
Because neither of the domestic companies that replaced the subject firm as the preferred vendor of the foreign customer imported articles like or directly competitive with the PCB assemblies produced by the subject firm, the Department determines that TAA criterion (C) has not been met. In order for the Department to issue a certification of eligibility to apply for ATAA, the subject worker group must be certified eligible to apply for TAA. Since the subject workers are not eligible to apply for TAA, the workers cannot be certified eligible for ATAA.

Conclusion

After careful reconsideration, I affirm the original notice of negative determination of eligibility to apply for worker adjustment assistance for workers and former workers of Advanced Electronics, Inc., Boston, Massachusetts.

Signed at Washington, DC, this 15th day of April 2010.
