AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registration has been cancelled only if such sale, distribution, or use is consistent with the terms as described in the final order.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background on the Receipt of Requests to Cancel and/or Amend Registrations to Delete Uses

This notice announces receipt by EPA of a request from registrants Cheminova A/S, Cheminova, Inc., and United Phosphorus, Inc. to cancel methyl parathion product registrations. Methyl parathion is a restricted use organophosphate insecticide and acaricide registered for use on alfalfa, almonds, barley, canola/rapeseed, corn (field, pop, and sweet), cotton, grass (forage), oats, onions, potatoes (sweet and white), rice, rye, soybeans, sunflowers, walnuts, and wheat, with the majority of use occurring on cotton, corn, and rice. There are no residential uses. On March 29, 2010, Cheminova A/S, Cheminova, Inc., and United Phosphorus, Inc. and EPA signed a Memorandum of Agreement (MOA) to voluntarily cancel all uses of pesticide product registrations identified in Table 1 in Unit III. of this document. Specifically, the MOA will terminate the last methyl parathion products registered in the United States.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of a request from registrants to cancel uses of methyl parathion product registrations. The affected products and the registrants making the requests are identified in Tables 1 and 2 of this unit.

Unless a request is withdrawn by the registrant or if the Agency determines that there are substantive comments that warrant further review of this request, EPA intends to issue an order canceling the affected registrations.

Table 2 of this unit includes the names and addresses of record for the registrants of the products listed in Table 1 of this unit, in sequence by EPA company number. This number corresponds to the first part of the EPA registration numbers of the products listed in Table 1.

IV. What is the Agency’s Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would

pose an unreasonable adverse effect on the environment.

The methyl parathion registrants have requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the proposed requests.

V. Procedures for Withdrawal of Requests

Registrants who choose to withdraw a request for product cancellation or use deletion should submit the withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the action. If the requests for voluntary cancellation are granted, the Agency intends to publish the cancellation order in the **Federal Register**.

In any order issued in response to this request for cancellation of product registrations, EPA proposes to include the following provisions for the treatment of any existing stocks of the products listed in Table 1.

As specified in the Memorandum of Agreement, all use, sales and distributions of existing stocks of manufacturing-use products will be prohibited as of December 31, 2012. All sales and distributions of end-use products shall be prohibited as of August 31, 2013. Thereafter, registrants will be prohibited from selling or distributing the products identified in Table 1, except for export consistent with section 17 of FIFRA or for proper disposal. Additionally, all use of existing stocks of the end-use products shall be prohibited as of December 31, 2013.
