burden for this provision is estimated to be 130 hours per year.

Self-employment costs. The regulations at 7 CFR 273.11(b) allow self-employment gross income to be reduced by the cost of producing such income. The regulations allow the State agencies, with approval from FNS, to establish the methodology for offsetting the costs of producing self-employment income, as long as the procedure does not increase program costs. State agencies may submit a request to FNS to use a method of producing a reasonable estimate of the costs of producing self-employment income in lieu of calculating the actual costs for each household with such income. Different methods may be proposed for different types of self-employment. The proposal shall include a description of the proposed method, the number and type of households and percent of the caseload affected, and documentation indicating that the proposed procedure will not increase program costs. State agencies may collect this data from household case records or other sources that may be available.

Estimates of burden: We estimate that 10 State agencies will submit a request of this type each year for the next three years. It is estimated that these States will incur a one-time burden of at least 10 working hours gathering and analyzing data, developing the methodology, determining the cost implication, and submitting a request to FNS for a total burden of 100 hours annually (10 State agencies × 10 working hours = 100 burden hours). State agencies are not required to periodically review their approved methodologies. We do not anticipate that State agencies will voluntarily review their methodologies for change on a regular basis, thus burden is not being assessed for this purpose.

DEPARTMENT OF AGRICULTURE
Forest Service
Huron-Manistee National Forests,
White Pines Wind Farm Project, Mason
County, MI

AGENCY: Forest Service, USDA.
ACTION: Cancellation Notice of notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service proposed to prepare an environmental impact statement for the White Pines Wind Farm Project on National Forest System (NFS) lands managed by the Huron-Manistee National Forests. This project has been cancelled. This cancellation notice terminates the environmental analysis process for the White Pines Wind Farm Project.

DATES: The Notice of Intent to prepare the White Pines Wind Farm Project environmental impact statement was published in the Federal Register on September 12, 2008, Vol. 73, No. 178, page 52945. The draft environmental impact statement was expected May 2009 and the final environmental impact statement was expected December 2009. This project has been cancelled.

FOR FURTHER INFORMATION CONTACT: Patricia O’Connell, Cadillac-Manistee Ranger District, Huron-Manistee National Forests; Manistee Ranger Stations, 412 Red Apple Road, Manistee, MI 49660; telephone: 231–723–2211, ext. 3119; fax: 231–723–8642; e-mail: poconnell@fs.fed.us. Information updating the status of this project can be found on the Forest’s Web site at: http://fs.usda.gov/Internet/FSE_DOCUMENTS/stelprdb5150088.pdf.

Responsible Official
Barry Paulson, Forest Supervisor.
