

- (i) Have at least ¼ degree of Western Shoshone blood;
- (ii) Be living on July 7, 2004;
- (iii) Be a citizen of the United States; and

(iv) Not be certified by the Secretary to be eligible to receive a per capita payment from any other judgment fund based on an aboriginal land claim awarded by the Indian Claims Commission, the United States Claims Court, or the United States Court of Federal Claims, that was appropriated on or before July 7, 2004.

The Secretary will use Indian census rolls prepared by the Agents or Superintendents at Carson or Western Shoshone Agencies between the years of 1885 and 1940 and other documents acceptable to the Secretary in establishing proof of eligibility of an individual to be listed on the judgment roll and receive a per capita payment under the Western Shoshone Claims Distribution Act.

In the preamble to the regulation governing the creation of the roll of Western Shoshone identifiable group of Indians for judgment fund distribution, the Bureau of Indian Affairs set out a non-regulatory formula for determining the application deadline. Because that formula has proven to be administratively impractical to administer, the Bureau of Indian Affairs, in conjunction with tribal leaders and the Western Shoshone Claims Steering Committee, has selected an application deadline that approximates what the deadline would be under the formula in the preamble, if that formula had worked as intended.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The United States Forest Service (USFS) has filed an application with the Bureau of Land Management (BLM) that proposes to extend the duration of Public Land Order (PLO) No. 6880, as corrected by PLO No. 6918, for an additional 20-year term. PLO No. 6880 withdrew approximately 11,675.51 acres of National Forest System land from mining in order to protect the scientific and ecological values, and the investment of Federal funds at the Pringle Falls Experimental Forest and Research Natural Area. The withdrawal created by PLO No. 6880 will expire on September 29, 2011, unless extended. This notice also gives an opportunity to comment on the proposed action and to attend a public meeting.

DATES: Comments must be received by August 18, 2010.

ADDRESSES: Comments should be sent to the Oregon/Washington State Director, BLM, P.O. Box 2965, Portland, OR 97208-2965.

SUPPLEMENTARY INFORMATION: The United States Forest Service has filed an application requesting that the Secretary of the Interior extend PLO No. 6880 (56 FR 49416 (1991)), as corrected by PLO No. 6918 (56 FR 66602 (1991)), for an additional 20-year term, subject to valid existing rights. PLO 6880, as corrected by PLO No. 6918, withdrew certain lands in Deschutes County, Oregon, from location and entry under the United States mining laws (30 U.S.C. ch. 2). The area described contains approximately 11,675.51 acres in Deschutes County. PLO No. 6880 is incorporated herein by reference.

The purpose of the proposed withdrawal extension is to continue the protection of the scientific and ecological values, and the investment of Federal funds at the Pringle Falls Experimental Forest and Research Natural Area.

The use of a right-of-way, interagency agreement, or cooperative agreement would not provide adequate protection.

The Forest Service would not need to acquire water rights to fulfill the purpose of the requested withdrawal extension.

Records related to the application may be examined by contacting Charles R. Roy at the above address or phone number.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal extension may present their views in writing to the BLM Oregon/Washington State Director at the address indicated above. A notice of the time and place of this meeting will be published in at least one local newspaper, no less than 30 days before the scheduled date of the meeting. Interested parties may make oral statements at the meeting and may file written statements with the BLM. All statements received will be considered before any recommendation concerning the proposed extension is submitted to

the Assistant Secretary for Land and Minerals Management for final action.

ADDRESSES: Mail written comments to Ruben Sanchez, BLM Field Manager, Kingman Field Office, 2755 Mission Boulevard, Kingman, Arizona, 86401.

FOR FURTHER INFORMATION CONTACT: Andy Whitefield, Environmental Protection Specialist, at the above address, or by e-mail at: andy_whitefield@blm.gov, or phone (928) 718-3746.

SUPPLEMENTARY INFORMATION: The BLM has examined and found suitable to be classified for lease and subsequent conveyance under the provisions of the R&PP Act, as amended (43 U.S.C. 869 *et seq.*), the following described public land:

Gila and Salt River Meridian

T. 21 N., R. 18 W.,

Sec. 8, S $\frac{1}{2}$ S $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$.

The area described contains approximately 12.5 acres, more or less, in Mohave County.

In accordance with the R&PP Act, the College filed an application to lease and/or purchase the above-described property to develop as a community college. The proposed facilities would consist of classrooms, offices, computer facilities, library and bookstore, athletic facilities, and related appurtenances for educational purposes. The community college would provide important educational services for a portion of Mohave County which has experienced rapid population growth. Additional detailed information pertaining to this application, plan of development, and site plan is located in case file AZA 34298 at the BLM Kingman Field Office at the address above.

The College is a political subdivision of the State of Arizona and is therefore a qualified applicant under the R&PP Act. The above-described land is not needed for any Federal purpose. Lease and/or conveyance of the land to the College would be in conformance with the BLM Kingman Resource Management Plan, approved March 1995, and would be in the public interest. The College has not applied for more than 640 acres for public purposes other than recreation in a year, the limit set in 43 CFR 2741.7(a)(2), and has submitted a statement in compliance with the regulations at 43 CFR 2741.4(b).

Any lease or conveyance will be subject to the provisions of the R&PP Act and applicable regulations of the Secretary of the Interior, and will be subject to the following terms, conditions, and reservations:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States Act of August 30, 1890, 26 Stat. 391 (43 U.S.C. 945);

2. All minerals shall be reserved to the United States, together with the right to prospect for, mine and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe;

5. Right-of-way AZA 017931 for a road, granted to the Mohave County Board of Supervisors, its successors and assigns, pursuant to Section 501 of the

Federal Land Policy and Management Act (FLPMA) (43 U.S.C. 1761);

6. Right-of-way AZA 021363 held by UNS Electric for power line purposes, pursuant to Section 501 of FLPMA (43 U.S.C. 1761);

7. All valid existing rights documented on the official public land records at the time of lease or patent issuance;

8. An appropriate indemnification clause protecting the United States from claims arising out of the lessee/patentee's use, occupancy, or operations on the leased/patented lands; and

9. Any other terms or conditions deemed necessary or appropriate by the authorized officer.

Upon publication of this notice in the **Federal Register**, the lands will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for lease or conveyance under the R&PP Act and leasing under the mineral leasing laws.

Classification Comments: Interested persons may submit comments involving the suitability of the land for development of a community college. Comments on the classification are restricted to whether: (1) The land is physically suited for the proposal or any other issues that would be pertinent to the environmental assessment (prepared under the National Environmental Policy Act of 1969) for this action; (2) The use will maximize the future use or uses of the land; (3) The use is consistent with local planning and zoning; and (4) The use is consistent with State and Federal programs.

Application Comments: Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the classification decision, or any other factor not directly related to the suitability of the land for R&PP use as a community college.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. Any adverse comments will be reviewed by the BLM State Director who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, the classification will become effective on July 19, 2010.
