

DEPARTMENT OF EDUCATION**Notice Extending the Deadline Date for Transmittal of Applications and the Deadline Date for Intergovernmental Review for the Migrant Education Program (MEP) Consortium Incentive Grants Program for Fiscal Year (FY) 2010**

AGENCY: Office of Elementary and Secondary Education, Department of Education.

ACTION: Notice Extending the Deadline Date for Transmittal of Applications and the Deadline Date for Intergovernmental Review for the Migrant Education Program (MEP) Consortium Incentive Grants Program for Fiscal Year (FY) 2010.

Catalog of Federal Domestic Assistance (CFDA) Number: 84.144F.

SUMMARY: On April 1, 2010, we published in the **Federal Register** (75 FR 16446) a notice inviting applications for new awards for FY 2010 for the MEP Consortium Incentive Grants program. That notice specified a deadline date of May 7, 2010, for the submission of applications. Since publication, however, we have learned that certain State educational agencies need additional time to receive approval from their State legislatures to apply for the grant. Therefore, in order to give applicants adequate time to receive that approval to apply and to submit their application packages, we are changing the deadline for the submission of applications to June 4, 2010. As a result of this extension of the deadline for submissions of applications, we are also extending the deadline for intergovernmental review to August 4, 2010. Applicants must refer to the April 1, 2010 Application Notice for all other requirements concerning this program. **DATES:** *Deadline for Transmittal of MEP consortium Incentive Grants Program Applications:* June 4, 2010.

Deadline for Intergovernmental Review: August 4, 2010.

I. Background

The Federal Energy Administration Act of 1974 (15 U.S.C. 761 *et seq.*) and the DOE Organization Act (42 U.S.C. 7101 *et seq.*) require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer term domestic demands and to promote sound policymaking, efficient markets, and public understanding of energy and its interaction with the economy and the environment.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501, *et seq.*), provides the general public and other Federal agencies with opportunities to comment on collections of energy information conducted by or in conjunction with the EIA. Also, the EIA will later seek approval for this collection by the Office of Management and Budget (OMB) under Section 3507(a) of the Paperwork Reduction Act of 1995.
