dumping margins (calculated as the difference between normal value and EP) for each exporter’s importer or customer by the total number of units the exporter sold to that importer or customer. We will direct CBP to assess the resulting per-unit dollar amount against each unit of merchandise in each of that importer’s/customer’s entries under the relevant order during the review period.

**Constructed Export-Price Sales**

For CEP sales (sampled and non-sampled), we divided the total dumping margins for the reviewed sales by the total entered value of those reviewed sales for each importer. We will direct CBP to assess the resulting percentage margin against the entered customs values for the subject merchandise on each of that importer’s entries under the relevant order during the review period. See 19 CFR 351.212(b).
