

fundamental, the restriction results in clients of grantees being treated differently and less advantageously than all other private litigants, which LSC believes is unwarranted and fundamentally at odds with the Corporation's Equal Justice mission.

This action makes permanent the Interim Final Rule's lifting of the regulatory prohibition on claiming, or collecting and retaining attorneys' fees available under Federal or State law permitting or requiring the awarding of such fees. Accordingly as of March 15, 2010, recipients were and remain permitted make claims for attorneys' fees in any case in which they are otherwise legally permitted to make such a claim. Recipients are also permitted to collect and retain attorneys' fees whenever such fees are awarded to them.

With the repeal of the restriction, recipients are permitted to claim and collect and retain attorneys' fees with respect to any work they have performed for which fees are available to them, without regard to when the legal work for which fees are claimed or awarded was performed. LSC considered whether recipients should be limited seek or obtain attorneys fees related to "new" work; that is, work done only as of the date of the statutory change or the effective date of the Interim Final Rule. LSC rejected that position because the attorneys' fees prohibition applies to the particular activity of seeking and receiving attorneys' fees, but is irrelevant to the permissibility of the underlying legal work. Limiting the ability of recipients to seek and receive attorneys' fees on only future case work would create a distinction between some work and other work performed by a recipient, all of which was permissible when performed. LSC continues to find such a distinction to be artificial and not necessary to effectuate Congress' intention.

LSC also believes that not limiting the work for which recipients may now seek or obtain attorneys' fees will best afford recipients the benefits of the lifting of the restriction. There may well be a number of ongoing cases where the newly available option of the potentiality of attorneys' fees will still be effective to level the playing field and afford recipients additional leverage with respect to opposing counsel in those cases. Likewise, being able to obtain attorneys' fees in cases in which prior work has been performed would likely help relieve more financial

generating cases at the expense of the needs of other clients.

pressure on recipients than a "new work only" implementation choice would because it would increase sources and amount of work for which fees might potentially be awarded.

#### Amendment of Part 1609 and Part 1610

As noted above, Part 1642 contains two provisions not directly related to the restriction on claiming and collecting attorneys' fees. These provisions address the accounting for and use of attorneys' fees and the acceptance of reimbursement from a client. 45 CFR 1642.5 and 1642.6. These provisions used to be incorporated into LSC's regulation on fee-generating cases at 45 CFR Part 1609, but were separated out and included in the new Part 1642 regulation when it was adopted. Amending these provisions was not necessary to effectuate the lifting of the attorneys' fees restriction and they provide useful guidance to recipients. In fact, with recipients likely collecting and retaining fees more often than they have since 1996, the provision on accounting for and use of attorneys' fees will be of greater importance than it has been. Retaining these provisions would continue to provide clear guidance to the benefit of both recipients and LSC. Accordingly, LSC is adopting as permanent the changes which moved these provisions back into Part 1609 as §§ 1609.4 and 1609.5, with only technical amendment to the regulatory text to remove references to Part 1642 and which redesignated § 1609.4 as § 1609.6.<sup>3</sup>

LSC is also adopting as permanent technical conforming amendments to delete references to Part 1642 and the attorneys' fees statutory prohibition that are now obsolete. Having obsolete and meaningless regulatory provisions is not good regulatory practice and can at the very least lead to unnecessary confusion. Accordingly, LSC adopts permanently the deletion of paragraph (c) of § 1609.3, General requirements, to eliminate that paragraph's reference to the attorneys' fees restriction in Part 1642. Similarly, LSC adopts permanently a technical conforming amendment to its regulation at Part 1610. Part 1610 sets forth in regulation the application of the appropriations law restrictions to a recipient's non-LSC funds. Section 1610.2 sets forth the list of the restrictions as contained in section 504 of the FY 1996 appropriations act, and the implementing LSC regulations which

are applicable to a recipient's non-LSC funds. Subsection (b)(9) was the provision that references the attorneys' fees restriction (504(a)(13) and Part 1642) and which became obsolete.

### 48 CFR Chapter 3

#### Health and Human Services Acquisition Regulation; Corrections

**AGENCY:** Department of Health and Human Services.

**ACTION:** Correcting amendments.

**SUMMARY:** This action corrects minor errors, inconsistencies and omissions in the final rule, which revised the Health and Human Services Acquisition Regulation (HHSAR) to implement statutes and government-wide mandates enacted or issued since December 2006.

**DATES:** These corrections are effective on April 26, 2010.

**FOR FURTHER INFORMATION CONTACT:** Cheryl Howe, Procurement Analyst, U.S. Department of Health and Human Services, Office of the Assistant Secretary for Financial Resources, Office of Grants and Acquisition Policy and Accountability, Division of Acquisition, 202-690-5552 (voice); [cheryl.howe@hhs.gov](mailto:cheryl.howe@hhs.gov) (e-mail); 202-690-8772 (facsimile).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

HHS published a revision of the entire HHSAR (48 CFR parts 301 through 370) in the **Federal Register** on November 27, 2009 to reflect changes since the last revision was published in the **Federal Register** in December 2006. No adverse comments were received.

