*What information does the final strategy contain?*

The Executive Order directed federal agencies to develop a strategy that (a) defines environmental goals for the Chesapeake Bay and describes milestones for making progress toward attainment of these goals; (b) identifies key measurable indicators of environmental condition and changes that are critical to effective federal leadership; (c) describes the specific programs and strategies to be implemented; (d) identifies the mechanisms that will assure that governmental and other activities, including data collection and distribution, are coordinated and effective; and (e) describes a process for the implementation of adaptive management principles, including a periodic evaluation of protection and restoration measures.

For the final strategy, federal agencies have focused on achieving the most essential priorities for a healthy Chesapeake ecosystem: Restore Clean Water, Recover Habitats, Sustain Fish and Wildlife, and Conserve Land and Increase Public Access. Chapters on each of these goals describe the overall goal and explain why it is vital to the Chesapeake Bay ecosystem. Specific measures of progress supporting the goal, including numerical targets for future progress compared to current conditions, are also presented. Each chapter also includes a description of the actions federal agencies will take to accomplish the goal.

Federal agencies also developed 12 key environmental outcomes that will be achieved through expanded federal actions described in the strategy and ongoing state activities, and will reflect progress toward attainment of the overall goals. The environmental outcomes are related to water quality,

stream restoration, agriculture conservation, wetland restoration, forest buffers, fish passage, oysters, blue crabs, brook trout, black ducks, land conservation, and public access.

The strategy also features four chapters on supporting strategies that provide invaluable cross-cutting support to achieving environmental goals or are critical complementary efforts in the restoration and protection of the Chesapeake Bay and watershed. The supporting strategy chapters are: Expand Citizen Stewardship, Develop Environmental Markets, Respond to Climate Change, and Strengthen Science.

The final chapter of the strategy outlines the role and responsibilities of the Federal Leadership Committee in implementing the strategy, as well as the federal government's commitment to increase accountability by establishing milestones every two years for taking action. The final chapter also outlines a series of accountability tools and processes to promote transparency in the planning, tracking, reporting, evaluating and adapting of restoration activities. These tools include an Annual Action Plan, an Annual Progress Report, Independent Evaluation, and an Adaptive Management process.

*What are the next steps in responding to EO 13508?*

After release of this final strategy, the Federal Leadership Committee will implement the actions described in the strategy. The Federal Leadership Committee will continue to work with the jurisdictions in the Chesapeake Bay watershed to better align actions to protect and restore the Chesapeake Bay.

EO 13508 also requires the Federal Leadership Committee to publish an annual Chesapeake Bay Action Plan describing how federal funding proposed in the President's Budget will be used to protect and restore the Chesapeake Bay during the upcoming fiscal year. The Federal Leadership Committee plans to release the first annual Chesapeake Bay Action Plan in early fall 2010.

EO 13508 also requires the Federal Leadership Committee to publish an annual Progress Report reviewing indicators of environmental conditions in the Chesapeake Bay, assessing implementation of the Action Plan during the preceding fiscal year, and recommending steps to improve progress in restoring and protecting the Chesapeake Bay. The Federal Leadership Committee plans to release the first annual Progress Report in the first quarter of calendar year 2012.

The Federal Leadership Committee plans to consult with state agencies, local governments, other stakeholders, and the general public in the development of the annual Action Plan and Progress Report. The details of this consultation process will be made available at <http://executiveorder.chesapeakebay.net>.

### Product Cancellation Order for Certain Pesticide Registrations

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a February 3, 2010 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 2 to voluntarily cancel these product registrations. The Agency received comments on the notice but none merited its further review of the requests. The registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

**DATES:** The cancellations are effective May 11, 2010.

### III. Summary of Public Comments Received and Agency Response to Comments

During the 30-day comment period, EPA received one comment from BioSpotVictims.org commending the registrants for cancelling the products listed in Table 1 and urging the Agency to reassess the risks of all pyrethroid-based spot-on products for pets. Since the comment was in favor of these cancellations, the Agency does not believe that the requests for voluntary cancellation merit further review or denial.

### IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested cancellations of the registrations identified in Table 1. Accordingly, the Agency hereby orders that the product registrations identified in Table 1 are canceled. The effective date of the cancellations that are subject of this notice is May 11, 2010. Any distribution, sale, or use of existing stocks of the products identified in Table 1 in a manner inconsistent with any of the Provisions for Disposition of Existing Stocks set forth in Unit VI. will be a violation of FIFRA.

### V. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request. The notice of receipt for this action was published for comment on February 3, 2010 (75 FR 5644). The comment period closed on March 5, 2010.

## VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provision for the pesticides subject to this order is as follows.

The registrants may continue to sell and distribute existing stocks of products listed in Table 1 until May 11, 2011, which is 1 year after the publication of the Cancellation Order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1, except for export in accordance with section 17 of FIFRA, or proper disposal. Persons other than the registrant may sell, distribute, or use existing stocks of products listed in Table 1 until existing stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.
