Centers for Disease Control and Prevention

[30Day-10-0539]

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Estimating the Capacity for National and State-Level Colorectal Cancer Screening through a Survey of Endoscopic Capacity (SECAP II)(OMB No. 0920-0539, exp. 3/31/2003)—Reinstatement with Change—Division of Cancer Prevention and Control, National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Colorectal cancer (CRC) is the second leading cause of cancer-related deaths in the United States (U.S.). Most colorectal cancers develop from pre-existing growths, or polyps, which slowly transform into cancers over a period of 10-20 years. As a result, CRC is ideally suited for prevention and early detection through regular screening. Recommended screening procedures include flexible sigmoidoscopy and colonoscopy, which allow qualified medical professionals to identify and remove polyps as well as to detect early cancers. Information regarding the capacity of the U.S. health care system to provide lower GI endoscopic procedures is critical to planning widespread CRC screening programs.

CDC requests OMB approval to reinstate a previously approved data collection, formerly entitled the *National Survey of Endoscopic Capacity (SECAP)* (OMB No. 0920-0539, exp. 3/31/2003), to obtain a current estimate of the number of colorectal cancer screening and follow-up tests being performed, as well as the maximum number of screening and follow-up tests that could be performed in the event of widespread screening. In addition, the reinstatement request describes a plan to conduct state-specific surveys in up to 18 selected states. Similar surveys were conducted in 15 selected states from 2003 to 2005, and provided estimates of endoscopic screening capacity at state and sub-state levels (*State Survey of Endoscopic Capacity*, OMB No. 0920-0590, exp. 6/30/2006). However, in light of recent trends in colorectal cancer screening (e.g., increases in the percentage of public and private insurers that reimburse for screening colonoscopy, increased use of colonoscopy and decreased use of flexible sigmoidoscopy, availability of other colorectal cancer screening procedures), there is a need to update estimates of endoscopic capacity to guide continued screening initiatives.

OMB approval is requested for three years. The proposed national survey will be conducted in 2010-2011 and