The revisions included, but were not limited to, the following:

A. Revising Subpart 301.6 regarding training and certification of acquisition officials to implement federal acquisition certification programs.

B. Adding a new Subpart 304.13 to implement Homeland Security Presidential Directive—12.

C. Adding a new Subpart 315.70 regarding acquisition of electronic information technology (EIT) products and services to implement the requirements of Section 508 of the Rehabilitation Act of 1973 [29 U.S.C. 794(d)], as amended by the Workforce Improvement Act of 1998.

D. Adding a new Subpart 317.1 to implement FAR coverage on multi-year contracting and amending Subpart 332.7 to address awards made during a continuing resolution.

E. Adding a new Subpart 334.2 to implement FAR coverage on earned value management (EVM).

The final rule, which became effective on January 26, 2010, contained some minor errors, inconsistencies and omissions which this document corrects. Those technical corrections are set forth below. The corrections to the affected sections are merely procedural in nature and propose no substantive changes on which public comment could be solicited. HHS therefore finds that prior notice and opportunity for comment on these corrections are unnecessary pursuant to 5 U.S.C. 553(b)(3)(A) and that good cause exists for these corrections to be exempt from the 30-day delayed effective date requirement of 5 U.S.C. 553(d).

## II. Summary of Changes

The following summarizes the corrections set forth in this notice.

A. HHS has changed multiple organizational titles to reflect recent reorganizations within the Office of the Secretary.

B. HHS has resolved minor inconsistencies regarding Project Officer and Contracting Officer's Technical Representative (COTR) training and clarified the training requirements for technical evaluation panels.

C. HHS has clarified requirements related to (1) use of multi-year contracting, (2) use of options under multi-year contracts, and (3) preparation of a "determination and findings" for an assisted contract.

**SUMMARY:** NMFS issues this final rule to implement Amendment 31 to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP) prepared by the Gulf of Mexico Fishery Management Council (Council). This final rule will implement restrictions applicable to the bottom longline component of the reef fish fishery in the exclusive economic zone (EEZ) of the eastern Gulf of Mexico (Gulf). The restrictions include a bottom longline endorsement requirement, a seasonal closed area, and a limitation on the number of hooks that can be possessed and fished. The intent of this rule is to balance the continued operation of the bottom longline component of the reef fish fishery in the eastern Gulf while maintaining adequate protective measures for sea turtles.

**DATES:** This rule is effective May 26, 2010.

**ADDRESSES:** Copies of the final regulatory flexibility analysis (FRFA) and record of decision may be obtained from Cynthia Meyer, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701-5505.

**SUPPLEMENTARY INFORMATION:** The reef fish fishery of the Gulf is managed under the FMP. The FMP was prepared by the Council and is implemented through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and

Management Act (Magnuson-Stevens Act). The taking of sea turtles is prohibited, with certain exceptions, identified at 50 CFR part 223 under the authority of the Endangered Species Act (ESA) and its implementing regulations.

On December 31, 2009, NMFS published a notice of availability of Amendment 31 and requested public comment (74 FR 69322). On January 15, 2010, NMFS published a proposed rule for Amendment 31 and requested public comment (75 FR 2469). NMFS approved Amendment 31 on March 29, 2010. This final rule establishes adequate protective measures for loggerhead sea turtles while maintaining a viable bottom longline fleet. These measures include a bottom longline endorsement, a seasonal closed area in the eastern Gulf, and a limitation on the number of hooks that can be possessed and fished. The rationale for the measures contained in Amendment 31 is provided in the amendment and in the preamble to the proposed rule and is not repeated here.

**Comments and Responses**

The following is a summary of the comments NMFS received on the proposed rule and Amendment 31, and NMFS' respective responses. During the respective comment periods for Amendment 31 and the proposed rule, NMFS received 976 submissions. The submissions included two scripted form letters with 457 and 393 copies. NMFS also received 126 unique mailed letters. In addition, a non-governmental organization submitted a petition with 2,297 signatures. Many of the faxes and electronic comments were duplicate submissions by the same person.

*Comment 1:* NMFS needs to take action to stop additional sea turtle mortality and reverse the decline in the sea turtle population.

*Response:* NMFS has concluded that the actions contained in this final rule are sufficient to address sea turtle interactions in the Gulf reef fish fishery. NMFS reinitiated a formal section 7 consultation investigating continued authorization of the reef fish fishery. An emergency rule, effective May 18, 2009, prohibited bottom longline gear for the reef fish fishery in waters less than 50 fathoms (91 m) to address the issue in the short-term and closed the portion of the Gulf EEZ east of 85° 30' W. longitude to bottom longlining for reef fish after the deepwater grouper quota was met on June 27, 2009. According to the NMFS 2009 report on sea turtle take estimates for the commercial reef fish fishery of the eastern Gulf, all but one observed sea turtle take occurred in water depths less than 50 fathoms (91
