DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Intent to Rule on Request for a Change in Use of Aeronautical Property at the Williamsport Regional Airport, Williamsport, PA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of request for a Change in Use of Aeronautical Property.

SUMMARY: The FAA proposes to rule and invite public comment for a change in airport property from aeronautical use to non-aeronautical use at the Williamsport Regional Airport, Williamsport, Pennsylvania. On April 16, 2010, the FAA determined that the request to change airport property from aeronautical use to non-aeronautical use at the Williamsport Regional Airport, submitted by the Williamsport Municipal Airport Authority (Authority) met the procedural requirements. The following is a brief overview of the request:
The Williamsport Regional Airport Authority (Authority) requests the change of real property totaling 24.37 acres, of aeronautical airport property to non-aeronautical property. The property is located on the northwest corner of the airport property. The property caused by enhanced screening of mail threading, storage and shipping to sites in the northeastern United States. The proposed use of the subject property is compatible with the airport operations. Any proceeds from the lease of property are to be used for the capital and operating costs of the airport.

DATE: Comments must be received on or before June 14, 2010.

ADDRESSES: Comments on this application may be mailed or delivered to the following address: Thomas J. Hart, Executive Director, Williamsport Municipal Airport Authority, Williamsport Regional Airport, 700 Airport Road, Montoursville, PA 17754; and at the FAA Harrisburg Airports District Office: Lori K. Pagnanelli, Manager, Harrisburg Airports District Office, 3905 Hartzdale Dr., Suite 508, Camp Hill, PA 17011.

FOR FURTHER INFORMATION CONTACT: Rick Harner, Program Manager Harrisburg Airports District Office location listed above.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invite public comment for a change in airport property from aeronautical use to non-aeronautical use at the Williamsport Regional Airport, Williamsport, Pennsylvania. On April 16, 2010, the FAA determined that the request to change airport property from aeronautical use to non-aeronautical use at the Williamsport Regional Airport, submitted by the Williamsport Municipal Airport Authority (Authority) met the procedural requirements. The following is a brief overview of the request:
The Williamsport Regional Airport Authority (Authority) requests the change of real property totaling 24.37 acres, of aeronautical airport property to non-aeronautical property. The property is located on the northwest corner of the airport property. The property caused by enhanced screening of mail threading, storage and shipping to sites in the northeastern United States. The proposed use of the subject property is compatible with the airport operations. Any proceeds from the lease of property are to be used for the capital and operating costs of the airport.

Any person may inspect the request by appointment at the FAA office address listed above. Interested persons are invited to comment on the proposed release from obligations. All comments will be considered by the FAA to the extent practicable.

Lori K. Pagnanelli, Manager, Harrisburg Airports District Office.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Solicitation of Applications and Notice of Funding Availability for the FRA Railroad System Issues Research and Development Program

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of funding availability; solicitation for applications.

SUMMARY: Under this Notice, the FRA is soliciting applications from interested and responsible parties for two grants: (1) To conduct a Locomotive Biofuel Study, and (2) to conduct a Study of the Use of Bio-based Technologies (Lubricants) that can be used in locomotives, rolling stock and other rail equipment.

DATES: FRA will accept applications for these grant opportunities until June 7, 2010.

ADDRESSES: Applications must be submitted electronically to http://www.grants.gov (“Grants.gov”). Grants.gov allows organizations electronically to find and apply for competitive grant opportunities from all Federal grant-making agencies. Any entity wishing to submit an application pursuant to this notice should immediately initiate the process of registering with Grants.gov at http://www.grants.gov. For application materials that an applicant is unable to submit via Grants.gov, applicants may submit an original and two (2) copies to the Federal Railroad Administration at the following address: Federal Railroad Administration, Attention: Melissa Shurland, Office of Research and Development, Mail Stop 20, Room W36–429, 1200 New Jersey Avenue, SE., Washington, DC 20590. Due to delays caused by enhanced screening of mail delivered via the U.S. Postal Service, applicants are encouraged to use other means to assure timely receipt of materials.

FOR FURTHER INFORMATION CONTACT: Melissa Shurland, Office of Research and Development, Federal Railroad Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; Phone: (202) 493–1316 or Jennifer Capps, Grants Officer, Office of Acquisition and Grants Services (RAD–50), Federal Railroad Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; Phone: (202) 493–0112.

