

by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Organic liquids distribution facilities.
Estimated Number of Respondents: 381.

Frequency of Response: Initially, occasionally, semiannually, and annually.

Estimated Total Annual Hour Burden: 85,503.

Estimated Total Annual Cost: \$16,646,771 which includes \$8,087,607 in labor costs, \$1,636,864 in capital/startup costs, and \$6,922,300 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) the regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent. Therefore, the labor hours in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR. There is, however, an apparent increase of two hours in the total Agency hours for this ICR. The total Agency hours for this ICR is 10,520 rather than 10,518 in the previous ICR, because the previous ICR did not retain decimal places in intermediate calculations.

There is an increase in both respondent and Agency labor burden costs resulting from labor rate increases from 2003 to the most recently available rates. The increase in cost to respondents and the Agency is due to labor rate adjustments to reflect the most recent available estimates.

Title: NESHAP for Metal Can Manufacturing Surface Coating (Renewal).

ICR Numbers: EPA ICR Number 2079.04, OMB Control Number 2060-0541.

ICR Status: This ICR is scheduled to expire on July 31, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NESHAP for Metal Can Manufacturing Surface Coating at 40 CFR part 63,

subpart A, and any changes, or additions, to the Provisions specified at 40 CFR part 63, subpart KKKK.

Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 91 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Metal can manufacturing surface coating.

Estimated Number of Respondents: 71.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 27,517.

Estimated Total Annual Cost: \$2,687,973, which includes \$2,602,773 in labor costs, no capital/startup costs, and \$85,200 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the respondents is very low, negative or non-existent. Therefore, the labor hours in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR.

There is an increase in both respondent and Agency costs due to

labor rate increases from 2003 to the most recently available rates.
