Comal County Regional Habitat Conservation Plan, Comal County, TX

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability: draft environmental impact statement, draft habitat conservation plan, and permit application; announcement of a public hearing.

SUMMARY: Comal County, Texas (Applicant), has applied to the U.S. Fish and Wildlife Service (Service) for an incidental take permit (TE-223267-0) under section 10(a)(1)(B) of the Endangered Species Act (Act) of 1973, as amended. The requested permit, which would be in effect for a period of 30 years, if granted, would authorize incidental take of the following federally listed species: Golden-cheeked warbler (*Dendroica chrysoparia*) and black-capped vireo (*Vireo atricapilla*). The proposed take would occur in Comal County, Texas, as a result of activities including, but not limited to: Public or private construction and development, utility installation and maintenance, and public infrastructure projects. Comal County has completed a draft Habitat Conservation Plan (dHCP) as part of the application package. We have issued a draft Environmental Impact Statement (dEIS) that evaluates the impacts of, and alternatives to, possible issuance of an incidental take permit (ITP).

DATES: *Comment-period end:* To ensure consideration, we must receive written comments by close of business (4:30 p.m. CDT) on or before September 1, 2010.

Public meetings: We will accept oral and written comments at a public hearing to be held on July 27, 6 p.m. to 8 p.m., Comal County Commissioners Court, 199 Main Plaza, New Braunfels, Texas 78130.

ADDRESSES: For where to review documents and submit comments, and the public meeting location, see Reviewing Documents and Submitting Comments in **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Mr. Adam Zerrenner, Field Supervisor, U.S. Fish and Wildlife Service, 10711 Burnet Road, Suite 200, Austin, TX 78758 or 512-490-0057.

SUPPLEMENTARY INFORMATION: Under the National Environmental Policy Act (NEPA; 42 U.S.C. 4371 *et seq.*), this notice advises the public that we have gathered the information necessary to determine impacts and formulate alternatives for the EIS related to the potential issuance of an ITP to Comal County; and that the Applicant has developed an HCP which describes the measures the applicant has agreed to undertake to minimize and mitigate the effects of incidental take of federally listed species to the maximum extent practicable, under section 10(a)(1)(B) of the Act (16 U.S.C. 1531 *et seq.*).

Background

Our initial notice of intent to prepare an EIS and hold public scoping meetings published in the **Federal Register** on October 16, 2008 (73 FR 61433). A public scoping meeting was held on December 4, 2008, at Commissioners Court in New Braunfels, Texas. The dHCP and the conservation programs described in the plan were developed in a process involving participants and stakeholders from potentially affected or interested groups in Comal County. The groups are organized into a Citizens Advisory Committee and a Biological Advisory Team that have overseen the development of the dHCP. The Comal County Web site contains information on meetings, documents, and the status of the process.

Section 9 of the Act and its implementing regulations prohibit the "taking" of threatened and endangered species. However, under limited circumstances, we may issue permits to take listed wildlife species incidental to, and not the purpose of, otherwise lawful activities.

Proposed Action

The proposed action involves the issuance of an ITP by the Service for covered activities in Comal County, under section 10(a)(1)(B) of the Act. The activities that would be covered by the ITP are public or private construction and development, utility installation and maintenance (including, but not limited to, power and cable stations,

substations, and transmission lines; water, sewer, and natural gas pipelines; and plants and other facilities), and public infrastructure projects such as school development, road construction and maintenance, and parkland. The ITP will cover Comal County, Texas. The requested term of the permit is 30 years. To meet the issuance criteria for an ITP, the Applicant has developed and will implement the dHCP, which describes the conservation measures the Applicant has agreed to undertake to minimize the potential for and mitigate the potential effects of incidental take of golden-cheeked warbler and black-capped vireo to the maximum extent practicable.

Alternatives

The alternatives to the proposed action we are considering as part of this process are:

1. No Action—A countywide HCP would not be implemented, and no ITP would be issued. This alternative would require individuals to seek authorization through section 7 consultation or individual section 10 permits to address incidental take resulting from their actions in Comal County or avoid taking actions that would result in incidental take.
2. Modified (Reduced Take and Mitigation) HCP—This alternative would only cover take of the golden-cheeked warbler, and the amount of authorized take and mitigation would be reduced for this species.
3. Preferred Alternative (Proposed Comal County RHCP)—This alternative would involve issuance of a 10(a)(1)(B) permit covering impacts to 5,238 acres of golden-cheeked warbler habitat and 1,000 acres of black-capped vireo habitat.
