Type of Review: Reinstatement.

Title: 2011-12 National

Postsecondary Student Aid Study (NPSAS:12) Field Test.

Frequency: Annually.

Affected Public: Business or other for-profit; Individuals or households; Not-for-profit institutions.

Reporting and Recordkeeping Hour Burden:

Responses: 616.

Burden Hours: 576.

Abstract: NPSAS, a nationally representative study of how students and their families finance education beyond high school, was first implemented by National Center for Education Statistics (NCES) in 1987 and has been fielded every 3 to 4 years since. This submission is for the eighth cycle in the series, NPSAS:12, and requests reinstatement of the previously obtained clearance for NPSAS:08 (OMB No. 1850-0666 v.4). NPSAS: 12 will also serve as the base year study for the Beginning Postsecondary Students Longitudinal Study (BPS) of first-time postsecondary students that will focus on issues of persistence, degree attainment, and employment outcomes. Following the field test study in 2010, NCES will submit an OMB clearance package for the full scale. The NPSAS: 12 field test sample will include about 225 institutions (full-scale sample about 1,670) and about 4,500 students (120,000 full-scale). Institution contacting for the field test will begin in September 2010 and list collection will be conducted January through May 2011 (full-scale institution contacting will begin in September 2011 and student lists will be collected January through June 2012). A separate package to request clearance for student data collection (interviews and institution record data) will be submitted in September 2010. The main changes since the last NPSAS collection in 2008 consist of a new cohort of the Beginning Postsecondary Students Longitudinal Study (BPS) which will conduct follow-up studies in 2014 and 2017, and revised strata for institution sampling to reflect the recent growth in enrollment in for-profit 4-year institutions.
