Abstract: The U.S. Department of Education's (ED) Office of Innovation and Improvement (OII) has developed a Web-based platform, the Open Innovation Web Portal (Portal), to support communication and collaboration among a wide range of key education stakeholders, including practitioners, funders, and the general public. This platform, which is currently operating under emergency clearance, allows geographically dispersed but like-minded entities to discover each other and work together to address some of the most intractable challenges in education. OII promotes this platform as a tool for use with the Investing in Innovation grant program (i3), which was established as the "Innovation Fund" in the "American Recovery and Reinvestment Act of 2009" (ARRA), signed into law by the President on February 17, 2009. This new program will provide \$650,000,000 in competitive grants to Local Education Agencies (LEAs), non-profit organizations working in collaboration with LEAs, or non-profit organizations working in collaboration with a consortium of schools. The Department must obligate funds to i3 grantees before the end of the fiscal year 2010, September 30, 2010. The Department also plans for the Portal to remain operational after i3 funding is awarded so that there is an ongoing community that focuses on innovation in education. Part of our intent in implementing the i3 program is to identify innovative new approaches proposed by individuals and organizations that have previously had limited experience in obtaining grants in the education sector yet have promising evidence-based ideas for improving American education. These applicants in particular face challenges in identifying schools or LEAs with which to partner given their limited experience in the field. Further, organizations without existing relationships in education may find it difficult to secure the private sector matching funds required of all grantees under ARRA. Receiving OMB's approval for an extension Receiving OMB's approval for an extension of the PRA clearance will allow continued operation of the Portal, which currently has over 3000 members, and support improved student achievement through school improvement and reform, a key departmental goal.

Title: Streamlined Clearance Process for Discretionary Grant Information Collections.

Frequency: Annually.

Affected Public: Businesses or other for-profit; State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Burden Hours: 1.

Abstract: Section 3505(a)(2) of the Paperwork Reduction Act (PRA) of 1995 provides the OMB Director authority to approve the streamlined clearance process proposed in this information collection request. This information collection request was originally approved by OMB in January of 1997. This information collection streamlines the clearance process for all discretionary grant information collections which do not fit the generic application process. The streamlined clearance process continues to reduce the clearance time for the U.S. Department of Education's (ED's) discretionary grant information collections by two months or 60 days. This is desirable for two major reasons: it would allow ED to provide better customer service to grant applicants and help meet ED's goal for timely awards of discretionary grants. This is a request to extend the clearance process for discretionary grant information collections, and continue to be streamlined in the following manner:

the clearance process begins when ED submits the collection to OMB and, simultaneously, publishes a 30-day public comment period notice in the **Federal Register**. OMB has 60 days, following the beginning of the public comment period, to reach a decision on the collection.
