NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review; Comment Request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. This is the second notice for public comment; the first was published in the **Federal Register** at 75 FR 4876, and no comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. The full submission may be found at: <http://www.reginfo.gov/public/do/PRAMain>. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725 17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send e-mail to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: International Cover Page Addendum.

OMB Control No.: 3145-0205.

Abstract

The Office of International Science and Engineering within the Office of the NSF Director will use the International Cover Page Addendum. Principal Investigators submitting proposals to this Office will be asked to complete an electronic version of the International Cover Page Addendum. The Addendum requests foreign counterpart investigator/host information and participant demographics not requested elsewhere in NSF proposal documents.

The information gathered with the International Cover Page Addendum serves four purposes. The first is to enable proposal assignment to the program officer responsible for activity with the primary countries involved. No current component of a standard NSF proposal requests this information. (The international cooperative activities box on the standard NSF Cover Page applies only to one specific type of activity, not the wide range of activities supported by OISE.) NSF proposal assignment applications are program element-based and therefore cannot be used to determine assignment by country. The second use of the information is program management. OISE is committed to investing in activities in all regions of the world. With data from this form, the Office can determine submissions by geographic region. Thirdly, funding decisions cannot be made without details for the international partner not included in any other part of the submission process. The fourth section, counts of scientists and students to be supported by the project, are also not available elsewhere in the proposal since OISE budgets do not include participant support costs. These factors are all important for OISE program management.

Estimated Number of Annual Respondents: 600.

Burden on the Public: 150 hours (15 minutes per respondent).

Dated: April 26, 2010.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.
