SUPPLEMENTARY INFORMATION:

Title: Executive Branch Personnel Public Financial Disclosure Report.

Form Number: SF 278.

OMB Control Number: 3209-0001.

Type of Information Collection:

Extension without change of a currently approved collection.

Type of Review Request: Regular.

Respondents: Private citizen

Presidential nominees to executive branch positions subject to Senate confirmation; other private citizens who are potential (incoming) Federal employees whose positions are designated for public financial disclosure filing; those who file termination financial disclosure reports for such positions after their Government service ends; and Presidential and Vice-Presidential candidates.

Estimated Annual Number of Respondents: 1,300.

Estimated Time per Response: 3 hours.

Estimated Total Annual Burden: 3,900 hours.

Abstract: The SF 278 collects information from certain officers and high-level employees in the executive branch for conflicts of interest review and public disclosure. The form is also completed by individuals who are nominated by the President for high-level executive branch positions requiring Senate confirmation and new entrants to other public reporting positions in the executive branch. The financial information collected relates to: assets and income; transactions; gifts, reimbursements and travel expenses; liabilities; agreements or arrangements; outside positions; and compensation over \$5,000 paid by a source—all subject to various reporting thresholds and exclusions. The information is collected in accordance with section 102 of the Ethics Act, 5 U.S.C. app. section 102, and OGE's implementing financial disclosure regulations at 5 CFR part 2634.

Request for Comments: OGE published a first round notice of its intent to request paperwork clearance for the proposed unmodified SF 278 Executive Branch Personnel Public Financial Disclosure Report on March 19, 2010 (see 75 FR 13287). OGE received no responses to that notice. Agency and public comment is again invited specifically on the need for and practical utility of this information collection, the accuracy of OGE's burden estimate, the enhancement of quality, utility and clarity of the information collected, and the minimization of burden (including the use of information technology). Comments received in response to this notice will be summarized for, and may be included with, the OGE request for extension of OMB paperwork approval. The comments will also become a matter of public record.

Approved: May 26, 2010.

Robert I. Cusick,

Director, Office of Government Ethics.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Biodefense Science Board; Call for Nominees

AGENCY: Department of Health and Human Services, Office of the Secretary.

ACTION: Notice.

SUMMARY: The Office of the Secretary is accepting resumes or curricula vitae from qualified individuals who wish to be considered for membership on the National Biodefense Science Board. Six members have membership expiration dates of December 31, 2010. Nominees are being accepted in the following categories: industry; academia, health care consumers, and from State and local governments and public health agencies, emergency responders and organizations representing other appropriate stakeholders. Submit a resume or curriculum vitae to nbsb@hhs.gov by June 30, 2010.

FOR FURTHER INFORMATION, CONTACT: CAPT Leigh A. Sawyer, D.V.M., M.P.H., Executive Director, National Biodefense Science Board, Office of the Assistant Secretary for Preparedness and Response, U.S. Department of Health and Human Services, 330 C Street, SW., Switzer Building Room 5127, Washington, DC 20447; 202-205-3815; fax: 202-205-8508; e-mail address: leigh.sawyer@hhs.gov.

SUPPLEMENTARY INFORMATION: Pursuant to section 319M of the Public Health Service Act (42 U.S.C. 247d-7f) and section 222 of the Public Health Service Act (42 U.S.C. 217a), the Department of Health and Human Services established the National Biodefense Science Board. The Board shall provide expert advice and guidance to the Secretary on scientific, technical, and other matters of special interest to the Department of Health and Human Services regarding current and future chemical, biological, nuclear, and radiological agents, whether naturally occurring, accidental, or deliberate. The Board may also provide advice and guidance to the Secretary on other matters related to public health emergency preparedness and response.

Description of Duties: The Board shall advise the Secretary on current and future trends, challenges, and opportunities presented by advances in biological and life sciences, biotechnology, and genetic engineering with respect to threats posed by naturally occurring infectious diseases and chemical, biological, radiological, and nuclear agents. At the request of the Secretary, the Board shall review and consider any information and findings received from the working groups established under 42 U.S.C. 247d-7f(b). At the request of the Secretary, the Board shall provide recommendations and findings for expanded, intensified, and coordinated biodefense research and development activities. Additional advisory duties concerning public health emergency preparedness and response may be assigned at the discretion of the Secretary.

Structure: The Board shall consist of 13 voting members, including the Chairperson; additionally, there may be non-voting ex officio members. Members and the Chairperson shall be appointed by the Secretary from among the Nation's preeminent scientific, public health and medical experts, as follows: (a) Such Federal officials as the Secretary determines are necessary to support the functions of the Board, (b) four individuals from the pharmaceutical, biotechnology and device industries, (c) four academicians, and (d) five other members as determined appropriate by the Secretary, one of whom must be a practicing health care professional and one of whom must be from an organization representing health care consumers. Additional members for category (d), above, will be selected from among State and local governments and public health agencies, emergency medical responders and organizations representing other

appropriate stakeholders. A member of the Board described in (b), (c), and (d) in the above paragraph shall serve for a term of 3 years, except that the Secretary may adjust the terms of the initial Board appointees in order to provide for a staggered term of appointment of all members. Members who are not fulltime or permanent part-time Federal employees shall be appointed by the Secretary as Special Government Employees.

