

applied research examining user needs and the effects of new instruments on our disability process and programs.

6. Measurement Considerations

In addition to the research needs described in Recommendation 5, the Panel recommended that we should consider research related to appropriate scales for inclusion in any new instruments that we develop. The Panel further stated that we should use scales that are legally defensible for our needs and focus on observable, discrete, characteristics such as frequency and duration.

7. Communication with Users, the Public & the Scientific Community

The Panel recommended that we use both traditional and emerging government and private media outlets to inform or solicit input from various audiences about all activities regarding the OIS development.

Dated: April 26, 2010.
