**Marquette Board of Light and Power; Notice of Availability of Environmental Assessment**

May 6, 2010.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission) regulations (18 CFR part 380), the Office of Energy Projects has prepared an Environmental Assessment (EA) regarding Marquette Board of Light and Power's plan to repair the Tourist Park Dam of the Marquette Hydroelectric Project (FERC No. 2589) located on the Dead River in Marquette County, Michigan. This EA concludes that the proposed repair, with staff's recommended mitigation measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
