Notice of Proposed Withdrawal Extension and Opportunity for Public Meeting; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The United States Forest Service (USFS) has filed an application with the Bureau of Land Management (BLM) that proposes to extend the duration of Public Land Order (PLO) No. 6868 for an additional 20-year term.

PLO No. 6868 withdrew approximately 2,400 acres of National Forest System land from mining in order to protect the major anadromous fish spawning beds at the Steamboat Creek Tributaries Streamside Zone and Steamboat Creek Roadside and Streamside Zones. The withdrawal authorized by PLO No. 6868 will expire on August 13, 2011, unless extended. This notice also gives an opportunity to comment on the proposed action and to request a public meeting.

DATES: Comments and requests for a public meeting must be received by July 21, 2010.

ADDRESSES: Comments and meeting requests should be sent to the BLM Oregon/Washington State Director, BLM, P.O. Box 2965, Portland, Oregon 97208–2965.

SUPPLEMENTARY INFORMATION: The USFS has filed an application requesting that the Secretary of the Interior extend PLO No. 6868 (56 FR 40263 (1991)), which withdrew 2,400 acres in Douglas and Lane Counties, Oregon, from location and entry under the United States mining laws (30 U.S.C. ch. 2), for an additional 20-year term, subject to valid existing rights. PLO No. 6868 is incorporated herein by reference.

The purpose of the proposed withdrawal extension is to continue the protection of the major anadromous fish spawning beds at the Steamboat Creek Tributaries Streamside Zone and Steamboat Creek Roadside and Streamside Zones.

The use of a right-of-way, interagency agreement, or cooperative agreement would not provide adequate protection.

The Forest Service would not need to acquire water rights to fulfill the purpose of the requested withdrawal extension.

Records related to the application may be examined by contacting Charles R. Roy at the above address or phone number.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal extension may present their views in writing to the BLM State Director at the address indicated above.

Comments, including names and street addresses of respondents, will be available for public review at the address indicated above during regular business hours.

Individual respondents may request confidentiality. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. The area described contains approximately 2292.12 acres in Humboldt County.

Under certain conditions, Section 209(b) of the Federal Land Policy and Management Act of October 21, 1976, 43 U.S.C. 1719 (FLPMA) authorizes the sale and conveyance of the federally-owned mineral interests in land to the surface owner or prospective surface owner when the non-mineral (or so-called surface interest in land) is not federally-owned. The objective is to allow consolidation of the surface and mineral interests when either one of the following conditions exist: (1) There are no known mineral values in the land; or (2) where continued Federal ownership of the mineral interests interferes with or precludes appropriate non-mineral development and such development is a more beneficial use of the land than mineral development.

An application was filed for the sale and conveyance of the federally-owned mineral interests in the above-described tract of land. Subject to valid existing rights, on April 22, 2010 the federally-owned mineral interests in the lands described above are hereby segregated from appropriation under the public land laws, including the mining laws, while the application is being processed to determine if either one of the two specified conditions exists and, if so, to otherwise comply with the procedural requirements of 43 CFR part 2720 and Section 2A of FLPMA. The segregative effect shall terminate upon: (1) Issuance of a patent or other document of conveyance as to such mineral interests; (2) Final rejection of the application; or (3) December 15, 2010, whichever occurs first.
