of a petition, for trade adjustment assistance by three fresh blue crab fishermen in the state of Georgia. The Administrator will determine within 40 days whether or not increasing imports of blue crabs contributed importantly to a greater than 15 percent decrease in the quantity of production of fresh blue crabs compared to the average of the 3 preceding marketing years. If a determination is affirmative, commercial fishermen who land and market fresh blue crabs in Georgia will be eligible to apply to the Farm Service Agency for technical assistance at no cost and cash benefits.

SUPPLEMENTARY INFORMATION

I. Abstract

The USPTO is required by Title 35 of the United States Code, including 35 U.S.C. 131, to examine applications for patents. The USPTO administers the patent statutes through various rules in Chapter 37 of the Code of Federal Regulations, including 37 CFR 1.16 through 1.84. The patent statutes and regulations require applicants to provide sufficient information to allow the USPTO to properly examine the application to determine whether it meets the criteria set forth in the patent statutes and regulations to be issued as a patent.

Most applications for patent, including new utility, design, and provisional applications, can be submitted to the USPTO on paper or through EFS–Web. EFS–Web is the USPTO’s system for electronic filing of patent correspondence. EFS–Web is accessible via the Internet on the USPTO Web site. The system utilizes standard Web-based screens and prompts to enable users to submit patent documents in Portable Document Format (PDF) directly to the USPTO. The Legal Framework for EFS–Web, available at http://www.uspto.gov/patents/process/file/efs/guidance/New_legal_framework.jsp, provides a listing of patent applications and documents permitted to be filed via EFS–Web and patent applications and