Dated: May 21, 2010.

Nicole Lurie,

Assistant Secretary for Preparedness and Response, U.S. Department of Health and Human Services.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Cross-Site Evaluation of the Garrett Lee Smith Memorial Suicide Prevention and Early Intervention Programs (OMB No. 0930-0286)—Revision

The Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Mental Health Services (CMHS) will continue to conduct the cross-site evaluation of the Garrett Lee Smith Memorial Youth Suicide Prevention and Early Intervention State/Tribal Programs and the Garrett Lee Smith Memorial Youth Suicide Prevention Campus Programs. The data collected through the cross-site evaluation addresses four stages of program activity: (1) The context stage includes a review of program plans, such as grantee's target population, target region, service delivery mechanisms, service delivery setting, types of program activities to be funded and evaluation activities; (2) the product stage describes the prevention strategies that are developed and utilized by grantees; (3) the process stage assesses progress on key activities and

milestones related to implementation of program plans; and (4) the impact stage assesses the impact of the program on early identification, referral for services and service follow up of youth at risk.

Additionally, to obtain a comprehensive understanding of the integration of community-based behavioral health services with services provided by college or university campuses, SAMHSA will conduct case studies of four exemplary Campus suicide prevention programs. Currently, case studies of two campus grantees are underway. The goal of the Campus Case Studies is to understand how a public health approach is successfully applied as a model for campus suicide prevention efforts, and will explore, in a systematic manner: The suicide prevention related infrastructures and supports (e.g., clinical and non-clinical) that exist on selected GLS-funded campuses; the various student-level factors that are related to suicide prevention efforts (e.g., protective factors, coping strategies, social norms, and facilitators and barriers to student access and receipt of behavioral healthcare); campus interdepartmental collaboration and the relationship between various efforts to promote student mental health and wellness; and the extent to which the campus infrastructures and supports promote and address these factors.

To date, 86 State/Tribal grants and 93 Campus grants have participated in the cross-site evaluation, since FY2007. Currently, 48 State/Tribal grants and 38 Campus grants are participating in the cross-site evaluation. Data will continue to be collected from suicide prevention program staff (e.g., project directors, evaluators), key program stakeholders (e.g., state/local officials, child-serving agency directors, gatekeepers, mental health providers, and campus administrators), training participants, college students, and campus faculty/staff through FY2012.

Since the State/Tribal grantees differ from the campus grantees in programmatic approaches, specific data collection activities also vary by type of program. The following describes the specific data collection activities and data collection instruments to be used across State/Tribal and Campus grantees for the cross-site evaluation and the specific data collection instruments to be used by selected Campus grantees for the Campus Case Studies. While most of the data collection instruments described below are revised versions of instruments that have previously received OMB approval (OMB No. 0930-0286 with Expiration Date: May 2010) and are currently in use, the

Training Utilization and Preservation—Survey (TUP-S) for State/Tribal grantees and the Training Exit Survey for Campus grantees (TES-C) are proposed as new instruments. The addition of these two new data collection activities, the inclusion of the Campus Case studies, and an overall growth in number of grants for both the State/Tribal and Campus programs has increased the burden associated with the cross-site evaluation. A summary table of number of respondents and respondent burden has also been included.

Data Collection Activities for State/Tribal Grantees

For State/Tribal grantees, the Prevention Strategies Inventory State/Tribal (PSI ST), Training Exit Survey State/Tribal (TES ST), Referral Network Survey (RNS) and Training Utilization and Preservation—Interview (TUP-I) described below are revised versions of instruments that previously received OMB approval (OMB No. 0930-0286 with Expiration Date: May 2010) and are currently in use. The Training Utilization and Preservation—Survey (TUP-S) is proposed as a new data collection instrument.

- *Prevention Strategies Inventory-State/Tribal (PSI ST)—Revised.* The Prevention Strategies Inventory will collect information on the suicide prevention strategies that grantees have developed and utilized. Prevention strategies include outreach and awareness, gatekeeper training, assessment and referral training for mental health professionals and hotline staff, lifeskills development programs, screening programs, hotlines and helplines, means restriction, policies and protocols for intervention and postvention, coalitions and partnerships, and direct services and traditional healing practices. Baseline data will be collected from the State/Tribal grantees at the beginning of their grant cycle. Thereafter, they will complete the PSI ST on a quarterly basis over the duration of their grant period. Baseline data will be collected on information on the types of prevention strategies grantees have developed and utilized, and the follow-up data collection asks the grantees to update the information they have provided on a quarterly basis over the period of the grant. On average, 48 State/Tribal grantees will fill out the PSI ST per year. One respondent from each site will be responsible for completing the survey. The survey will take approximately 45 minutes; however, the number of products, services and activities implemented under each strategy will