SUPPLEMENTARY INFORMATION: Title IV, Section 404 of the Passenger Rail Investment and Improvement Act, 2008 (Division B of Pub. L. 110–432) authorized the FRA, in consultation with the Secretary of Energy and Administrator of the Environmental Protection Agency, to conduct a “Locomotive Biofuel Study.” This study will focus on determining the extent to which freight railroads, Amtrak, and other passenger rail operators could use biofuel blends to power locomotives and other vehicles that can operate on diesel fuel, as appropriate. Additionally, Section 405 of the Passenger Rail...
Investment and Improvement Act, 2008 (Division B of Pub. L. 110–432) authorized the FRA to conduct a “Study of the Use of Bio-based Technologies.” The study will focus on the feasibility of using readily biodegradable lubricants for freight and passenger railroad locomotives, rolling stock, or other equipment. The two grants, “Locomotive Biofuel Study” and the “Study of the Use of Bio-based Technologies,” together, will be funded from other sources that is committed by a grantee as part of a grant agreement, must be sufficient to complete the funded project.

Schedule for Locomotive Biofuel Study and the Study of the Use of Bio-based Technologies: FRA will begin accepting grant applications immediately. Applicants must specify the specific grant for which they are applying, i.e. “Locomotive Biofuel Study,” or the “Study of the Use of Bio-based Technologies.” Applications must be submitted by Monday, June 7, 2010. Due to the limited funding available under this program: (1) Applicants are encouraged to submit their applications at the earliest date practicable in order to maximize the consideration of their application in the competition; and (2) FRA may request that an applicant submit a revised application reflecting a refined scope of work and budget. FRA anticipates making the first award(s) pursuant to this notice during FY 2010.

Eligible Participants: For the locomotive biofuel study, any responsible entity with knowledge of biofuel blends and their applicable use as fuel for locomotives, and the ability to determine and/or analyze the energy content, specification and chemical properties of biofuel, is eligible to apply. Eligible participants must show their ability to conduct dynamic tests of locomotive to acquire fuel consumption, engine wear, and emissions, of various biofuel blends.

Section 405 provides that FRA work with an agricultural-based lubricant testing facility or facilities to complete the study of the use of bio-based lubricants. Eligible participants for the bio-based lubricant study must be knowledgeable and experienced in research, development and testing of bio-based lubricants, knowledge of petroleum-based lubricant use in railroad, and the ability to conduct accurate analyses of biodegradability, and the health and safety impact, including fire safety of lubricants. Additionally, the applicant must show ability to conduct dynamic test of the bio-based lubricants in railroad equipment.

Dynamic testing of the biofuel blends and bio-based lubricants can be accomplished in collaboration with a third party, but any such third party must be identified in the grant application proposed statement of work.

Eligible Projects: Eligible projects must be for the primary benefit of determining the feasibility of utilizing biofuel blends or bio-based lubricants in locomotive, rolling stock and other rail equipment. Only new projects will be eligible; projects that have either
commenced before the time of award or have been completed will not be considered. Matching funding must be in the form of new financial commitments toward the proposed project by the applicant and/or its partners.

Selection Criteria: The following will be considered to be positive selection factors in evaluating applications for grants under this program: (1) The ability of the proposed project to result directly in evaluating the effectiveness of biofuel blends and bio-based lubricants as an alternative to petroleum-based fuels and lubricants, including, but not limited to, testing and analyses of the biofuel blends or bio-based lubricants to perform in accordance with railroad industry standards; (2) comparison of biofuel blends or bio-based lubricant with petroleum-based lubricants in relation to their environmental, health and safety impact, and the effects of the biofuel blends or bio-based lubricants on the equipment parts and components; (3) the ability to conduct dynamic testing of the biofuel blends or bio-based lubricant in railroad equipment in controlled environment and/or revenue service conditions; and (4) the ability to provide matching funds or in-kind contributions, which can be provided by a third party; however, the grantee is responsible for ensuring their availability.

