of the Pilot Program has subsequently fallen below the standard as amended by the Pilot Program as of the date of this filing and only two additional companies have been newly identified as being below the Pilot Program standard.

The Commission notes that the continued listing standards as amended by the Pilot Program are at least as stringent as those of any other national securities exchange. In addition, the Exchange notes that the Commission stated in the Pilot Program Notice that it believed that the continued listing standards adopted under the Pilot Program met the requirements established in Exchange Act Rule 3a51–1(a)(2)(i) in that they were reasonably related to the initial listing standards set forth in paragraph (a)(2)(i) of Exchange Act Rule 3a51–1 (the “Penny Stock Rule”).

Based on the above, the Commission believes that permanent adoption of the Pilot Program is appropriate and that the continued listing standards, although lower than the standards in place prior to the Pilot Program, should help to ensure that listed companies continue to have adequate depth and liquidity to maintain fair and orderly markets for the protection of investors. Consequently, the Commission believes that the Pilot Program is consistent with the Act.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (SR–NYSE–2010–15) is hereby approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.16

Elizabeth M. Murphy,
Secretary.

Bureau of Educational and Cultural Affairs (ECA) Request for Grant Proposals: 2010 Community Solutions Program

Announcement Type: New Cooperative Agreement.

Catalog of Federal Domestic Assistance Number: 19.415.

Key Dates:

Application Deadline: June 3, 2010.

Executive Summary: The Office of Citizen Exchanges of the Bureau of Educational and Cultural Affairs invites proposal submissions for the Community Solutions Program in Africa, East Asia and the Pacific, Europe, the Middle East and North Africa, South and Central Asia and the Western Hemisphere. Public and private non-profit organizations meeting the provisions described in Internal Revenue Code section 26 U.S.C. 501(c)(3) may submit proposals to conduct this professional fellowship program. The Community Solutions Program serves as a mechanism to support and encourage initiatives organized by young civic and community leaders, ages 25–38, currently working to address the economic, environmental, political, and social challenges confronting their respective local communities. Through professional fellowships with a specific leadership component, Community Solutions will provide opportunities for eligible individuals to experience best practices, learn about effective models of public and community engagement, and develop concrete strategies to better address complex issues in their home communities.

The Community Solutions Program seeks to enhance the skills of approximately 65–80 civic and community leaders to more effectively address current economic, environmental, political, and social challenges in their communities through increased civic engagement and dialogue, leadership development, and an enhanced understanding of the way public and private resources interface for the common good. Through a four- to six-month fellowship, complemented by leadership development, Community Solutions will provide opportunities for eligible individuals to experience best practices, learn about effective models of public and community engagement, and develop concrete strategies to better address complex issues in their home communities.

ECA anticipates funding one project for approximately $1,500,000 to take place over the course of one to two years and target young professionals currently engaged in initiatives that aim to improve and enhance the economic, environmental, political, and social well-being of their communities. As a global tool to address community-based challenges, the Community Solutions Program seeks to:

1. Enhance the participants’ ability to address complex local economic, environmental, political, and social challenges through a U.S.-based fellowship;
2. Develop concrete tools to the participants to take on greater leadership roles in their communities, by developing their skills for effective public discourse, professional collaboration, and project management;
3. Cultivate professional ties with U.S. economic, environmental, political, and social institutions through collaborative and follow-on projects;
4. Create a global network of diverse, multi-disciplinary, engaged professionals and civic leaders committed to problem solving and community engagement; and
5. Expand and strengthen the relationship between the people of the United States and other countries to work in partnership to identify solutions to common issues facing their local communities.

The specific themes for the professional fellowships for this program are: (1) Accountability and Transparency, (2) Tolerance/Conflict Resolution, (3) Environmental Issues, and (4) Women’s Issues.

Eligible countries and guidance for each theme are provided in Section I.8 below. Proposals that target professional fellowships that are unrelated to the themes referenced in this Request for Grant Proposals will be considered ineligible.

I.3. Participants

For the purposes of this program, “participants” are defined as citizens of the eligible counties selected through a merit-based, global competition to travel to the United States to take part in a Community Solutions fellowship. Participants must be early to mid-career professionals with demonstrated leadership abilities, who are engaged in a community-based project with the express goal of addressing an economic, environmental, political, and/or social challenge confronting that community (either in or outside of their professional capacity). Participants must possess the intercultural and English language skills necessary to benefit fully from the fellowship. Therefore, strong preference will be given to individuals who have previously studied in the United States for a period of four months or longer, in order to build upon an already established understanding of U.S. society, culture, politics, and public institutions.

Fellows should be placed in community-based, non-profit or other civil society organizations, government offices, or legislative bodies (Federal or State, county or municipal). Hosting institutions and organizations should have expertise relevant to the fellowship’s focus and be working on innovative community engagement projects in the non-profit or governmental spheres, including State legislatures, city councils, or local government that express a willingness to collaborate on a specific project of...
