n. Comments, Protests, or Motions to Intervene: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission’s Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

Filing and Service of Responsive Documents: All filings must (1) bear in all capital letters the title “PROTEST”, “MOTION TO INTERVENE”, “COMMENTS,” “REPLY COMMENTS,” “RECOMMENDATIONS,” “TERMS AND CONDITIONS,” or “FISHWAY PRESCRIPTIONS”; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, recommendations, terms and conditions or prescriptions should relate to project works which are subject of the license amendment. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

p. As provided for in 18 CFR 4.34(b)(5)(i), a license applicant must file, no later than 60 days following the date of issuance of this notice of acceptance and ready for environmental analysis; (1) A copy of the water quality certification; (2) a copy of the request for certification, including proof of the date on which the certifying agency received the request; or (3) evidence of waiver of water quality certification.

q. e-Filing: Motions to intervene, protests, comments, recommendations, terms and conditions, and fishway prescriptions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission’s Web site at http://www.ferc.gov under the “e-Filing” link.

[Project No. 2211–004]

Duke Energy Indiana, Inc.; Indiana; Notice of Availability of Environmental Assessment

May 21, 2010.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47907), the Office of Energy Projects has reviewed the application for a new license for the Markland Hydroelectric Project, located at the U.S. Army Corps of Engineers’ (Corps) existing Markland Locks and Dam on the Ohio River in Switzerland County, Indiana, and has prepared an Environmental Assessment (EA) for the project. Parts of the project occupy 6.21 acres of federal land administered by the Corps; Duke Energy Indiana, Inc. proposes changing the project boundary to include a total of 10.2 acres of federal land to accommodate new and existing project facilities.

The EA contains the staff’s analysis of the potential environmental impacts of continued operation and maintenance of the project and concludes that relicensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site at http://www.ferc.gov using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCONlineSupport@ferc.gov or toll-free at 1–866–208–3676, or for TTY, (202) 502–8659.

You may also register online at http://www.ferc.gov/docs-filing/esubscription.asp to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Any comments should be filed within 30 days from the date of this notice. Comments may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission’s Web site (http://www.ferc.gov/docs-filing/ferconline.asp) under the “eFiling” link. For a simpler method of submitting text-only comments, click on “Quick Comment.” For assistance, please contact FERC Online Support at FERCONlineSupport@ferc.gov; call toll-free at (866) 208–3676; or, for TTY, contact (202) 502–8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and eight copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

Please affix Project No. 2211–004 to all comments.

For further information, contact Dianne Rodman at (202) 502–6077.

[Project No. 2088–075]

South Feather Water and Power Agency; Notice of Availability of Environmental Assessment

May 20, 2010.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission’s (Commission) regulations, (18 CFR Part 380), Commission staff has prepared an environmental assessment (EA) regarding South Feather Water and Power Agency’s (SWWPA) request to raise the dam crest and modify the spillway at Sly Creek Dam, part of the Sly Creek Development of the South Feather Power Project (FERC No. 2088). Sly Creek is located on Sly Creek...
Reservoir, which receives water from Lost Creek, and the Slate Creek and South Fork Feather River diversion tunnels in Butte, Yuba and Plumas counties, California.

SFWPA’s Proposed Action includes: (1) Raising Sly Creek Dam approximately 10 feet through the use of mechanically stabilized earth walls constructed from approximately 20,000 cubic yards of fill from an onsite borrow area; (2) modifying the spillway crest structure; (3) replacing the spill gate; and (4) altering roadway approaches to the Sly Creek Dam crest and re-paving the road to improve drainage conditions in the adjacent campground and borrow site.

The EA contains Commission staff’s analysis of the potential environmental effects of the Proposed Action and concludes that the Proposed Action, with the implementation of environmental protective measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is available for review at the Commission’s Public Reference Room, or it may be viewed on the Commission’s Web site at http://www.ferc.gov using the “eLibrary” link. Enter the docket number (P–2068) in the docket number field to access the document. Additional information about the project is available from the Commission’s Web site using the eLibrary link. For assistance with eLibrary, contact FERCOnlineSupport@ferc.gov or toll-free at (866) 208–3676; for TTY, contact (202) 502–8659.

[Docket No. PR10–25–000]

Consumers Energy Company; Notice of Baseline Filing

May 21, 2010.

Take notice that on May 17, 2010, Consumers Energy Company (Consumers) submitted a baseline filing of its Statement of Operating Conditions for the interruptible transportation services provided under section 311(a)(2) of the Natural Gas Policy Act of 1978 (“NGPA”).

Any person desiring to participate in this rate proceeding must file a motion to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 14 copies of the protest or intervenor’s position to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at http://www.ferc.gov, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5 p.m. Eastern Time on Friday, May 28, 2010.

Kimberly D. Bose, Secretary.

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy; Energy Efficiency and Conservation Block Grant Program

ACTION: Notice.

SUMMARY: This document advises the public that a class deviation to the Department of Energy (DOE) Financial Assistance Rules, particularly the regulations that deal with programmatic changes, and DOE policies and procedures on the use of warranted Contracting Officers to administer financial assistance agreements, has been approved for the Energy Efficiency and Conservation Block Grant (EECBG) program. This class deviation gives authority to EECBG Program Managers to approve the following processes for financial assistance agreements made using Recovery Act funding to State, city, county, and Tribal recipients in support of the formula EECBG program: Administer financial assistance awards for approval of programmatic changes under the Changes section of the Financial Assistance Rules; review of subsequent budget submittals for consistency with the requirements of Office of Management and Budget’s (OMB) Cost Principles for State, Local and Indian Tribal Governments (questions on allowability, allocability and reasonableness of budgets and individual cost elements will be forwarded to the Contracting Officer for adjudication), remove and/or modify National Environmental Policy Act (NEPA) restrictions, including guidance on NEPA requirements; and amend agreements for administrative activities such as lifting conditions based on approval of Strategies. The class deviation does not apply to non-formula awards.

DATES: This class deviation is effective June 14, 2010.

FOR FURTHER INFORMATION CONTACT: Mr. Tyler Huebner, U.S. Department of Energy, Office of Weatherization and Intergovernmental Programs, Mailstop EE–2K, 1000 Independence Avenue, SW., Washington, DC 20585–0121. E-mail: tyler.huebner@ee.doe.gov.

SUPPLEMENTARY INFORMATION:

I. Background

II. Discussion

III. Determination

I. Background

The DOE, Office of Energy Efficiency and Renewable Energy (EERE), has experienced historic growth and unprecedented workload challenges as a result of the passage of the American Recovery and Reinvestment Act of 2009 (Recovery Act). The Recovery Act provides critical funding to be spent in support of the economy, creating jobs and serving the public purpose by advancing the development and adoption of renewable and energy efficiency technology.

The Recovery Act included conditions on the use of its funding for all awards. These conditions included
