Proposal to approve under OMB delegated authority the extension for three years, without revision, of the following reports:

Agency form number: FR 4102.

OMB control number: 7100–0315.

Frequency: Biennial.

Reporters: Payment and securities settlement systems.

Estimated annual reporting hours: 210 hours.

Estimated average hours per response: 70 hours.

Number of respondents: 3.

General description of report: This information collection is mandatory and authorized pursuant the Federal Reserve Act (12 U.S.C. 248(i) & (j), 342, 248(o), 360, and 464). Also, in order to carry out the purposes of the Expedited Funds Availability Act, Public Law 100–86, 101 Stat. 635 (1985) (codified as amended at 12 U.S.C. 4001–4010), the Federal Reserve is given the authority to “regulate any aspect of the payment system.” 12 U.S.C. 4008(c)(1). Because the self-assessments are to be publicly disclosed and because the Federal Reserve will not collect any information pursuant to this information collection beyond what is made publicly available, no confidentiality issue arises with regard to the FR 4102.

Abstract: The FR 4102 was implemented in January 2007 as a result of revisions to the Federal Reserve’s Payments System Risk (PSR) policy. Under the revised policy, systemically important payments and settlement systems subject to the Federal Reserve’s authority are expected to complete and disclose publicly self-assessments against the principles and minimum standards in the policy. The self-assessment should be reviewed and approved by the system’s senior management and board of directors upon completion and made readily available to the public.

In addition, a self-assessment should be updated following material changes to the system or its environment and, at a minimum, reviewed by the system every two years.

Jennifer J. Johnson,
Secretary of the Board.

Abstract: The Office of the Secretary (OS) is requesting clearance by the Office of Management and Budget to extend data collection regarding the status of the health care system. ASPR/ OPEO received expedited clearance for data collection during the 2009—H1N1 pandemic. Since September 2009 HHS has collected data on bed availability, health care system resource needs such as ventilators and health care system stress such as implementation of surge strategies. These data have proven useful to ASPR in fulfilling its responsibilities for preparedness and response.

Pursuant to section 2811 of the PHS Act, the ASPR serves as the principal advisor to the Secretary on all matters related to Federal public health and medical preparedness and response for public health emergencies. In addition to other tasks, the ASPR coordinates with State, local, and tribal public health officials and healthcare systems to ensure effective integration of Federal public health and medical assets during an emergency. ASPR’s National Hospital Preparedness Program (HPP) awards cooperative agreements to each of the 50
For this data collection the situation will dictate how often the data will be collected using the web-based interface known as HAvBED. For a large scale emergency data will be collected nationally from all 62 HPP awardees to include all 6000 hospitals in HAvBED system. For smaller scale events data collection will be targeted to individual states or regions. Data may also be gathered during exercises. Notifications for data collection are sent to the affected states through the HPP program staff. The data gathered from the hospitals are reported to the HHS Secretary’s Operations Center to inform situational awareness and national preparedness.
