DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648–XW36

Endangered Species; File No. 1596

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for modification

SUMMARY: Notice is hereby given that NMFS Southwest Fisheries Science Center (SWFSC) [Responsible Party: Lisa Balance], 3333 N. Torrey Pines Ct., La Jolla, CA 92037, has requested a modification to scientific research Permit No. 1596–02. The requested modification to Permit No. 1596–02, issued on July 29, 2009 (74 FR 38585), is requested under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

PERMIT NO. 1596–02 authorizes the SWFSC to capture, measure, weigh, blood and tissue sample, photograph, flipper and PIT tag, fat biopsy, ultrasound, satellite tag, and attach a VHF/TDR/sonic tag/video system, VHR/TDR/sonic tag/GPS unit, or VHR/TDR/sonic tag/GPS/video camera system to leatherback (Dermochelys coriacea) sea turtles during research activities conducted off the western coast of the continental United States. Animals with the video camera system may be re-approached to collect the unit and then sampled, tagged, and have another video camera unit attached. The SWFSC requests authorization to use a direct tag attachment method in place of previously authorized harness attachments. These tags would provide valuable information on leatherback movements and behavior in the Pacific Ocean between their foraging areas and nesting beaches. No increase in the number of animals taken is requested. The research would continue to occur in waters off the coast of the western United States through February 1, 2012.

FOR FURTHER INFORMATION CONTACT: Amy Hapeman or Kate Swails, (301) 713–2289.

SUPPLEMENTARY INFORMATION: The subject modification to Permit No. 1596–02, issued on July 29, 2009 (74 FR 38585), is requested under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

Dated: May 6, 2010.

P. Michael Payne,
Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

Endangered Species; File No. 10022

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit modification.

SUMMARY: Notice is hereby given that Raymond Carthy, Department of Wildlife Ecology and Conservation, University of Florida, P.O. Box 110485, Gainesville, FL 23611–0450 has been issued a modification to scientific research Permit No. 10022.

ADDRESSES: The modification and related documents are available for review upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 713–2289; fax (301) 713–0376; and Southeast Region, NMFS, 263 13th Ave South, St. Petersburg, FL 33701; phone (727) 824–5312; fax (727) 824–5309.

FOR FURTHER INFORMATION CONTACT: Amy Hapeman or Kate Swails, (301) 713–2289.

SUPPLEMENTARY INFORMATION: On September 30, 2009, notice was published in the Federal Register (74 FR 50172) that a modification of Permit No. 10022, issued April 23, 2008 (73 FR 23105), had been requested by the above-named individual. The requested modification has been granted under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

Permit No. 10022 authorizes researchers to capture loggerhead (Caretta caretta), green (Chelonia mydas), and Kemp’s ridley (Lepidochelys kempii) sea turtles using strike-net or set-net capture techniques off the northwest coast of Florida.

Dated: May 6, 2010.

[FR Doc. 2010–11336 Filed 5–11–10; 8:45 am]
Animals may be weighed, measured, photographed, skin biopsied, flipper and passive integrated transponder (PIT) tagged, and released. The modification authorizes the permit holder to use satellite telemetry to assess habitat use of sea turtles and study whether relocation distances for sea turtles captured in relocation trawlers are appropriate. The permit holder may attach transmitters to up to 12 green sea turtles captured by their project by research nets in St. Joseph Bay, Apalachicola Bay, and St. Andrews Bay and attach transmitters to up to 25 green, hawksbill (Eretmochelys imbricata), Kemp’s ridley, and loggerhead sea turtles (any combination) already legally captured by relocation trawlers in the St. Andrews Bay area. These animals may also be flipper and PIT tagged, measured, photographed, tissue sampled and weighed before release. The permit is valid through April 30, 2013.

Issuance of this modification, as required by the ESA was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of such endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: May 6, 2010.

Carbazole Violet Pigment 23 from India: Extension of Time Limit for Final Results of Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: May 12, 2010.

FOR FURTHER INFORMATION CONTACT: Myrna Lobo or Elfi Blum, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington DC 20230; telephone: (202) 482–2371 or (202) 482–0197, respectively.

SUPPLEMENTARY INFORMATION:

Background

On January 7, 2010, the Department of Commerce (the Department) published the preliminary results of the administrative review of the countervailing duty order on carbazole violet pigment 23 (CVP–23) from India. See Carbazole Violet Pigment 23 from India: Preliminary Results of Countervailing Duty Administrative Review, 75 FR 977 (January 7, 2010). This administrative review covers the period January 1, 2007 through December 31, 2007. This review covers only one producer/exporter of the subject merchandise to the United States, Alpanil Industries Ltd. (Alpanil). On February 12, 2010, the Department issued a memorandum revising all case deadlines. As explained in the memorandum from the Deputy Assistant Secretary for Import Administration, the Department exercised its discretion to toll deadlines for the duration of the closure of the Federal Government from February 5 through February 12, 2010. See Memorandum to the Record from Ronald Lorentzen, DAS for Import Administration, Tolling of Administrative Deadlines As a Result of the Government Closure During the Recent Snowstorm, dated February 12, 2010, a public document on file in the Department’s Central Records Unit (CRU) in Room 1117 of the main Department building. Thus, all deadlines in all proceedings were extended by seven days. Consequently, the deadline for the final results of this review was revised from May 7, 2010 to May 14, 2010.

Extension of Time Limit for Final Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(h)(1), the Department shall issue final results in an administrative review of a countervailing duty order within 120 days after the date on which notice of the preliminary results was published in the Federal Register. However, if the Department determines that it is not practicable to complete the review within the time limits, section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2) allow the Department to extend the 120–day period up to 180 days.

Pursuant to section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2), we determine that it is not practicable to complete the results of this review within the original time limit. The Department had to request additional information from Alpanil after the preliminary results. Consequently, the Department needs additional time to analyze this information and to consider comments filed by the parties. In accordance with section 751(a)(3)(A) of the Act, we have determined that the time for the final results will now be due no later than June 8, 2010. This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: May 6, 2010.

John M. Andersen, Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Seamless Refined Copper Pipe and Tube from the People’s Republic of China: Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination

AGENCY: Import Administration, International Trade Administration, Department of Commerce

DATES: Effective Date: May 12, 2010.

SUMMARY: The Department of Commerce (the “Department”) has preliminarily determined that seamless refined copper pipe and tube (“copper pipe and tube”) from the People’s Republic of China (“PRC”) is being, or is likely to be, sold in the United States at less than fair value (“LTFV”), as provided in section 733 of the Tariff Act of 1930, as amended (the “Act”). The estimated dumping margins are shown in the “Preliminary Determination” section of this notice. Interested parties are invited to comment on the preliminary determination.

FOR FURTHER INFORMATION CONTACT: Karine Gziryan or Shawn Higgins, AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482–4081 and (202) 482–0679, respectively.

SUPPLEMENTARY INFORMATION:

Background

On September 30, 2009, the Department received a petition concerning imports of copper pipe and tube from the PRC and Mexico filed in
