The more specific your comments, the more useful they will be. To ensure that your comments are properly recorded and considered prior to a Commission decision on the proposal, it is important that the FERC receives your comments in Washington, DC on or before July 29, 2010.

For your convenience, there are three methods you can use to submit your comments to the Commission. In all instances please reference the project docket number (CP10-16-000) with your submission. Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1A, Washington, DC 20426.

Although your comments will be considered by the Commission, simply filing comments will not serve to make the commentator a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).¹ Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your comments considered.

Columbia Gas Transmission, LLC; Notice of Request Under Blanket Authorization

May 4, 2010.

Take notice that on April 22, 2010, Columbia Gas Transmission, LLC (Columbia), 5151 San Felipe, Suite 2500, Houston, Texas 77056 filed in Docket No. CP10-164-000, a prior notice request pursuant to sections 157.205 and 157.208 of the Commission’s regulations under the Natural Gas Act (NGA). Columbia seeks authorization to increase the Commission-approved maximum allowable operating pressure (MAOP) on its Line D-531 from 80 pounds per square inch gage (psig) to 99 psig. Line D-531 is located in Wood County, Ohio, and extends from Columbia’s Line D-100 to Waterville Gas & Oil Company’s (Waterville) facilities in Wood County, Ohio. Columbia proposes to perform these activities under its blanket certificate issued in Docket No. CP83-76-000 [22 FERC ¶ 62,029 (1983)], all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, the facility at issue (Line D-531) is an approximately 2.5-mile, 4- and 6-inch diameter pipeline extending from Columbia’s Line D-100 to an interconnect with Waterville’s facilities in Wood County, Ohio. Line D-531 was originally constructed in the 1950s with sections being replaced in 1961, 1963, and 1965. The facilities were originally constructed to serve the City of Waterville and have continued in that operation since they were constructed. Columbia proposes to up-rate the entire pipeline. The proposed increase to the Commission-approved MAOP of Line D-531 is being made to enable Columbia to meet a contractual pressure obligation to Waterville.
