Requests for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points:

(1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility;
(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

For Further Information Contact: To request more information on the proposed project or to obtain a copy of data collection plans and instruments, contact Dr. Gina Wei, Division of Cardiovascular Sciences, NHLBI, NIH, Two Rockledge Center, 6701 Rockledge Drive, MSC 7936, Bethesda, MD, 20892–7936, or call non-toll-free number (301) 435–0456, e-mail your request, including your address to: weig@nhlbi.nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

Suzanne Freeman, NHLBI Project Clearance Liaison, National Institutes of Health.

Michael Lauer, Director, DCVS, National Institutes of Health.

[FR Doc. 2010–10951 Filed 5–7–10; 8:45 am]
National Capitol Area, but during other disasters that involve a Federal Government response. NLM’s Lost People Finder System would collect information, on a voluntary basis, about people who are missing and who are found (recovered) during a disaster. Information on recovered individuals would be gathered voluntarily from medical and relief personnel who either use specialized applications developed by NLM for smart mobile computing and communications devices, such as the iPhone, iPad, Android, or BlackBerry, or submit information to NLM by email via computer or cell phone. The iPhone application developed by NLM enables submission of photographs and descriptive information about found (recovered) victims in a structured format, e.g., name (if available), age category and/or range, gender, general status (healthy, injured), location. Text notes and voice notes that might identify the speaker (victim, or relief workers assisting in the reunification efforts) could also be submitted. Information about missing persons would be submitted by members of the public who are seeking family members, friends, and other loved ones, or could be provided by relief aid workers assisting in reunification efforts. An interactive Web-based system offers the public a tool for searching for people who have been found (e.g., recovered by medical staff and other relief workers) and for voluntarily posting information about people who are still missing. In addition, the system would collect information on a regular basis from other publicly available systems that are used for reunification during a disaster for information (e.g., the Google Person Finder system that was deployed during the 2010 earthquakes in Haiti). Information submitted directly to NLM’s Lost People Finder System would be transferred to other systems that are endorsed by U.S. Government agencies to ensure that users of such systems can search the complete set of available information for their family members and loved ones and to ensure that use of the NLM system in no way interrupts or distracts from the operation or use of other person finder systems. NLM would also use the data to evaluate the functioning and utility of the lost person finder and guide future enhancements to the system. Frequency of Response: The NLM Lost People Finder would be activated only during disasters or emergencies in which U.S. Government agencies are called to contribute to relief efforts. It would operate until cessation of relief efforts. During this period of time, information on found persons would be submitted by first-responders, medical, and other relief personnel on an ad-hoc basis, possibly several times per day. Information about missing persons would be submitted voluntarily by members of the public (i.e., those who are seeking family members, friends, and other loved ones) on an ad-hoc basis, once or twice during the disaster. Affected Public: Individuals or households. Type of Respondents: Emergency Care First-Responders, Physicians, and Other Health Care Providers who have found (recovered) people, and family members seeking a missing person. Estimate of burden: The annual reporting burden is as follows:

<table>
<thead>
<tr>
<th>Types of respondents</th>
<th>Estimated number of respondents</th>
<th>Estimated number of responses per respondent</th>
<th>Average burden hours per response</th>
<th>Estimated total annual burden hours requested</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emergency Care First-Responders, Physicians, Other Health Care Providers</td>
<td>500</td>
<td>100</td>
<td>0.08</td>
<td>4,000</td>
</tr>
<tr>
<td>Family members seeking a missing person</td>
<td>50,000</td>
<td>2</td>
<td>0.08</td>
<td>8,000</td>
</tr>
<tr>
<td>Total</td>
<td>50,500</td>
<td></td>
<td></td>
<td>12,000</td>
</tr>
</tbody>
</table>

The annualized cost to respondents for each year of the clearance is estimated to be $293,120.

There are no Capital Costs, Operating Costs, and/or Maintenance Costs to report.

Request For Comments: Written comments and/or suggestions from the public and affected agencies should address one or more of the following points: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Direct Comments to OMB: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, OIRA_submission@omb.eop.gov or by fax to 202–395–6974, Attention: Desk
DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Comment Request

**Title**: Community Services Block Grant (CSBG) Program Model Plan Application.

**OMB No.**: New Collection.

**Description**: Sections 676 and 677 of the Community Services Block Grant Act require States, including the District of Columbia and the Commonwealth of Puerto Rico, Tribes, Tribal organizations and U.S. territories applying for Community Services Block Grant (CSBG) funds to submit an application and plan (Model Application Plan). The application plan must meet statutory requirements prior to being funded with CSBG funds. Applicants have the option to submit a detailed application annually or biannually. Entities that submit a biannual application must provide an abbreviated application the following year if substantial changes to the initial application will occur. OMB approval is being sought.

**Estimated Total Annual Burden Hours**: 860

**Additional Information**: Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Administration, Office of Information Services, 370 L’Enfant Promenade, SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. All requests should be identified by the title of the information collection. E-mail address: infocollection@acf.hhs.gov.

**OMB Comment**: OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the Federal Register. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, Fax: 202–395–7285, E-mail: OIRA_SUBMISSION@OMB.EOP.GOV, Attn: Desk Officer for the Administration for Children and Families.

Robert Sargis,
Reports Clearance Officer.
