested renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

##### **Request for Comments**

FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31136(e) and 31315. However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by May 21, 2010.

FMCSA believes that the requirements for a renewal of an exemption under 49 U.S.C. 31136(e) and 31315 can be satisfied by initially granting the renewal and then requesting and evaluating, if needed, subsequent comments submitted by interested parties. As indicated above, the Agency previously published notices of final disposition announcing its decision to exempt these 17 individuals from the vision requirement in 49 CFR 391.41(b)(10). The final decision to grant an exemption to each of these individuals was based on the merits of each case and made only after careful consideration of the comments received to its Notices of applications. The Notices of applications stated in detail the qualifications, experience, and medical condition of each applicant for an exemption from the vision requirements. That information is available by consulting the above cited **Federal Register** publications.

Interested parties or organizations possessing information that would

otherwise show that any, or all of these drivers, are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

Issued on: April 15, 2010.

Title 3—

Proclamation 8498 of April 16, 2010

The President

National Park Week, 2010

**By the President of the United States of America****A Proclamation**

As a Nation, we have a responsibility to protect America's natural resources and noteworthy landmarks. During National Park Week, we celebrate the diversity, beauty, and history found in our National Park System.

For nearly 100 years, the American people have entrusted the National Park Service (NPS) to care for the places that fuel our spirit and define our character. By safeguarding our Nation's historical parks, sites, and monuments, NPS in turn preserves our rich culture and heritage. From the first glimpses of hope at the Statue of Liberty to the harrowing Battle of Gettysburg and the quest for freedom on the Underground Railroad, countless American stories are enshrined in these sites. By visiting them, we can reflect on our shared history and vision for the future.

Our National Park System also includes millions of acres that support educational and recreational opportunities for all Americans. Every day, NPS employees and volunteers dedicate their time and energy to upholding the beauty and integrity of these lands for future generations. Only by conserving our natural treasures—from the verdant forests of the Great Smoky Mountains to the geysers of Yellowstone and the granite walls of Yosemite—can we share their wonder with our children and grandchildren.

Our national parks provide safe and affordable opportunities for families and communities to reconnect with nature and have fun together. Our Nation's historical parks, sites, and monuments also enhance quality of life and bolster community vitality in many of America's urban areas. In the spirit of *Let's Move*, the First Lady's nationwide campaign to tackle childhood obesity, I encourage all Americans to visit our national parks and take part in outdoor activities.

While most national parks are free throughout the year, none will charge admission during National Park Week, ensuring these treasures are open and accessible to all. As we acknowledge the wealth of our National Park System, let us also recommit to responsible stewardship that will sustain our parks for generations to come.

NOW, THEREFORE, I, BARACK OBAMA, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim April 17 through April 25, 2010, as National Park Week. I encourage all Americans to visit their national parks and be reminded of these unique blessings that we share as a Nation.

IN WITNESS WHEREOF, I have hereunto set my hand this sixteenth day of April, in the year of our Lord two thousand ten, and of the Independence of the United States of America the two hundred and thirty-fourth.

**Proclamation 8499 of April 16, 2010**

### **National Crime Victims' Rights Week, 2010**

**By the President of the United States of America**

#### **A Proclamation**

Millions of Americans fall prey to criminal behavior every year, and still more suffer the physical, emotional, and psychological pain of past offenses. This week, we renew our commitment to supporting crime victims and preventing crimes that threaten our families and our communities.

Our Nation's prosperity depends on the safety and security of all Americans. Though crime rates have declined in recent years, crime and its devastating effects still require our constant vigilance and attention. To help protect our citizens and make our neighborhoods safer, last year's landmark American Recovery and Reinvestment Act included funding for crime prevention programs, criminal justice initiatives, and services for victims. Dedicated individuals, organizations, and agencies across our Nation are also aiding this effort, caring for the survivors of crime by providing shelter, counseling, and other types of assistance.

While any person or community may experience crime, some groups are disproportionately affected. Nearly half of all murder victims are African Americans, and Native American women suffer one of the highest rates of sexual assault of any ethnic group. These disparities are an affront to all Americans, and we must address them with innovative policing strategies and greater community involvement.

Beyond violent crime and property crime, we must also fight white-collar crime and protect its victims, including those recovering from financial fraud. Through my Administration's Financial Fraud Enforcement Task Force and other initiatives, we are cracking down on mortgage fraud and predatory lending practices. Programs for victims of these crimes can help restore economic security after a family loses its life savings or home due to cruel deception.

During National Crime Victims' Rights Week, we reaffirm our support for victims and survivors of crime, and we recommit to strengthening the Federal, State, and local partnerships that are reducing criminal activity. Together, we will build a safer, more secure America.

NOW, THEREFORE, I, BARACK OBAMA, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim April 18 through April 24, 2010, as National Crime Victims' Rights Week. I call upon all Americans to observe this week with events and activities that raise awareness of victims' rights, and by volunteering to serve their fellow citizens.

IN WITNESS WHEREOF, I have hereunto set my hand this sixteenth day of April, in the year of our Lord two thousand ten, and of the Independence of the United States of America the two hundred and thirty-fourth.

