SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a document entitled “Guidance for Industry: Revised Preventive Measures to Reduce the Possible Risk of Transmission of Creutzfeldt-Jakob Disease (CJD) and Variant Creutzfeldt-Jakob Disease (vCJD) by Blood and Blood Products” dated May 2010. This guidance amends the 2002 FDA guidance of the same title by incorporating donor deferral recommendations as to donors in France (as announced in the 2006 draft guidance), providing updated scientific information on CJD and vCJD, revising labeling recommendations for Whole Blood and blood components intended for transfusion, and recognizing the use of AABB’s full Donor History Questionnaire Version 1.3 as an acceptable mechanism for collection of donor history information. The guidance announced in this notice supersedes the guidance document entitled “Guidance for Industry: Revised Preventive Measures to Reduce the Possible Risk of Transmission of Creutzfeldt-Jakob Disease (CJD) and Variant Creutzfeldt-Jakob Disease (vCJD) by Blood and Blood Products” dated January 2002 (2002 guidance), and the draft guidance document entitled “Draft Guidance for Industry: Amendment (Donor Deferral for Transfusion in France Since 1980) to ‘Guidance for Industry: Revised Preventive Measures to Reduce the Possible Risk of Transmission of Creutzfeldt-Jakob Disease (CJD) and Variant Creutzfeldt-Jakob Disease (vCJD) by Blood and Blood Products’” dated August 2006 (2006 draft guidance).
