

provide wilderness stewardship principles. Since numerous uses occur adjacent to these refuges, we would work with the partners to minimize the impacts to resources of the refuges from these adjacent activities (e.g., impacts from disturbance and from abandoned monofilament fishing line, cast nets, and crab traps on rare, threatened, and endangered species) and to improve the ethical outdoor behavior of area users. We would incorporate messages that focus on rare, threatened, and endangered species, the role and importance of these refuges in the landscape, and the importance of minimizing the impacts of human activities into on-site (at the "Ding" Darling Education Center) and off-site curriculum-based environmental education programs, as well as into interpretive and outreach materials developed for all refuges in the Complex. We would train volunteers, teachers, and staff to conduct educational and interpretive programs; increase outreach efforts and activities to the local communities; and work with partners to develop an annual satellite refuge event in one of the local communities.

Alternative D would create five staff positions specific to these refuges: Biological science technician, law enforcement officer, wildlife refuge specialist (assistant refuge manager), hydrologist, and park ranger (Environmental Education). The lead biologist at the J.N. "Ding" Darling NWR would continue to design and oversee the biological program and activities at the satellite refuges. We would work with the partners to evaluate and install interpretive signage at partner sites. We would expand existing partnerships and develop new partnerships. A key refuge administration activity would be to work to improve the visibility and image of the Service in communities around these refuges to build support for refuge management, including through the development of an annual event in one of the local communities to highlight the satellite refuges.

Next Step

After the comment period ends, we will analyze the comments and address them.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment

to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: This notice is published under the authority of the National Wildlife Refuge System Improvement Act of 1997, Pub. L. 105-57.

Dated: April 14, 2010.

Mark J. Musaus,

Acting Regional Director.

National Park Service

Notice of Inventory Completion: University of Colorado Museum, Boulder, CO

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the possession of the University of Colorado Museum, Boulder, CO. The human remains were removed from Meagher County, MT.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by University of Colorado Museum professional staff in consultation with representatives of the Blackfeet Tribe of the Blackfeet Indian Reservation of Montana; Crow Tribe of Montana; Fort Belknap Indian Community of the Fort Belknap Reservation of Montana; and Three Affiliated Tribes of the Fort Berthold Reservation, North Dakota.

Possibly in 1905, human remains representing a minimum of two individuals were removed from Musselshell River, Meagher County, MT, possibly by Ralph Hubbard. One of the individuals appears to have sustained three gun-shot wounds. No known individuals were identified. No associated funerary objects are present.

Previously, human remains representing seven individuals from Meagher County, MT, were identified in the museum's Culturally Unidentifiable Human Remains Inventory (dated May 16, 1996). After consultation, human remains representing five individuals with two associated funerary objects from "in a butte ("Sentinal [sic] Rock"), Meagher County, MT," were determined