Requirements for Grant Applications: The following points describe the minimum content which will be required in grant applications. These requirements may be satisfied through a narrative statement submitted by the applicant, supported by spreadsheet documents, tables, drawings, and other materials, as appropriate. Each grant application will: (1) Designate a point of contact for the applicant, including phone number, mailing address and e-mail address. (2) Include a complete Standard Form 424, "Application for Federal Assistance," and, as applicable, Standard Form 424B, "Assurances—Non-Construction Programs." Also include signed copies of FRA’s Additional Assurances and Certifications, available at http://www.fra.dot.gov/downloads/admin/assurancesandcertifications.pdf. (3) Identify and provide background information on the bio-based lubricant technology, its application(s), and benefits. (4) Define the scope of work for the proposed project and the anticipated project schedule. Describe the proposed project’s physical location (as applicable). (5) Present a detailed budget for the proposed project. At a minimum, the budget should separate total cost of the project into the following categories: (a) Direct Costs (such as labor, materials, equipment and/or procurement fees, engineering fees, testing facilities fees, actual testing fees, and inspection fees); (b) Other Direct Costs (such as travel); and (c) General and Administrative Costs.

Format: Excluding spreadsheets, drawings, and tables, the narrative statement for grant applications may not exceed fifty pages. All application materials should be submitted as attachments through Grants.Gov. Spreadsheets consisting of budget or financial information should be submitted via Grants.Gov as Microsoft Excel (or compatible) documents.

Issued in Washington, DC, on May 7, 2010.
Paul Nissenbaum,
Acting Associate Administrator, Railroad Policy and Development, Federal Railroad Administration.

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

Public Transportation on Indian Reservations Program; Tribal Transit Program

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice of Funding Availability: Solicitation of Grant Proposals for FY 2010 Tribal Transit Program Funds.

SUMMARY: This notice announces the availability of $15,074,963 million in funding provided by the Public Transportation on Indian Reservations Program (Tribal Transit Program (TTP)), a program authorized by the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA–LU), Section 3013(c). This notice is a national solicitation for grant proposals and it includes the selection criteria and program eligibility information for FY 2010 projects.

This announcement is available on the FTA Web site at: http://www.fta.dot.gov. FTA will announce final selections on the Web site and in the Federal Register. A synopsis of the funding opportunity will be posted in the FIND module of the government-wide electronic grants Web site at http://www.grants.gov. Applicants proposing projects for funding under TTP may apply through GRANTS.GOV or via e-mail at fta.tribalprogram@dot.gov. Those who apply via GRANTS.GOV should receive two confirmation e-mails. The first will confirm that the application was received and a subsequent e-mail will be sent within 24–48 hours indicating whether the application was validated or rejected by the system.

DATES: Complete proposals for the discretionary program announced in this Notice must be submitted by June 28, 2010.

ADDRESSES: Proposals must be submitted electronically through the GRANTS.GOV Web site. Anyone intending to apply electronically through GRANTS.GOV should initiate the process of registering on the GRANTS.GOV site immediately to ensure completion of registration before the deadline for submission. Applicants applying for funding under the Tribal Transit Program may apply through GRANTS.GOV or via e-mail at fta.tribalprogram@dot.gov.

To apply for funding through GRANTS.GOV, applicants must be properly registered. Complete instructions on how to register and submit applications can be found at http://www.grants.gov. If interested parties experience difficulties at any point during the registration or application process, please call the GRANTS.GOV Customer Support Hotline at 1–800–518–4726, Monday–Friday from 7 a.m. to 9 p.m. EST. Registering with GRANTS.GOV is a one-time process; however, processing delays may occur and it can take up to several weeks for first-time registrants to receive confirmation and a user password. It is highly recommended that applicants start the registration process as early as possible to prevent delays that may preclude submitting an application by the deadlines specified. Applications will not be accepted after the relevant due date; delayed registration is not an acceptable reason for extensions. Accordingly, you are urged to submit your application at least 72 hours prior to the due date of the application to allow time to receive the validation message and to correct any problems that may have caused a rejection notification.

FOR FURTHER INFORMATION CONTACT: Contact the appropriate FTA Regional Administrator (Appendix A) for proposal-specific information. For general program information, contact Lorna Wilson, Tribal Transit Program, (202) 366–6893, e-mail: lorna.wilson@dot.gov. A TDD is available at 1–800–877–8339 (TDD/FRS).
