DEPARTMENT OF THE INTERIOR

Central Utah Project Completion Act

AGENCY: Department of the Interior, Office of the Assistant Secretary—Water and Science.

ACTION: Notice of Availability of the Finding of No Significant Impact Associated with the Environmental Assessment for Wasatch County Water Efficiency Project Recycled Water Project.

SUMMARY: On April 23, 2010, the Department of the Interior (Interior), signed a Finding of No Significant Impact (FONSI) which documents the selection of the Proposed Action as presented in the Final Environmental Assessment (EA) for the Wasatch County Water Efficiency Project Recycled Water Project. Interior has determined that implementing the Proposed Action described in the EA will not have a significant impact on the quality of the human environment and that an environmental impact statement is not required. This project anticipates conveying recycled water in the facilities of the Wasatch County Water Efficiency Project (WCWEP), Bonneville Unit, Central Utah Project (CUP). It would provide an opportunity for more effective and efficient management of water, make efficient use of recycled water, provide opportunities for stream and wetland benefits, and encourage the conservation and wise use of water, all of which are objectives of the CUP Completion Act.

The proposed action would allow recycled water to be conveyed and used in WCWEP facilities and through exchange become CUP water. All water supply commitments under the existing contracts and agreements will continue to be met.

A copy of the Final EA and FONSI may be accessed on the Internet at <http://www.cuwcd.com>. CD and paper copies can be obtained by contacting: Sarah Sutherland, 355 West University Parkway, Orem, UT 84058, sarah@cuwcd.com, 801.226.7146.

[FWS-R3-R-2010-N042; 30136-1265-0000-S3]

Swan Lake National Wildlife Refuge, Chariton County, MO

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability: draft comprehensive conservation plan and environmental assessment; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a draft comprehensive conservation plan (CCP) and draft environmental assessment (EA) for Swan Lake National Wildlife Refuge (NWR) for public review and comment. In this draft CCP/EA we describe how we propose to manage the refuge for the next 15 years.

DATES: To ensure consideration, we must receive your written comments by July 5, 2010. An open house style meeting will be held during the comment period to receive comments and provide information on the draft plan. Special mailings, newspaper articles, internet postings, and other media announcements will inform people of the meetings and opportunities for written comments.

ADDRESSES: Comments or requests for more information can be sent by any of the following methods. You may also drop off comments in person at Swan Lake NWR.

1. *Agency Web site:* View or download a copy of the document and comment at <http://www.fws.gov/midwest/planning/SwanLake/index.html>.

2. *E-mail:* r3planning@fws.gov. Include "Swan Lake Draft CCP/EA" in the subject line of the message.

3. *Fax:* 660-856-3687.

4. *Mail:* Attention: Refuge Manager, Swan Lake National Wildlife Refuge, 16194 Swan Lake Avenue, Sumner, Missouri 64681.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the CCP process for Swan Lake NWR, which we began by publishing a notice of intent on (71 FR 20722-20723, April 21, 2006). For more about the initial process and the history of this refuge, see that notice.

Swan Lake NWR was established in 1937 by Executive Order 7563 to serve

as a refuge and breeding ground for migratory birds and other wildlife. The Refuge includes 10,670 acres and is also responsible for managing 57 easements and outlying fee title tracts scattered across 15 counties in Missouri.

Background

The CCP Process

The National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd-668ee), requires us to develop a comprehensive conservation plan for each national wildlife refuge. The purpose in developing a CCP is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and Service policies. In addition to outlining broad management direction on conserving wildlife and their habitats, plans identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation, wildlife photography, and environmental education and interpretation.

CCP Alternatives and Our Preferred Alternative

Priority Issues

During the public scoping process, we, other stakeholders and partners, and the public identified several priority issues, which include habitat management, sedimentation, flooding, and demand for additional recreation opportunities and visitor services. To address these issues, we developed and evaluated the following alternatives during the planning process.

Alternative 1: Current Management Direction and Activities (No Action)

The current management direction of Swan Lake NWR would be maintained under this alternative. For NEPA purposes, this is referred to as the "No Action" alternative, a misnomer as some changes will occur over the next 15 years. Management includes conservation, restoration, and preservation but occurs opportunistically as budgets allow. Farming and water management would continue in those areas where it currently exists. Some programs, especially environmental education and outreach, would see improvements only if budgets increase in the future.