**Proclamation 8500 of April 16, 2010**

**National Volunteer Week, 2010**

**By the President of the United States of America**

### **A Proclamation**

Since the founding of our Nation, we have met our greatest challenges through the dedication of countless Americans who have given generously of themselves, asking for nothing in return. The American story is a story of volunteers—of patriots who fought for our founding ideals, of people who marched for justice, of firefighters who rushed into burning towers, and of ordinary citizens who lifted up struggling communities. All were volunteers, and their work changed our country. This week, we recognize their enduring contributions and encourage more Americans, especially our youth, to join their ranks.

Today's vast challenges require a renewed commitment to service, and Americans are answering that call. From mentoring a student and feeding the homeless, to rebuilding after a natural disaster, volunteers are touching lives every day. Social entrepreneurs are pioneering innovative approaches to community service, and technology is providing us with new ways to connect with one another. Public-private partnerships are also expanding the scope and effectiveness of volunteerism.

My Administration is committed to ushering in a new era of service and responsibility. We launched United We Serve, a nationwide initiative to encourage all Americans to make service a part of their daily lives. The Edward M. Kennedy Serve America Act, which I signed last year, has expanded and updated programs at the Corporation for National and Community Service, harnessing the energy of millions to meet our most pressing national challenges. We are also investing in social innovation and volunteer management to give community groups the capacity to tackle local concerns.

During National Volunteer Week, we honor the ordinary people who give of themselves to accomplish extraordinary things, and we encourage more Americans to strengthen our country by volunteering. Visit [Serve.gov](http://Serve.gov) to find volunteer opportunities across America and resources to start your own project. This website highlights volunteer opportunities for Americans of all ages, and I especially hope our young people will be inspired to chart a course of service.

Whether through the workplace or a house of worship, in our own neighborhoods or in another state or country, service binds us together as Americans in a way nothing else can. It defines us as a people, and it is essential to achieving our national priorities. Together, let us answer the call, take hold of our shared future, and meet the challenges of our new century.

NOW, THEREFORE, I, BARACK OBAMA, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim April 18 through April 24, 2010, as National Volunteer Week. I call upon all Americans to observe this week by volunteering in service projects across our country and pledging to make service a part of their daily lives.

IN WITNESS WHEREOF, I have hereunto set my hand this sixteenth day of April, in the year of our Lord two thousand ten, and of the Independence of the United States of America the two hundred and thirty-fourth.

**Proclamation 8501 of April 16, 2010**

### **National Day of Service and Remembrance for Victims and Survivors of Terrorism, 2010**

**By the President of the United States of America**

#### **A Proclamation**

There is no greater evil than willful violence against innocents. On this National Day of Service and Remembrance for Victims and Survivors of Terrorism, we pause to remember victims of terrorism at home and abroad, we honor the heroes who have supported them, and we redouble our efforts to build the kind of world that is worthy of their legacy.

Fifteen years ago, terrorists bombed the Alfred P. Murrah Federal Building in Oklahoma City, killing over 160 men, women, and children, and injuring hundreds more. Even before the dust settled, heroes had emerged. First responders, medical professionals, clergy, relief organizations, local leaders, and everyday citizens stepped forward to help victims and their families. Again, when terrorists struck on September 11, 2001, and thousands of Americans—and scores of foreign nationals—perished in New York City, at the Pentagon, and in Shanksville, Pennsylvania, Americans made a historic effort to assist all those affected. The dignity of those who were attacked—and the courage of those who came to their aid—reaffirmed the strength of our Nation, and the human spirit.

Terrorists prey on the innocent and vulnerable, and have nothing to offer except hatred and destruction. No cause justifies their actions, yet they have claimed many victims around the world. Wherever they kidnap or kill, they reveal only their own bankrupt vision, and disrupt or destroy lives. Their actions impact not only their victims, but the families, friends, and fellow citizens of those who are targeted.

Survivors of terrorism and their families, though bound at first by anguish and loss, are united by extraordinary acts of courage, love, faith, and commitment. They have risen against terrorism in the aftermath of the Oklahoma City bombing, the September 11 attacks, and other incidents of violence around the world. They are giving a voice to victims, speaking out against violent and extremist ideologies, easing the suffering of survivors, and helping them heal and hope once more.

Today, let us honor the good works of this inspiring movement that shows us that hope is more powerful than fear, and recognize the sacrifice of extraordinary citizens worldwide who have shown fortitude in the face of unspeakable tragedy.

NOW, THEREFORE, I, BARACK OBAMA, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim April 19, 2010, as National Day of Service and Remembrance for Victims and Survivors of Terrorism. I call upon all departments, agencies, and instrumentalities of the United States to display the flag of the United States at half-staff on this day in honor of the individuals who lost their lives as a result of terrorism. I invite the Governors of the United States and the Commonwealth of Puerto Rico and interested organizations and individuals to join in this observance. I encourage all Americans to observe this solemn day

of remembrance with appropriate ceremonies, activities, and acts of community service in memory of the victims and survivors of terrorism worldwide.

IN WITNESS WHEREOF, I have hereunto set my hand this sixteenth day of April, in the year of our Lord two thousand ten, and of the Independence of the United States of America the two hundred and thirty-fourth.

A handwritten signature in black ink, appearing to be Barack Obama's signature, consisting of a large 'B' followed by a circle and a horizontal line.
