

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0398.

Title: Sections 2.948 and 15.117(g)(2), Equipment Authorization Measurement Standards.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 725 respondents; 725 responses.

Estimated Time Per Response: 5 – 30 hours.

Frequency of Response: On occasion and other three year reporting requirements and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 4(i), 302, 303(c), 303(f), 303(g), 303(r), and 309(a).

Total Annual Burden: 21,160 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality:

There is minimal exemption from the Freedom of Information Act (FOIA), 5 U.S.C. 552(b)(4), and 47 CFR 0.459(d) of the Commission's rules, that is granted for trade secrets, which may be submitted to the Commission as part of the documentation of the test results. No other assurances of confidentiality are provided to respondents.

Needs and Uses: The Commission will submit this information collection as a revision to the Office of Management and Budget (OMB) after this comment period to obtain the full three year clearance from them. There is a change in the Commission's burden estimates. The 60 hour program change increase is due to the new reporting requirement which is discussed further below. There is also a 12,000 hour adjustment increase in burden which

reflects the significant number of laboratories filing test site descriptions. This increase has been observed in the recent past, and is in large part due to Mutual Recognition Agreements (MRAs) signed with various foreign economic entities, by testing facilities filing site descriptions under Section 2.948, prior to submittal of equipment for authorization.

The revision for this information collection is as follows: On September 14, 2009, the Commission's Office of Engineering and Technology (OET) identified and requested comment on certain types of information that an applicant should provide to be considered an accreditation body of test laboratories under the Commission's rules, see DA 09-2049. Under the Commission's rules, section 2.948(d) sets forth the requirements for accreditation bodies seeking recognition from the FCC as a laboratory accreditation body. Accreditation bodies seeking such recognition from the Commission must file a report of their qualifications with the OET. They are only required to file this information once. The Commission currently has two recognized accreditation bodies, and is about to recognize a third. Additional accreditation bodies may be recognized.

The currently OMB-approved requirements for this information collection requires that each Electro-Magnetic Compatibility (EMC) testing facility that performs equipment testing in support of any request for equipment authorization to file a test site description, either with the Commission or with a Commission-approved accrediting body.

The test site description and the supporting information documents that the EMC testing facility complies with the testing standards used to make the measurements that support any request for equipment authorization.

In addition, the referenced 47 CFR Part 15 rules require that equipment manufacturers insert in their files a statement explaining the basis on which it relies to ensure that at least 97.5% of all production units of the test sample that are manufactured have a noise figure of no greater than 14 dB.

The Commission or the accrediting body uses the information from these test sites and supporting documentation, which accompany all requests for equipment authorization: 1) to ensure that the data are valid and that proper testing procedures are used;

2) to ensure that potential interference to radio communications is controlled; and

3) to investigate complaints of harmful interference or to verify the manufacturer's compliance with 47 CFR rule sections 2.948 and 15.117(g)(2) of the Commission's rules.

SUPPLEMENTARY INFORMATION:

1. **Title:** Application for Consent to Exercise Trust Powers.

OMB Number: 3064-0025.

Form Number: FDIC 6200/09.

Frequency of Response: On occasion.

Affected Public: Insured State nonmember banks wishing to exercise trust powers.

Estimated Number of Respondents: 15.

Estimated Time per Response for Eligible Depository Institutions: 8 hours.

Estimated Time per Response for Institutions that do not Qualify as Eligible Institutions: 24 hours.

Total Annual Burden: 200 hours.

General Description of Collection:

FDIC regulations (12 CFR 333.2) prohibit any insured State nonmember bank from changing the general character of its business without the prior written consent of the FDIC. The exercise of trust powers by a bank is usually considered to be a change in the general character of a bank's business if the bank did not exercise those powers previously. Therefore, unless a bank is currently exercising trust powers, it must file a formal application to obtain the FDIC's written consent to exercise trust powers. State banking authorities, not the FDIC, grant trust powers to their banks. The FDIC merely consents to the exercise of such powers. Applicants use form FDIC 6200/09 to obtain FDIC's consent.

2. **Title:** Consumer Protections for Depository Institution Sales of Insurance.

OMB Number: 3064-0140.

Form Number: None.

Frequency of Response: On occasion.

Affected Public: Insured State nonmember banks that sell insurance products; persons who sell insurance products in or on behalf of insured State nonmember banks.

Estimated Number of Respondents: 3,740.

Estimated Time per Response: 5 hours.

Total Annual Burden: 18,700 hours.

General Description of Collection:

Respondents must prepare and provide certain disclosures to consumers (e.g., that insurance products and annuities are not FDIC-insured) and obtain consumer acknowledgments, at two different times: (1) Before the completion of the initial sale of an insurance product or annuity to a consumer; and (2) at the time of application for the extension of credit (if insurance products or annuities are sold, solicited, advertised, or offered in connection with an extension of credit).

Request for Comment

Comments are invited on: (a) Whether these collections of information are necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collections on respondents, including through the use of automated collection techniques or other forms of information technology.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the collections should be modified prior to submission to OMB for review and approval. Comments submitted in response to this notice also will be summarized or included in the FDIC's requests to OMB for renewal of these collections. All comments will become a matter of public record.

Dated at Washington, DC, this 13th day of May 2010.
