Animal and Plant Health Inspection Service

[Docket No. APHIS-2009-0097]

Notice of Decision to Issue Permits for the Importation of Fresh Pomegranates and Baby Kiwi from Chile into the United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public of our decision to begin issuing permits for the importation into the continental United States of fresh pomegranates and fresh baby kiwi from Chile. Based on the findings of pest risk analyses, which we made available to the public for review and comment through a previous notice, we believe that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh pomegranates and fresh baby kiwi from Chile.

EFFECTIVE DATE: May 12, 2010.

FOR FURTHER INFORMATION CONTACT: For information concerning pomegranates from Chile, contact Mr. Tony Román, Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1236; (301) 734-5820.

For information concerning baby kiwi fruit from Chile, contact Mr. David B. Lamb, Import Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1236; (301) 734-0627.

SUPPLEMENTARY INFORMATION: Under the regulations in "Subpart-Fruits and Vegetables" (7 CFR 319.56 through 319.56-50, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into and spread within the United States.

Section 319.56-4 of the regulations contains a performance-based process for approving the importation of commodities that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the designated phytosanitary measures listed in paragraph (b) of that section. Under that process, APHIS publishes a notice in the **Federal Register** announcing the availability of the pest risk analysis that evaluates the risks associated with the importation of a particular fruit or vegetable. Following the close of the 60-day comment period, APHIS may begin issuing permits for importation of the fruit or vegetable subject to the identified designated measures if: (1) No comments were received on the pest risk analysis; (2) the comments on the pest risk analysis revealed that no changes to the pest risk analysis were necessary; or (3) changes to the pest risk analysis were made in response to public comments, but the changes did not affect the overall conclusions of the analysis and the Administrator's determination of risk.

In accordance with that process, we published a notice¹ in the **Federal Register** on February 9, 2010 (75 FR 6344-6345, Docket No. APHIS-2009-0097), in which we announced the availability, for review and comment, of two pest risk analyses that evaluate the
