Background and Purpose

Section 7406 of the Food, Conservation, and Energy Act of 2008 (Pub. L. 110–246) amended subsection 2(b) of the Competitive, Special, and Facilities Research Grant Act (7 U.S.C. 450i(b)) authorizing the Secretary of Agriculture to establish a new competitive grant program to provide funding for fundamental and applied research, extension, and education to address food and agricultural sciences. Subject to the availability of appropriations to carry out this program, the Secretary may award grants to State agricultural experiment stations; colleges and universities; university research foundations; other research institutions and organizations; Federal agencies; national laboratories; private organizations or corporations; individuals; or any group consisting of

two or more of the aforementioned entities. Grants shall be awarded to address priorities in United States agriculture in the following areas: (A) Plant health and production and plant products; (B) Animal health and production and animal products; (C) Food safety, nutrition, and health; (D) Renewable energy, natural resources, and environment; (E) Agriculture systems and technology; and (F) Agriculture economics and rural communities. To the maximum extent practicable, NIFA, in coordination with the Under Secretary for Research, Education, and Economics (REE), will make awards for high priority research, education, and extension, taking into consideration, when available, the determinations made by the National Agricultural Research, Extension, Education, and Economics Advisory Board. The authority to carry out this program has been delegated to NIFA through the Undersecretary for REE.

NIFA is holding a public meeting to obtain comments to consider in developing the Fiscal Year 2011 solicitations for the AFRI competitive grants program. The meeting is open to the public. Written comments and suggestions on issues that may be considered in the meeting may be submitted to the NIFA Docket Clerk at the address above.

Summary of Agriculture and Food Research Initiative

The program authorizes \$700 million in grants for FY 2008–12, of which the Secretary may retain no more than 4% for administrative costs. Funds will be available for obligation for a two-year period beginning in the fiscal year for which funds are first made available. Grants will be awarded on the basis of merit, quality, and relevance and may have terms of up to 10 years.

Of the AFRI funds allocated to research activities, section 7406 directs 60 percent toward grants for fundamental (or basic) research, and 40 percent toward applied research. Of the AFRI funds allocated to fundamental research, not less than 30 percent of AFRI grants will be directed toward research by multidisciplinary teams. In addition, the law specifies that of the total amount appropriated for AFRI, not less than 30 percent is to be used for integrated programs.

Implementation Plans

NIFA plans to consider stakeholder input received from this public meeting as well as other written comments in developing the Fiscal Year 2011 solicitations for this program.

Done at Washington, DC, this 3rd day of May 2010.
